Foreword

Last year Dr. Merl Baker stepped down as chancellor of UMR and this year, on October 1, Dr. Raymond Bisplinghoff took over the responsibilities as the chancellor. Prior to his coming to the campus, Dr. Bisplinghoff served as deputy director of the National Science Foundation in Wash., D.C. One of his last assignments was that of a member of a U.S. delegation which visited Saudi Arabia to discuss the oil-energy situation.

We feel that we at UMR are extremely fortunate to have such a distinguished man as chancellor and hope that in the years that he is here he can continue to improve the quality of education we have here at UMR.

Thoughts of a New Chancellor

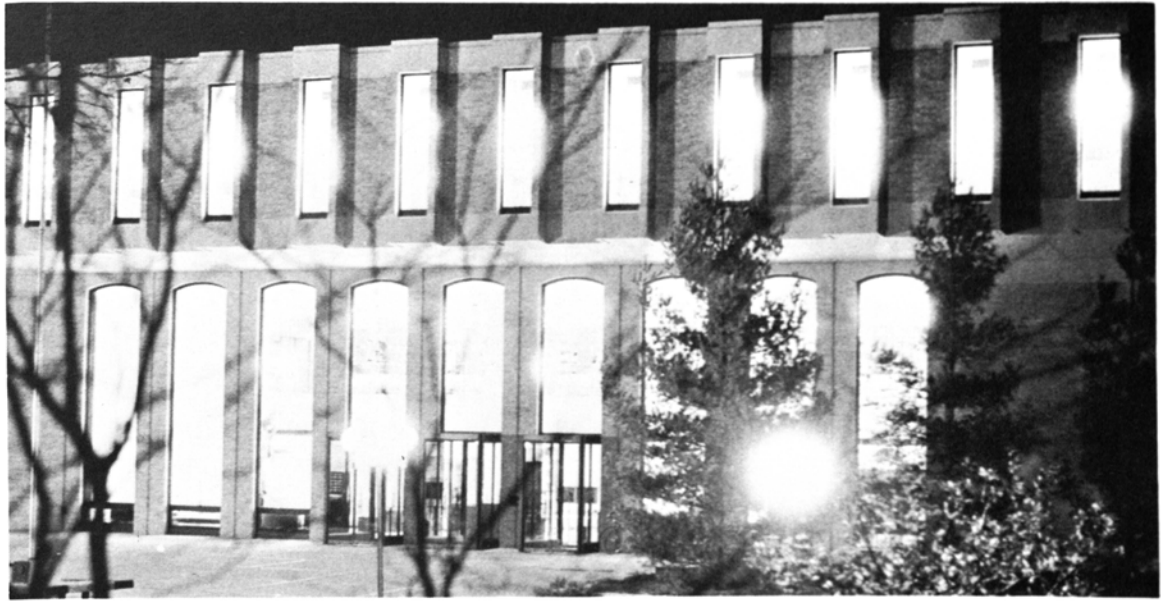

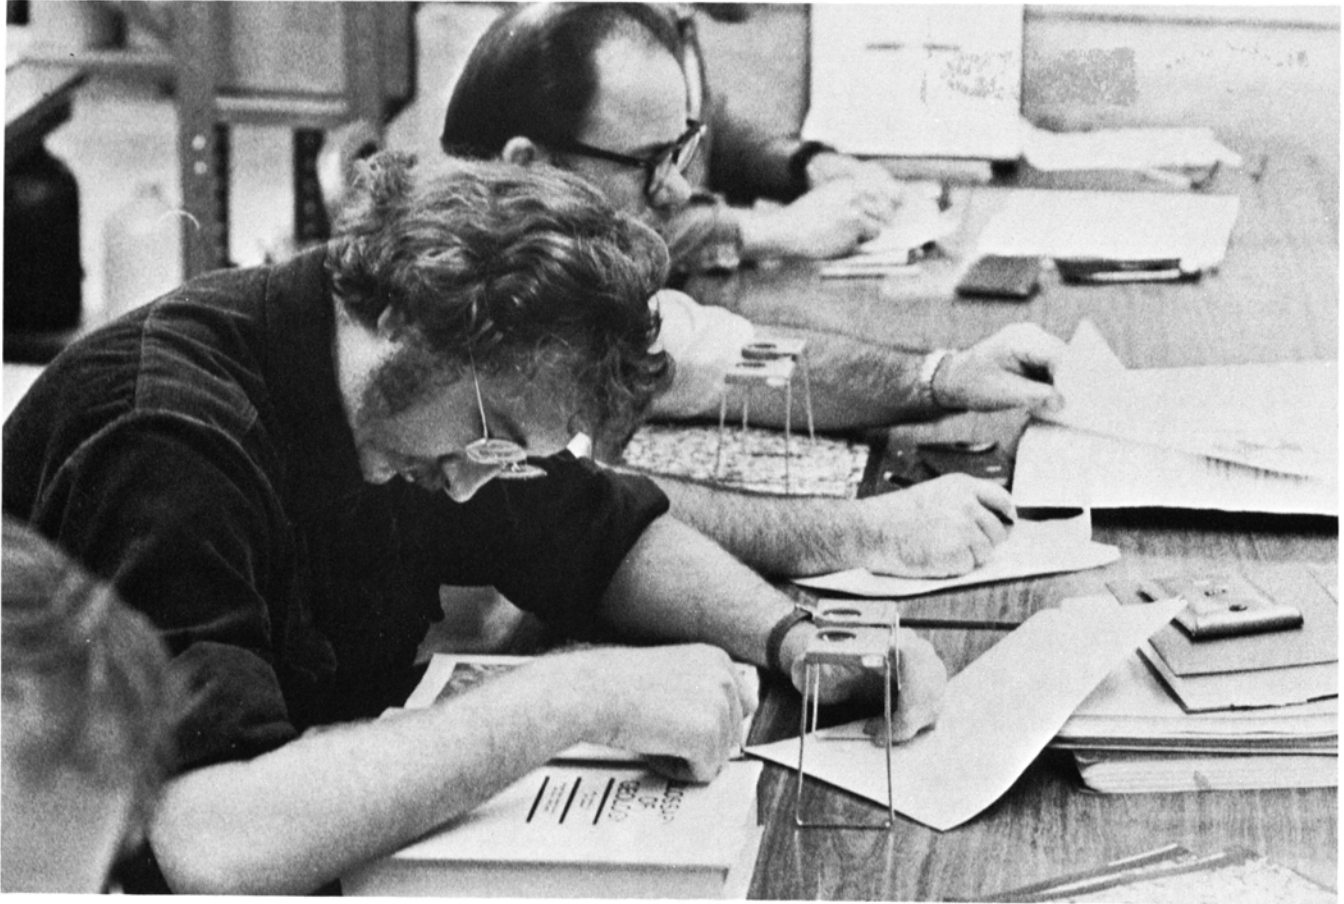

"I would like to see

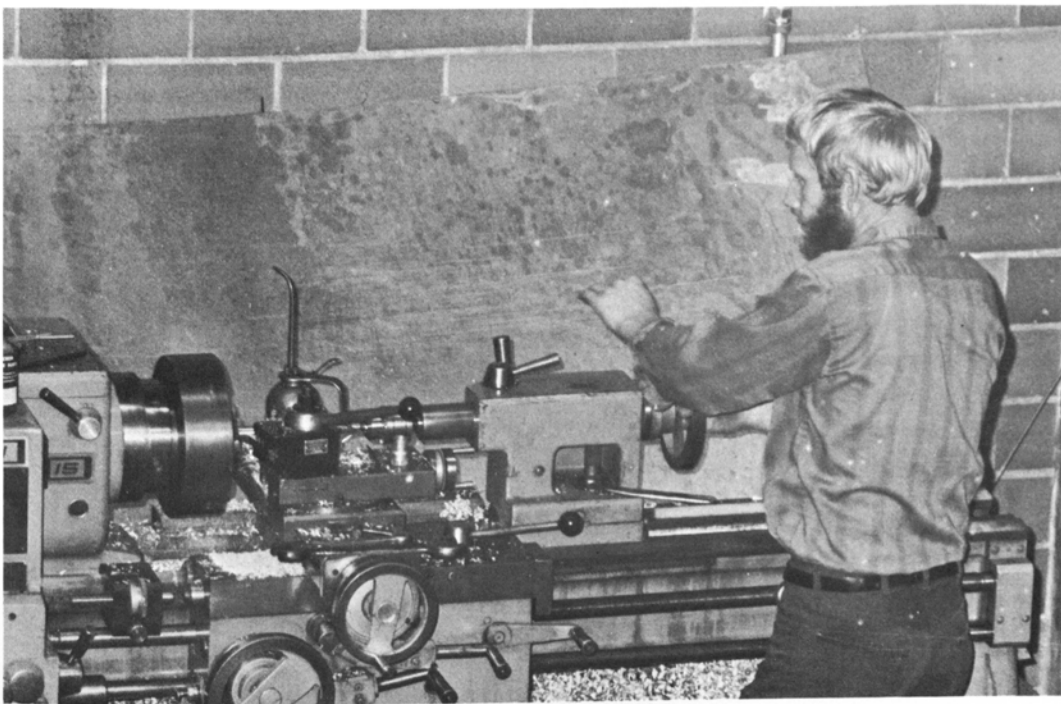

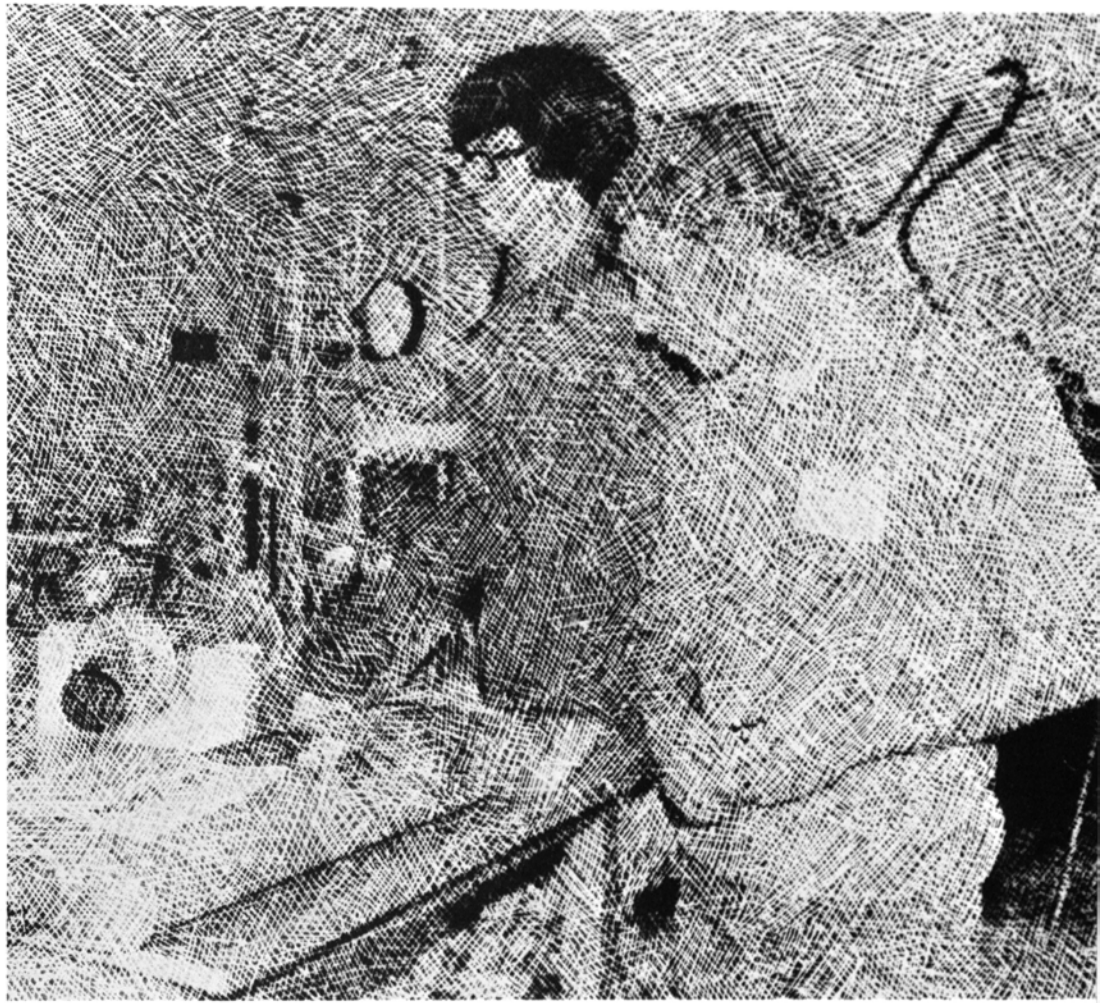

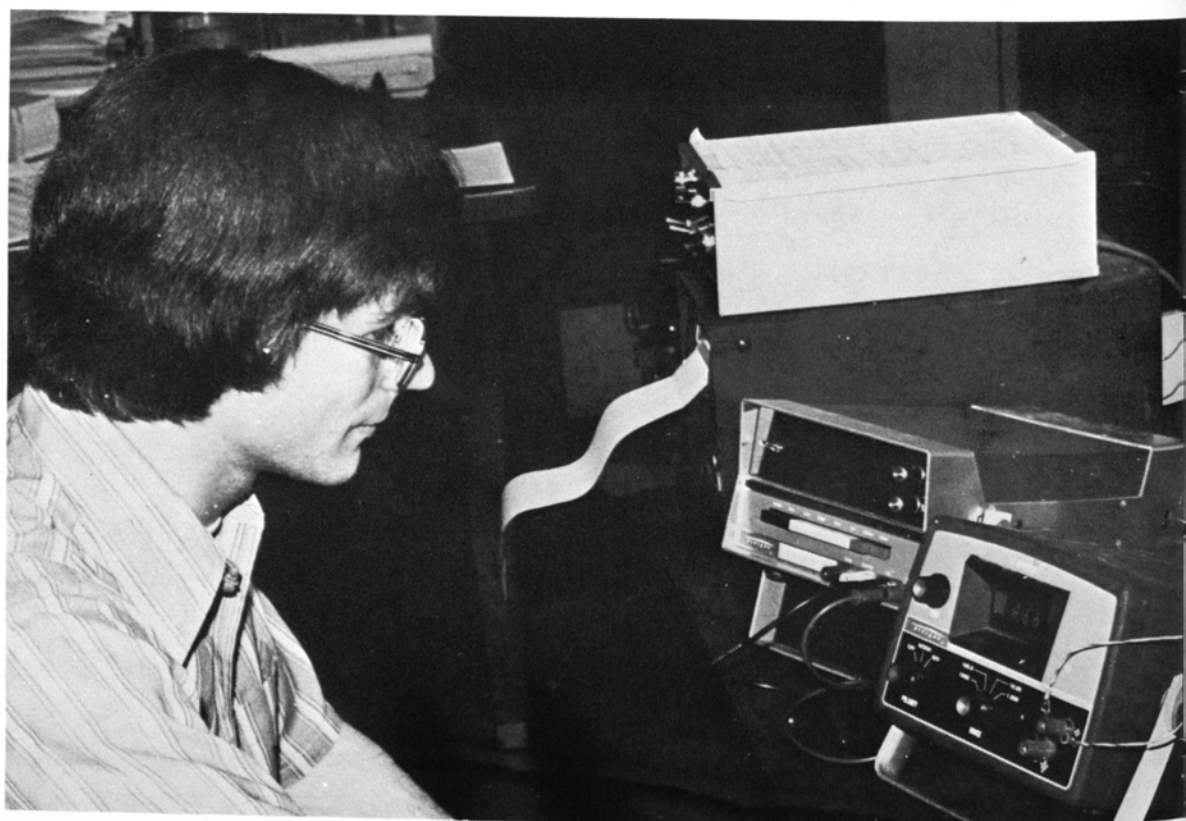

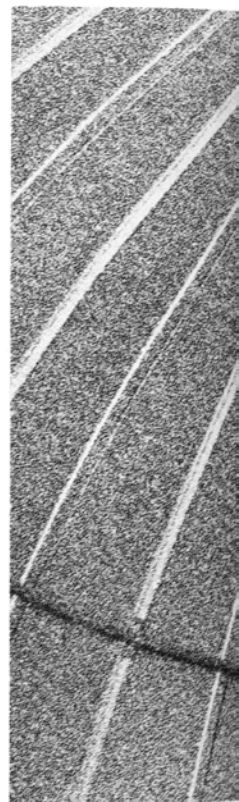

us upgrade the library, . . .

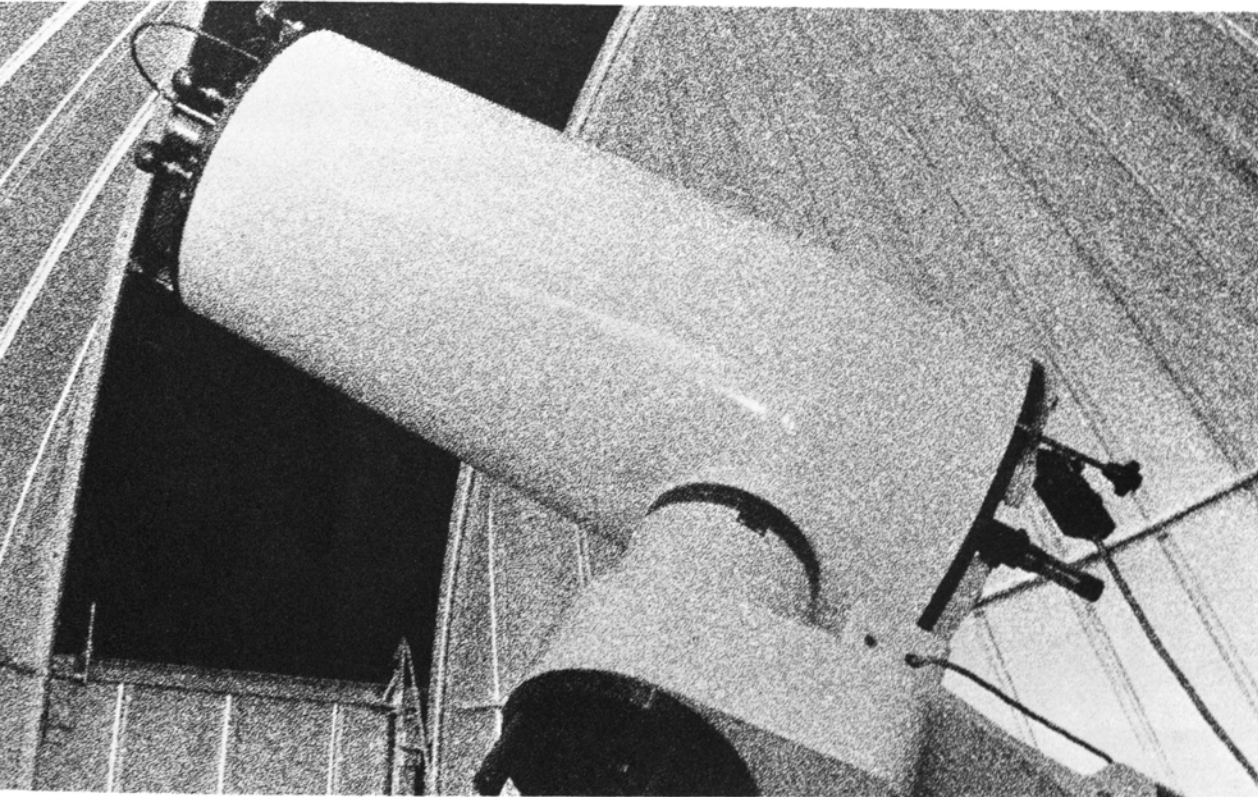

. . .upgrade the laboratories, . . .

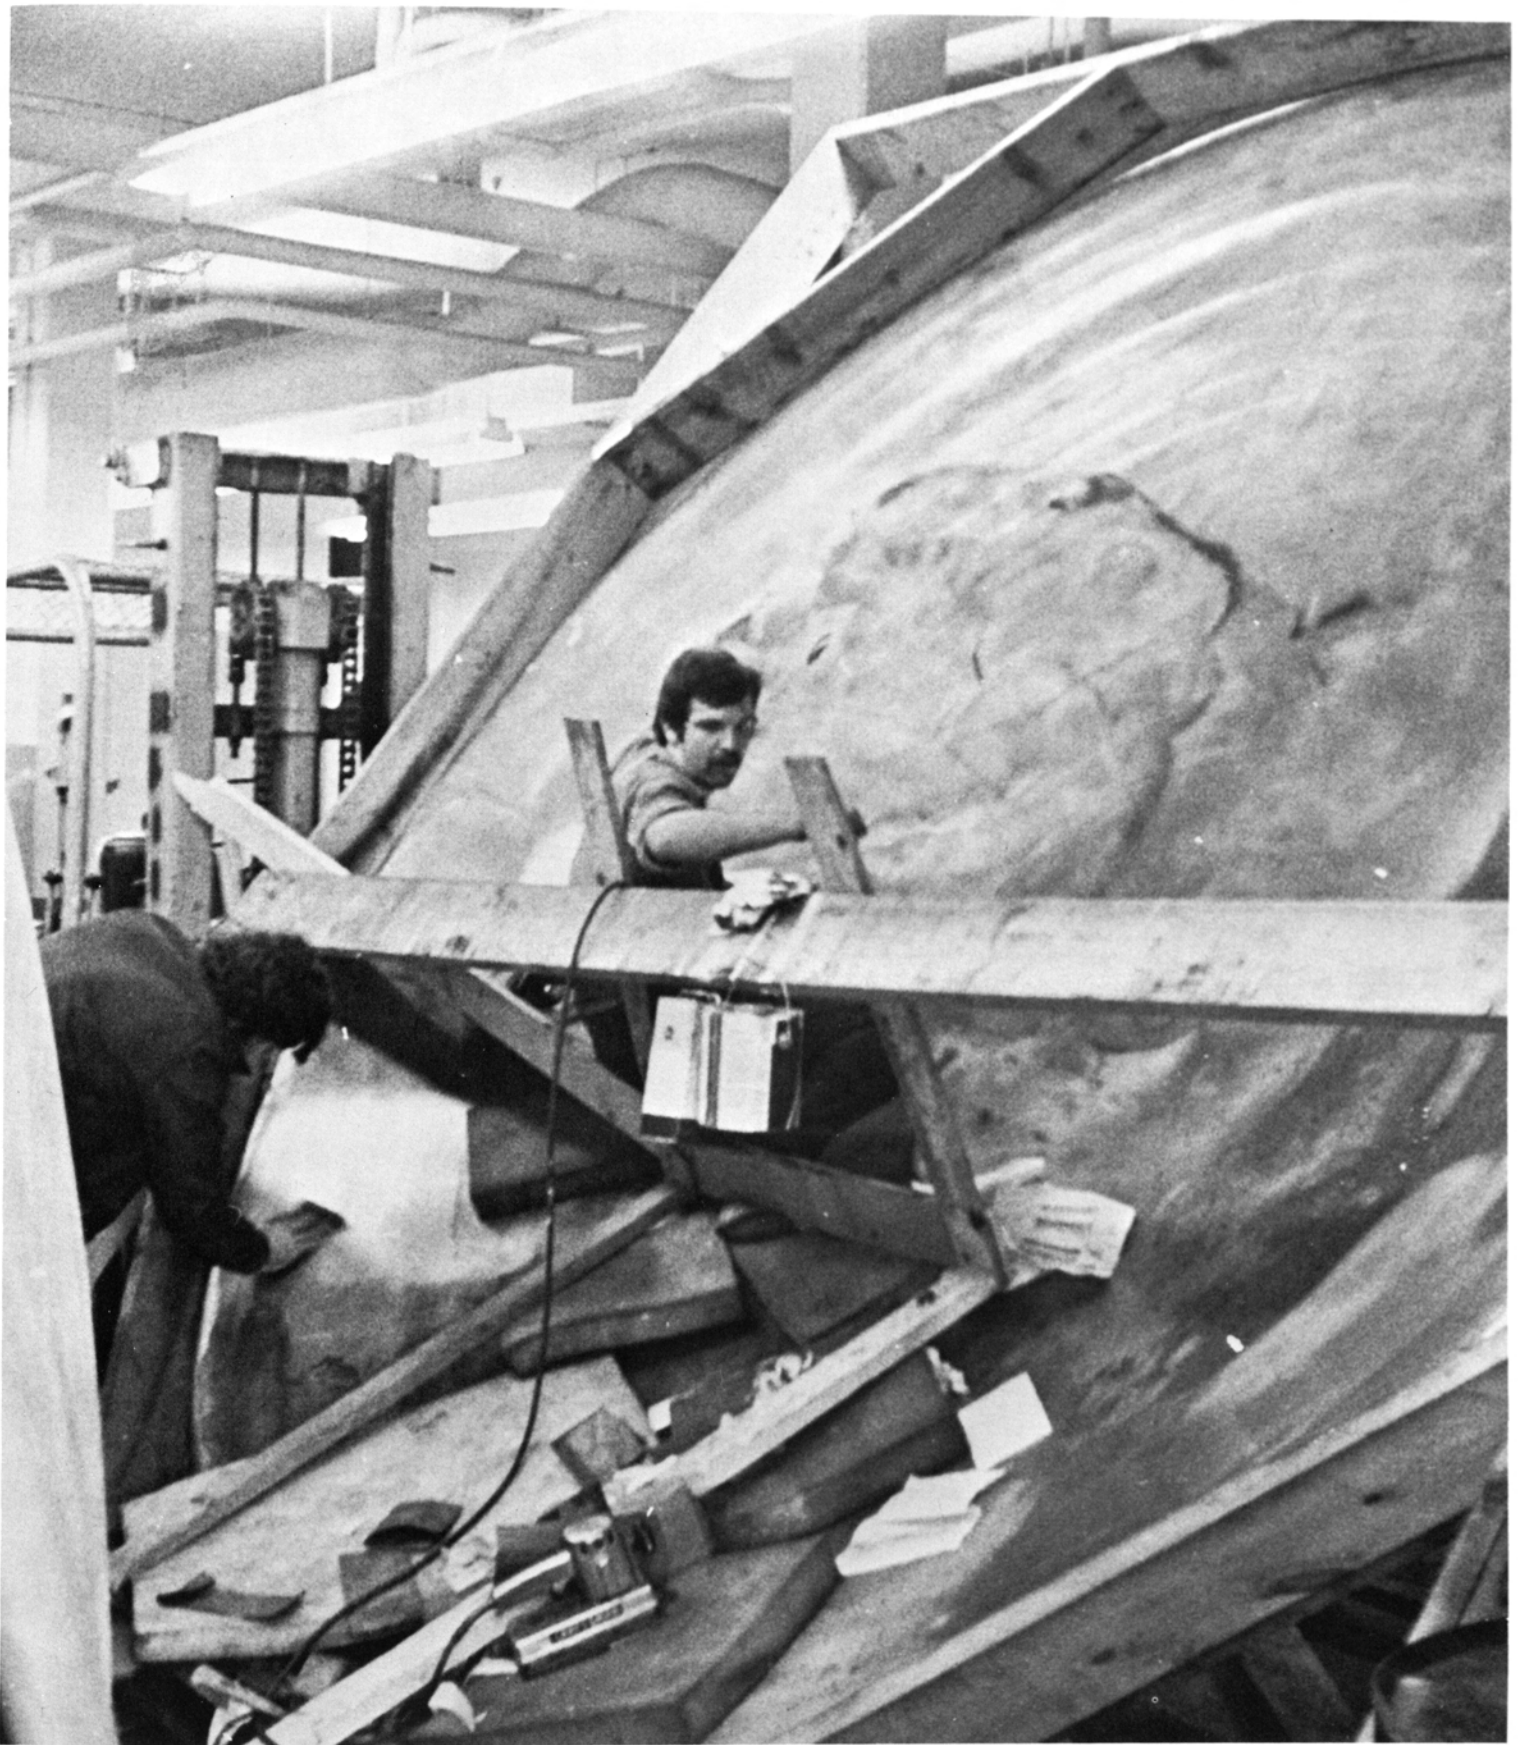

. . .and do more research, . . .

. . .especially in

the area of energy."

**I believe some of our dep'ts,
and labs are in sub-standard
buildings, such as the mining
and petroleum facilities, and
I would like to see
new space.**

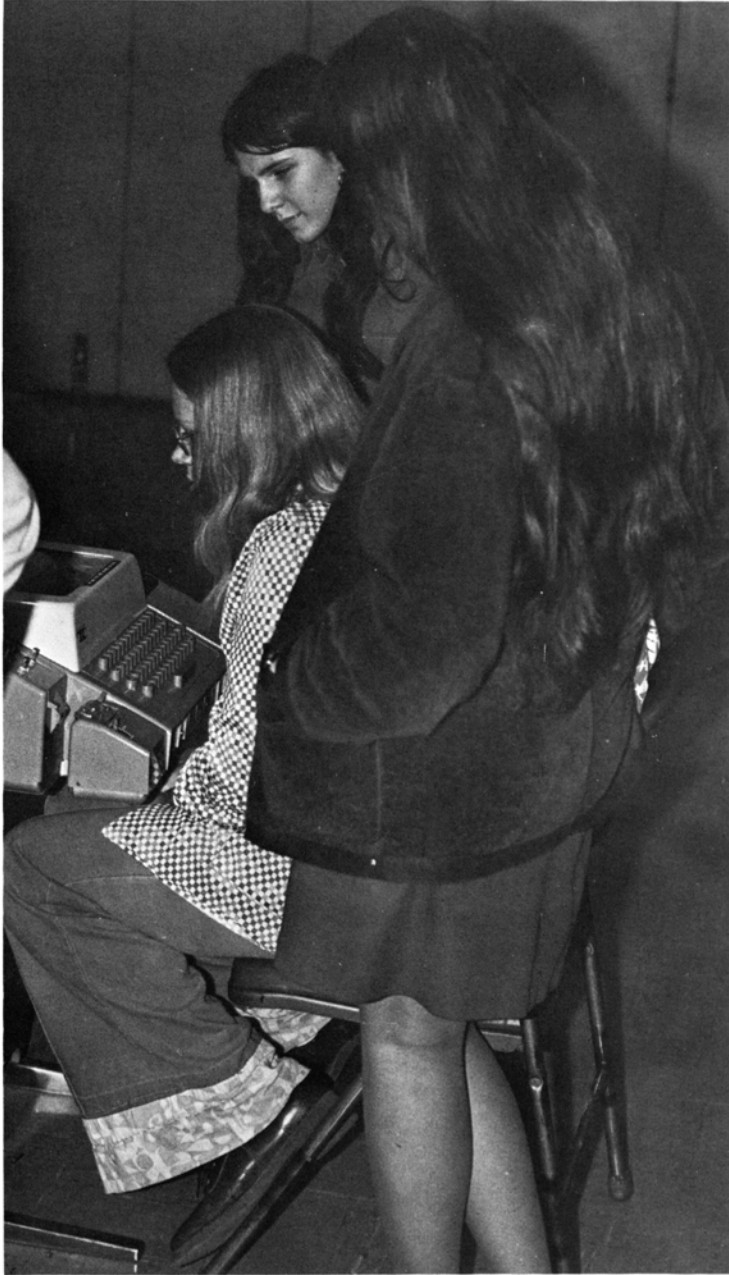

I expect that the number

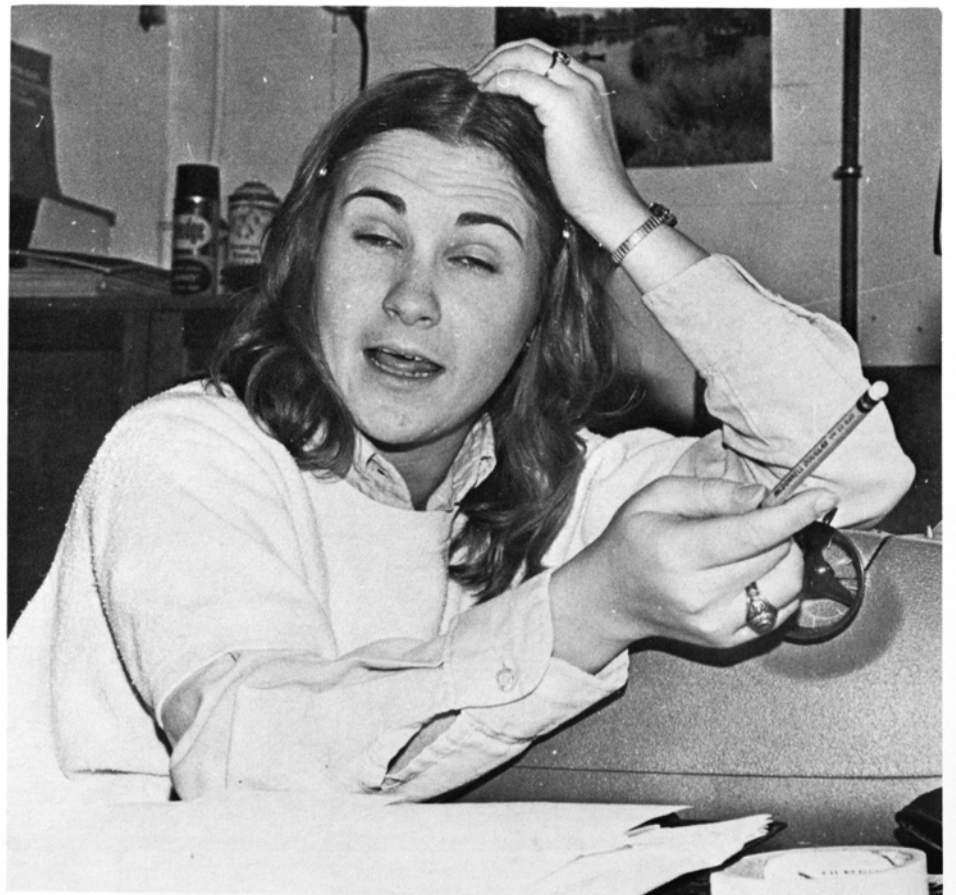

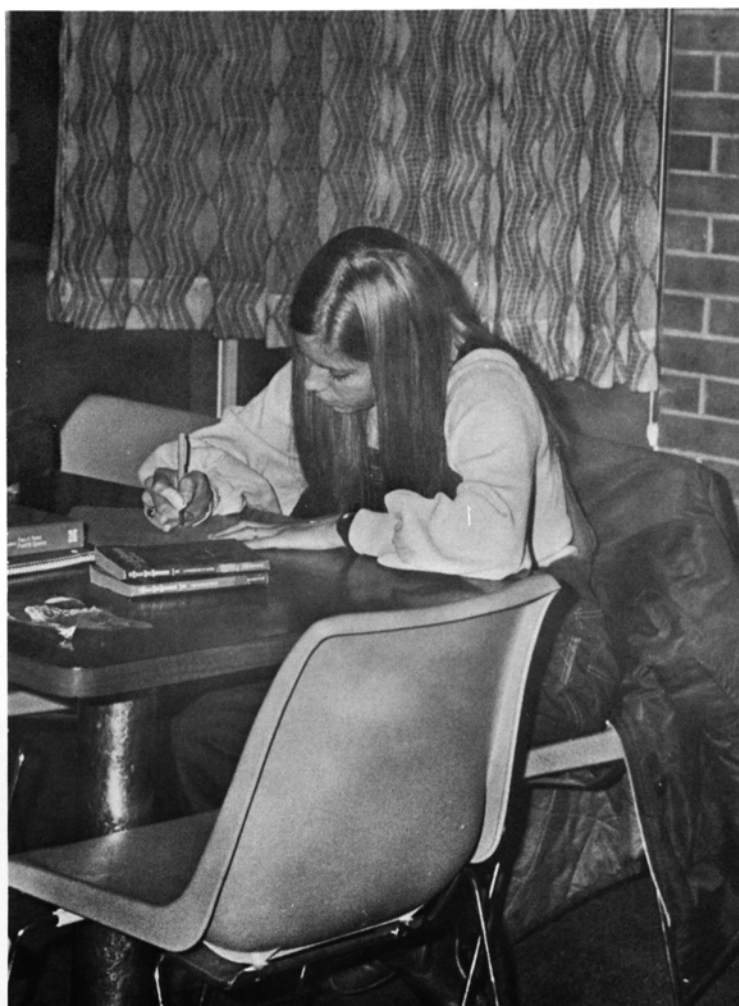

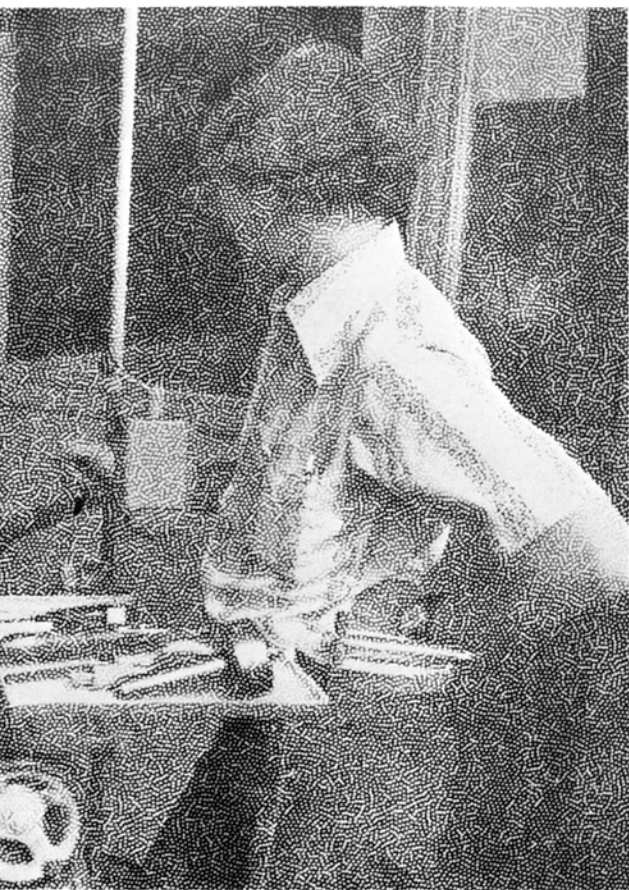

**of women engineers will
increase in the near future . . .**

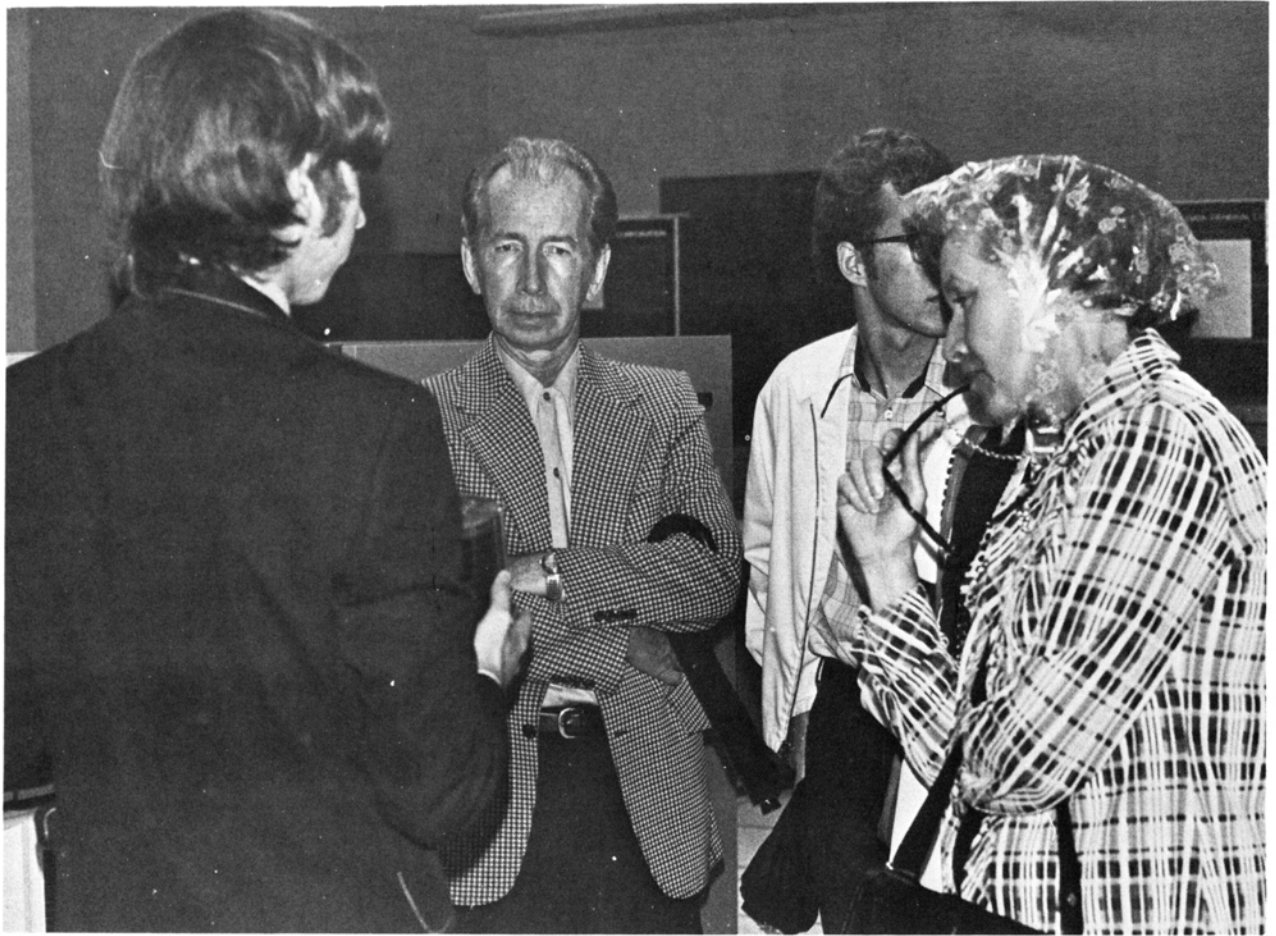

**. . . and that they
(women) will play
more and more
important roles.**

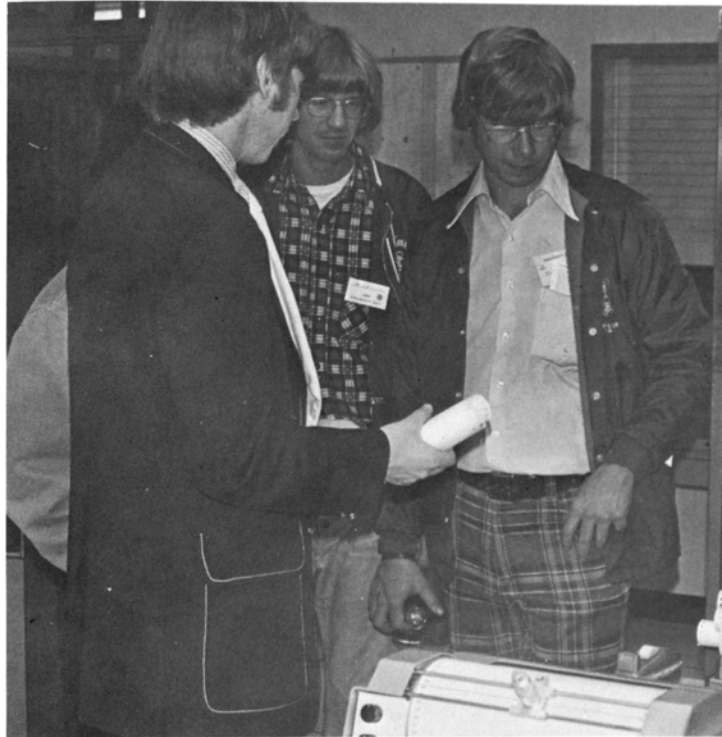

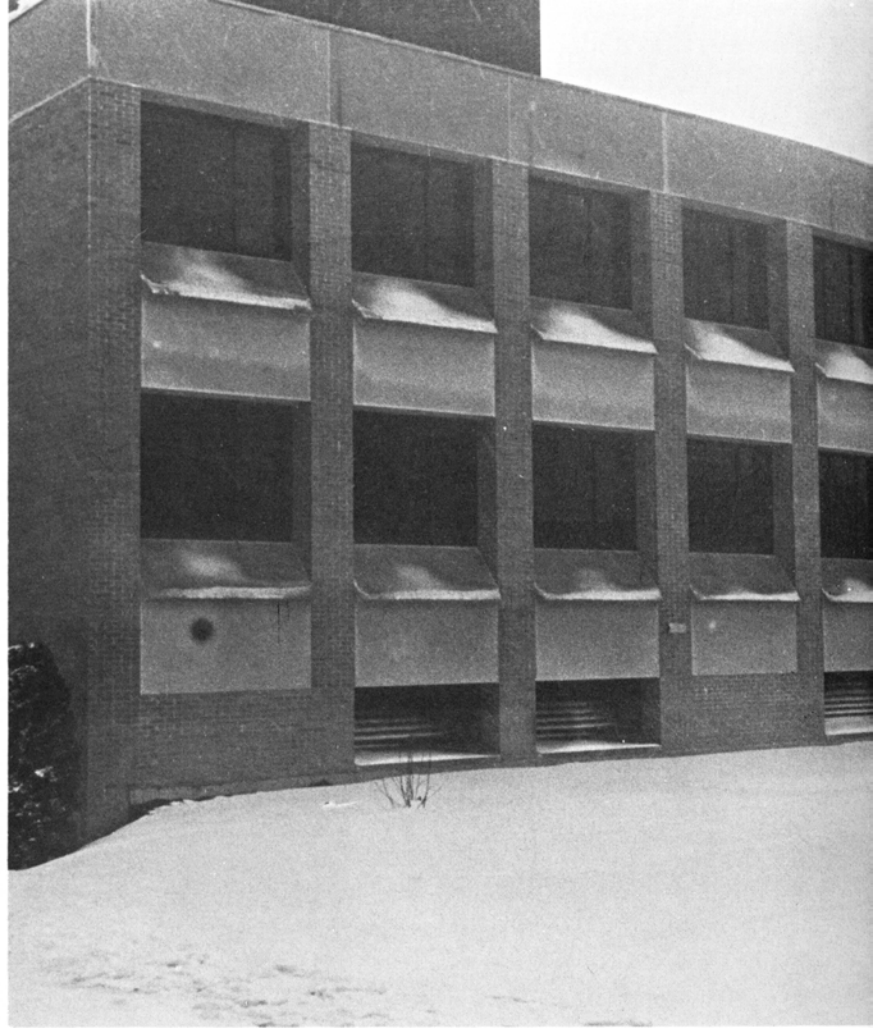

**I would like to
attract a larger
number of exceptional
high school graduates
to UMR.**

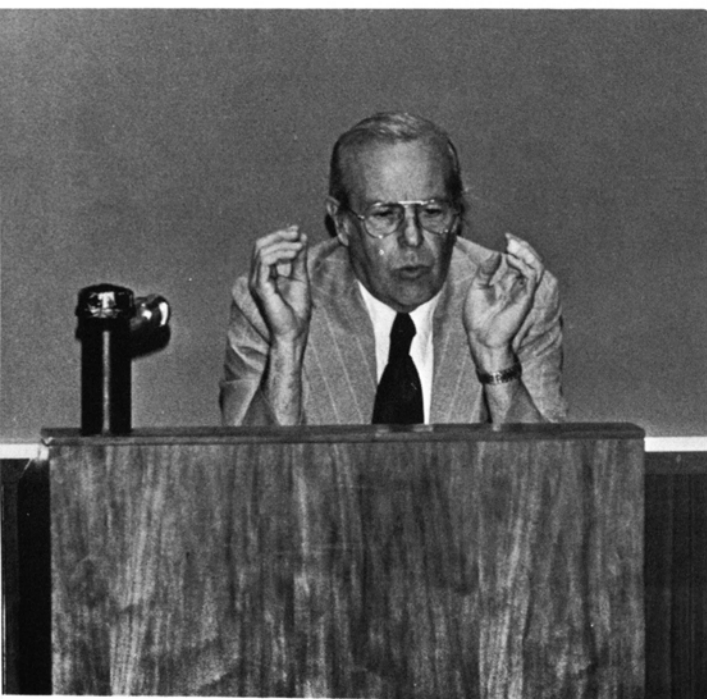

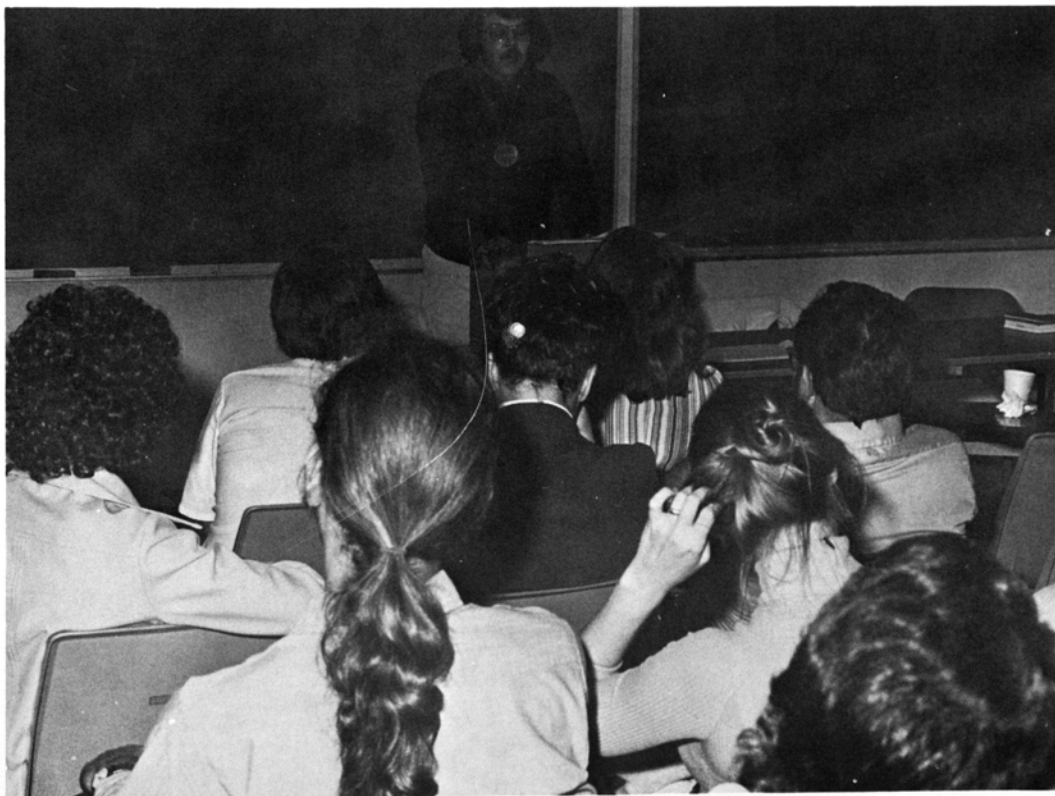

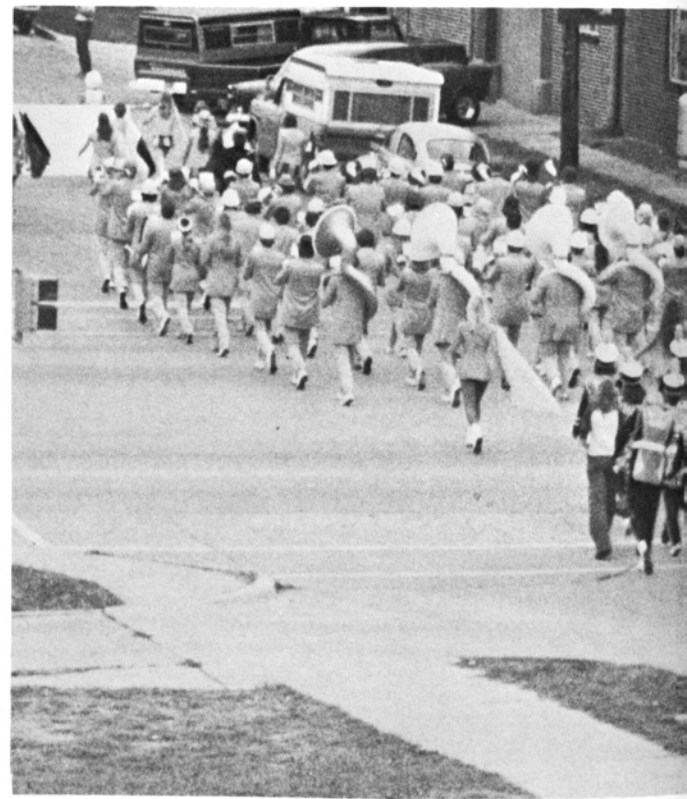

**The only reason
to have engineers
is to put
science to work
in the solution
of social
problems . . .**

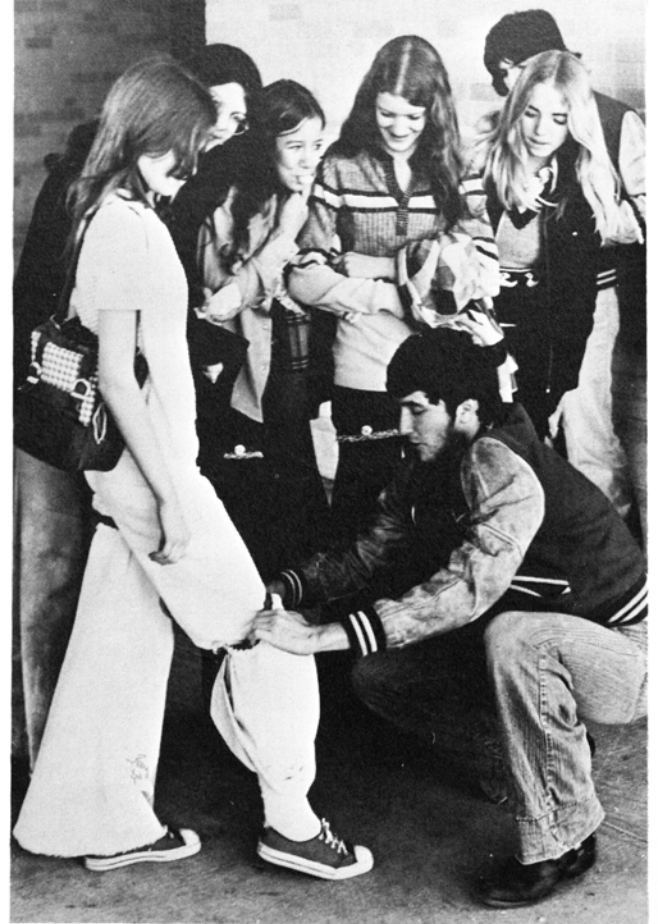

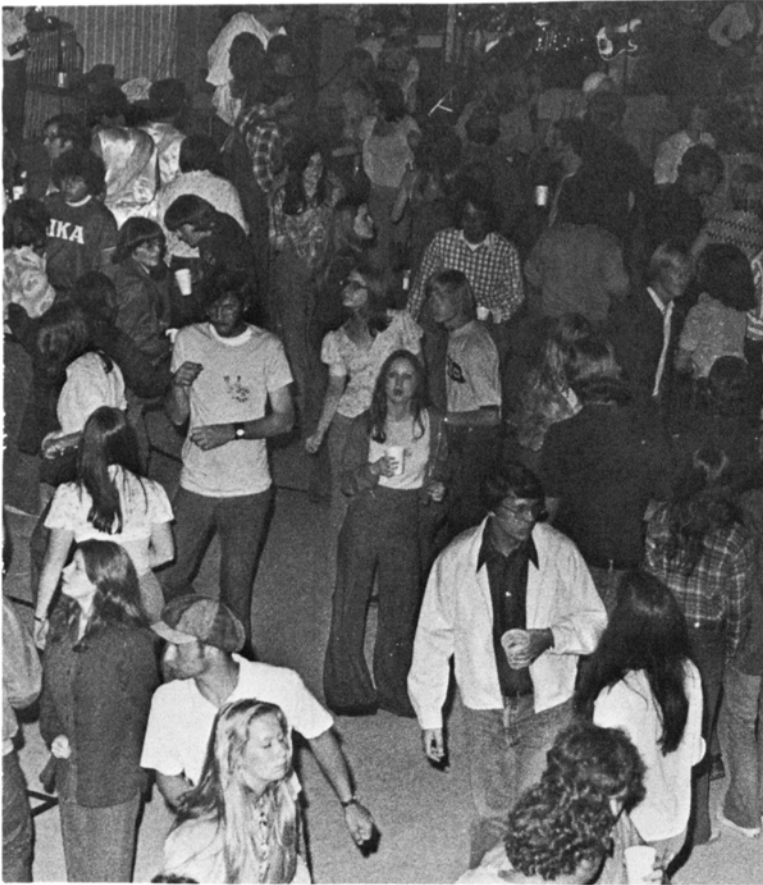

**. . . So he has
to know something
about Humanities
and Social Science
so he can
understand the
social problems.**

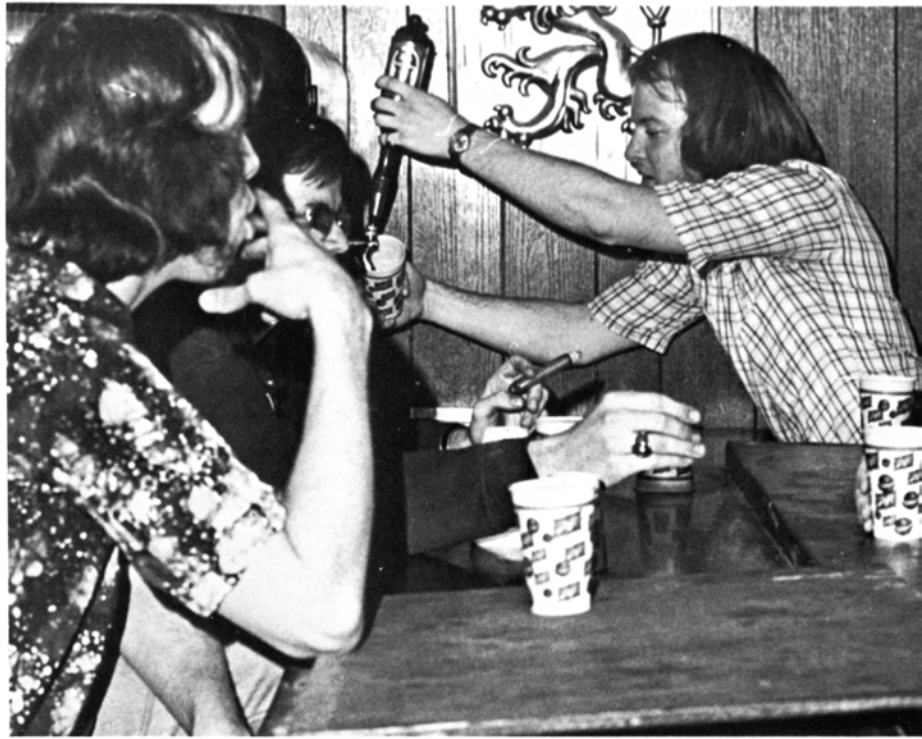

**"I have been
very impressed
with the
students here.**

They're really a very fine group

of students in every respect."

-Dr. Raymond Bisplinghoff

Parents Day

September 28th was UMR's annual Parents Day. The purpose of the day was to show the parents of UMR students what life at the university is really like. After an informal reception, tours were held and a luncheon was given at the University Center. The day ended with a football game between UMR and Kansas State College.

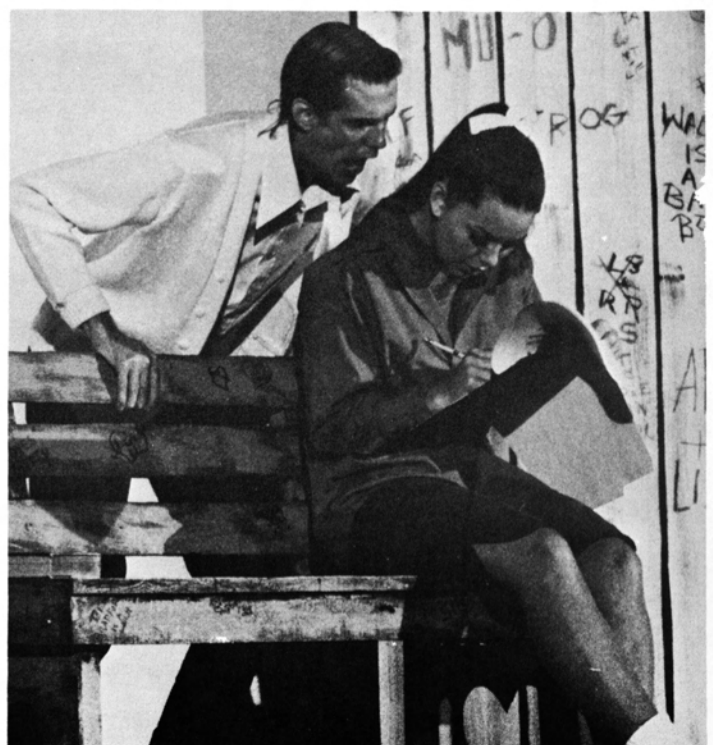

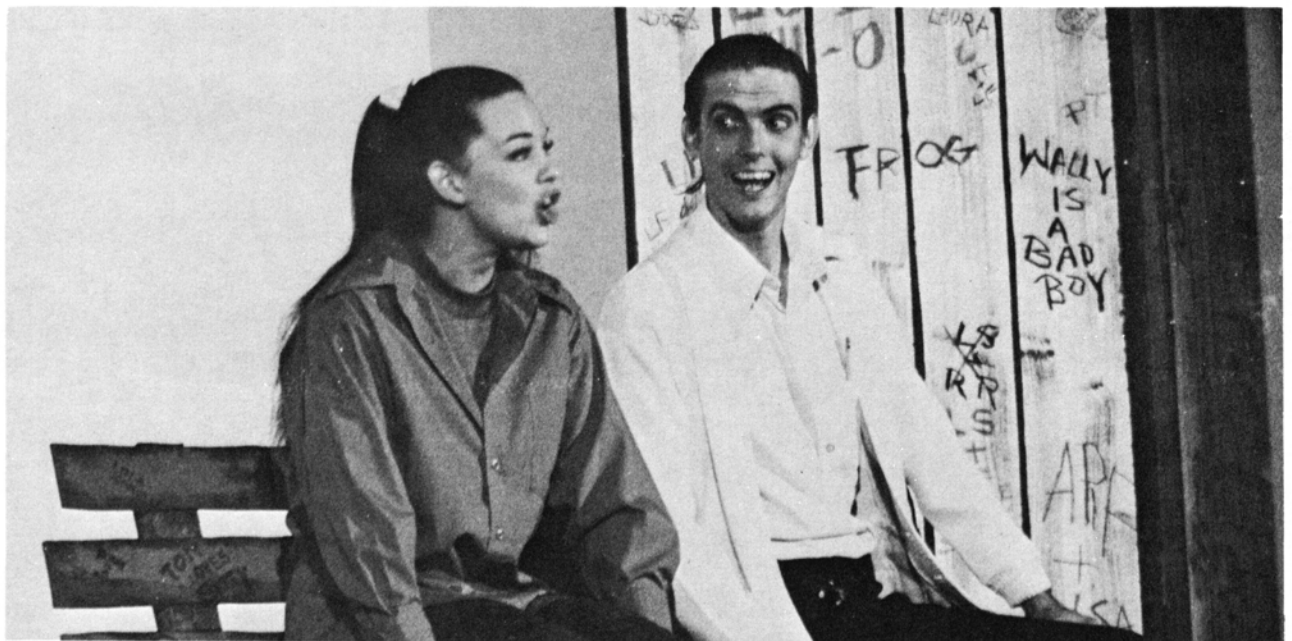

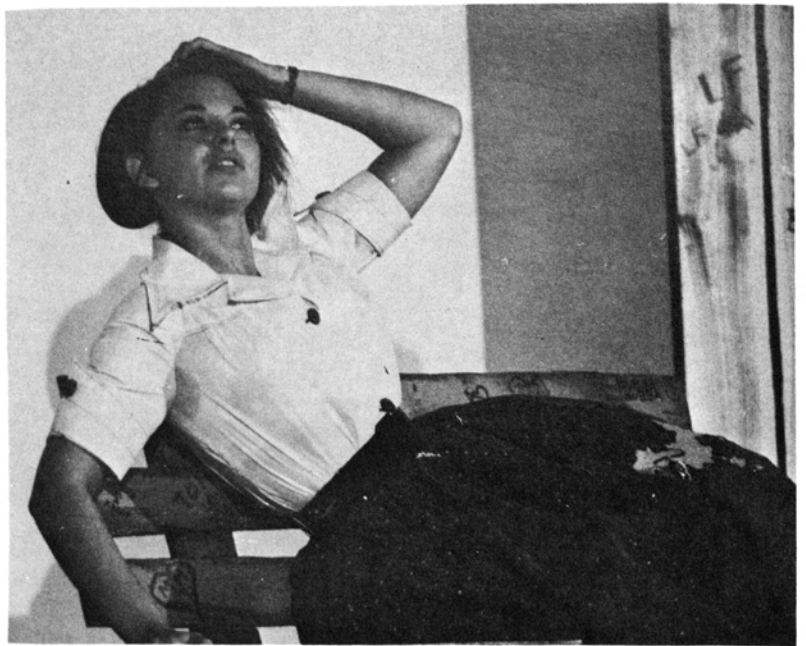

University Day

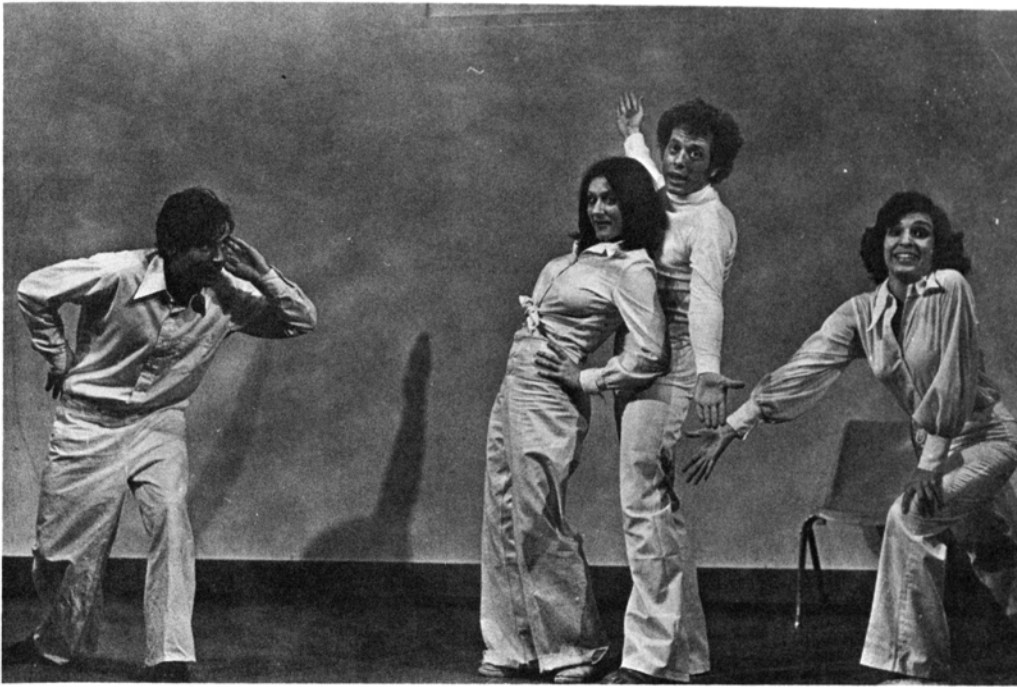

There was plenty of things to do and see at the UMR University Day on November 9th. High School and Junior College students attended this annual open house to get acquainted with the people and facilities at UMR. A good time and educational experience was had by all who attended.

"Hollis Jay"

On September 5th, Alpha Omega Players of Dallas presented the Benjamin Bradford play, "Where Are You Going, Hollis Jay". The play centered around two college freshmen falling in love.

On October 8th, the Student Union Board presented, "The Boston Tea Party", a production by professional players. The mood of "Tea Party" was basically comic and politically oriented.

Homecoming 1974

As in years past, the Miner party spirit was too much for the wet, miserable weather, as students, faculty, alumni, and friends enjoyed the largest of all fall events at UMR. The weekend was one of complete success that started off with an excellent alumni turnout from the class of 1949 who came to renew long-lost friendships on the 25th anniversary of their graduation.

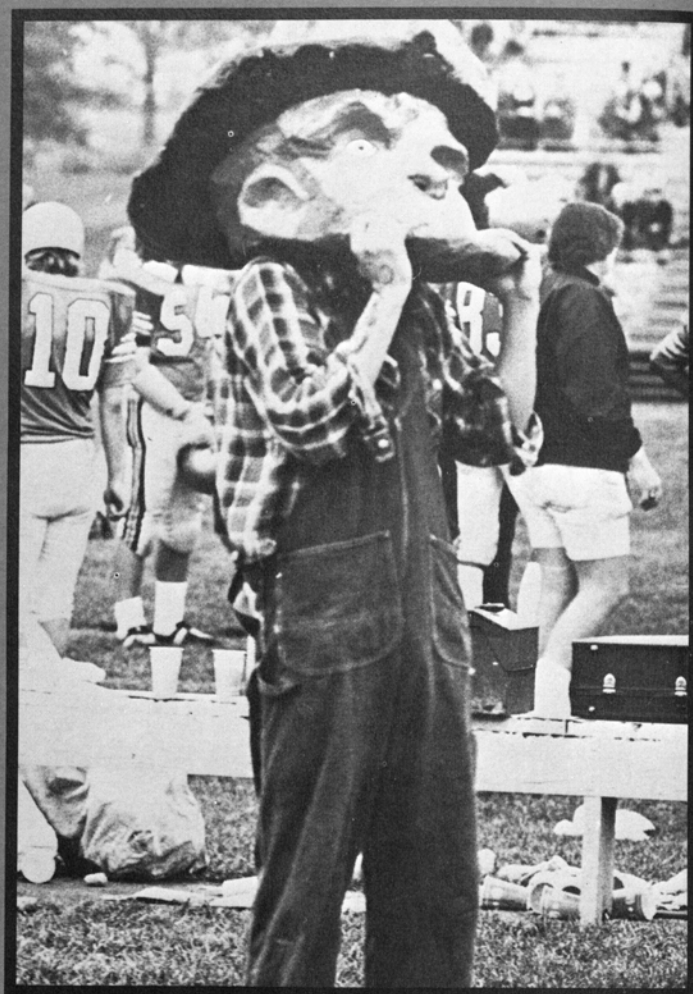

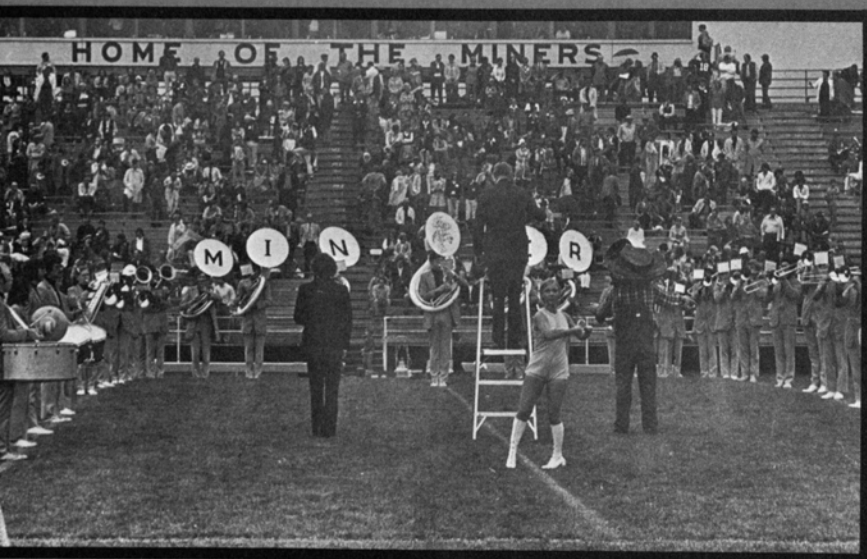

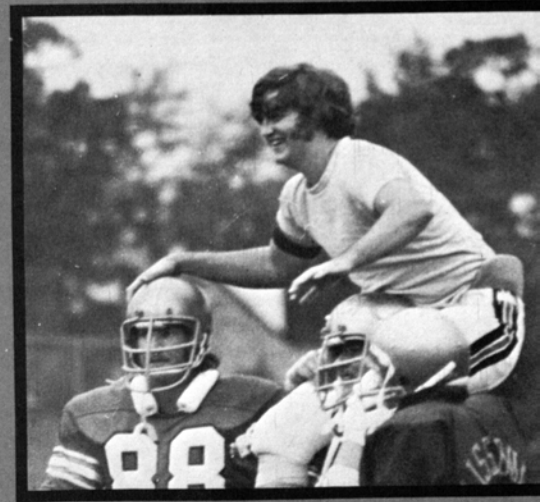

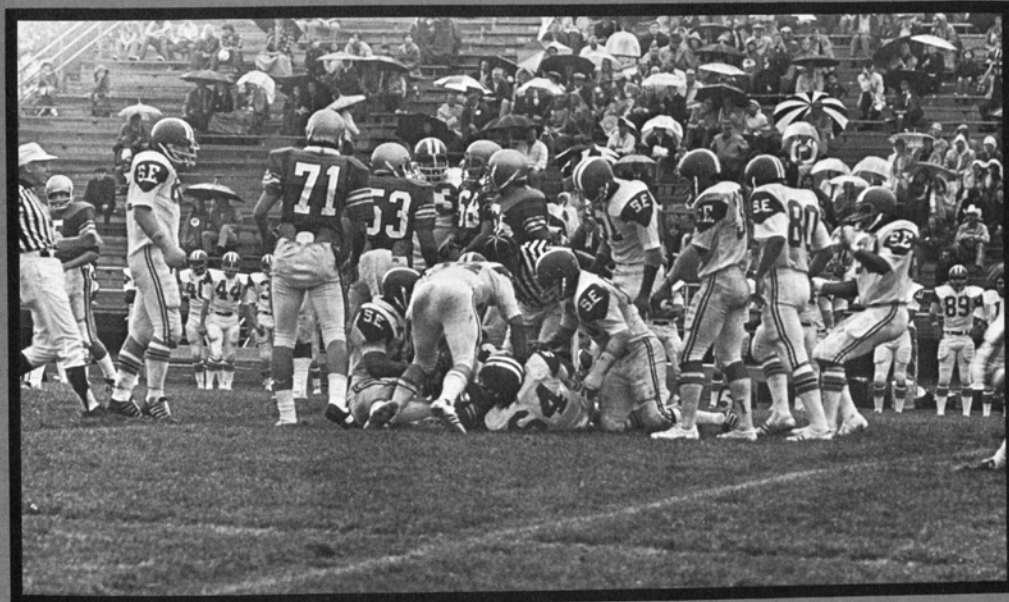

Friday night was highlighted by the many dances at fraternities and eating clubs, the official Homecoming Dance, and Queen Coronation Ceremonies. Miss Kathy Schaefer, representing Phi Kappa Theta, was crowned queen after an exhaustive comparison of many deserving women. Kappa Sigma received the award for the best Homecoming decorations. The pledges of Lambda Chi Alpha won the annual IFC PJ race before the game Saturday afternoon.

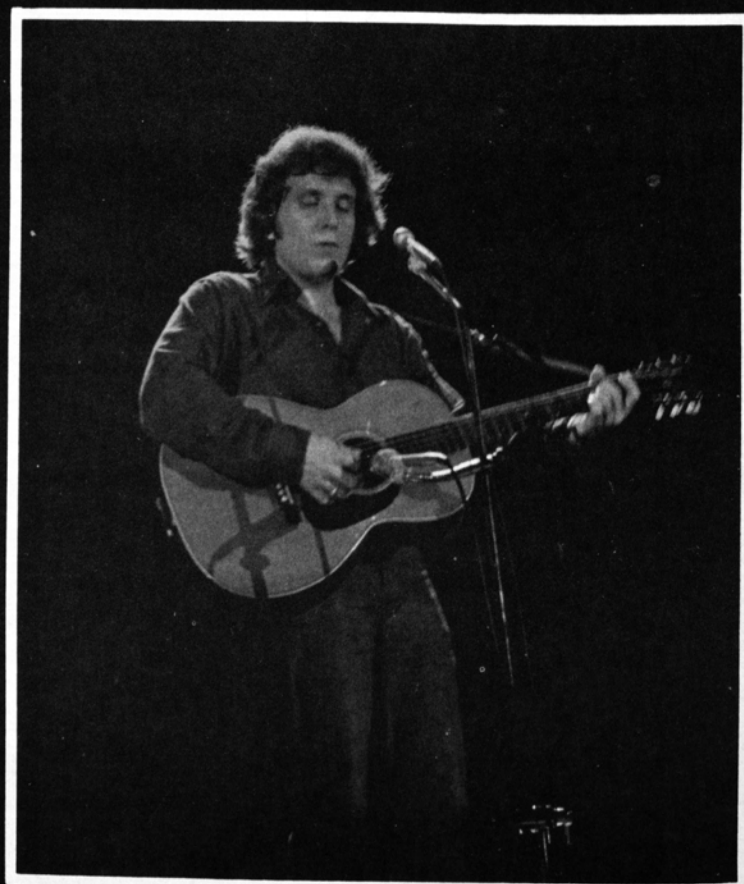

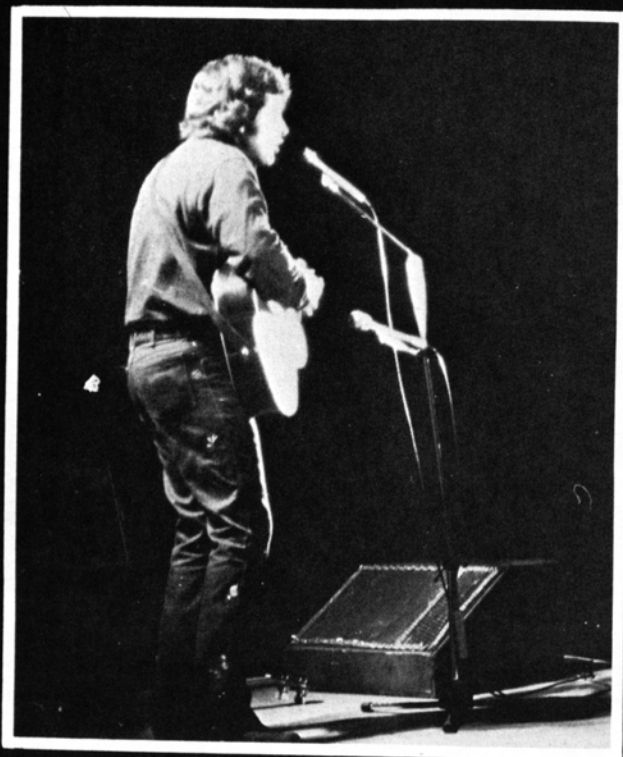

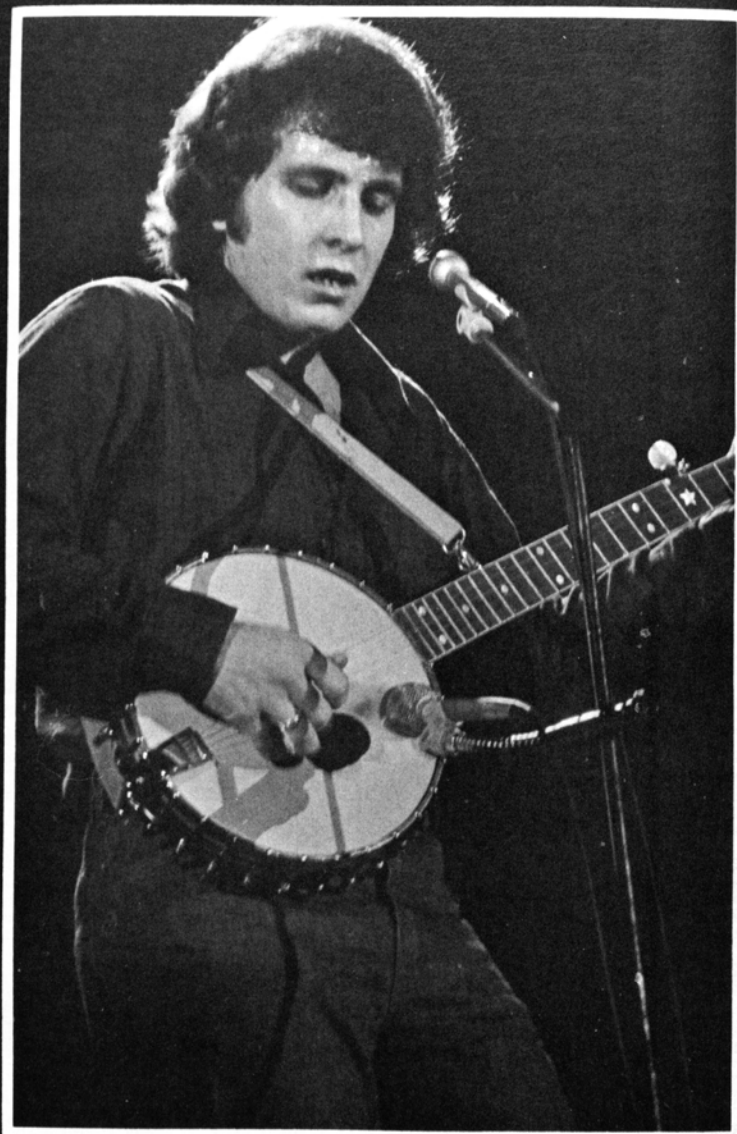

A fired up and emotional Miner team defeated Southeast Missouri State University, last years MIAA champs, for the first time since 1963. The 1974 Homecoming game was dedicated to the late Miner coach Burr vanNostrand, by the players and coaches who wore black armbands in honor of him. The rather suspect Miner defense shined on a dreary, rain soaked afternoon, by intercepting four Indian passes and recovering three Indian passes and recovering three fumbles. An entire team effort was necessary as the Miners fought to a 21-19 victory and recognition as the new title contender in the MIAA.

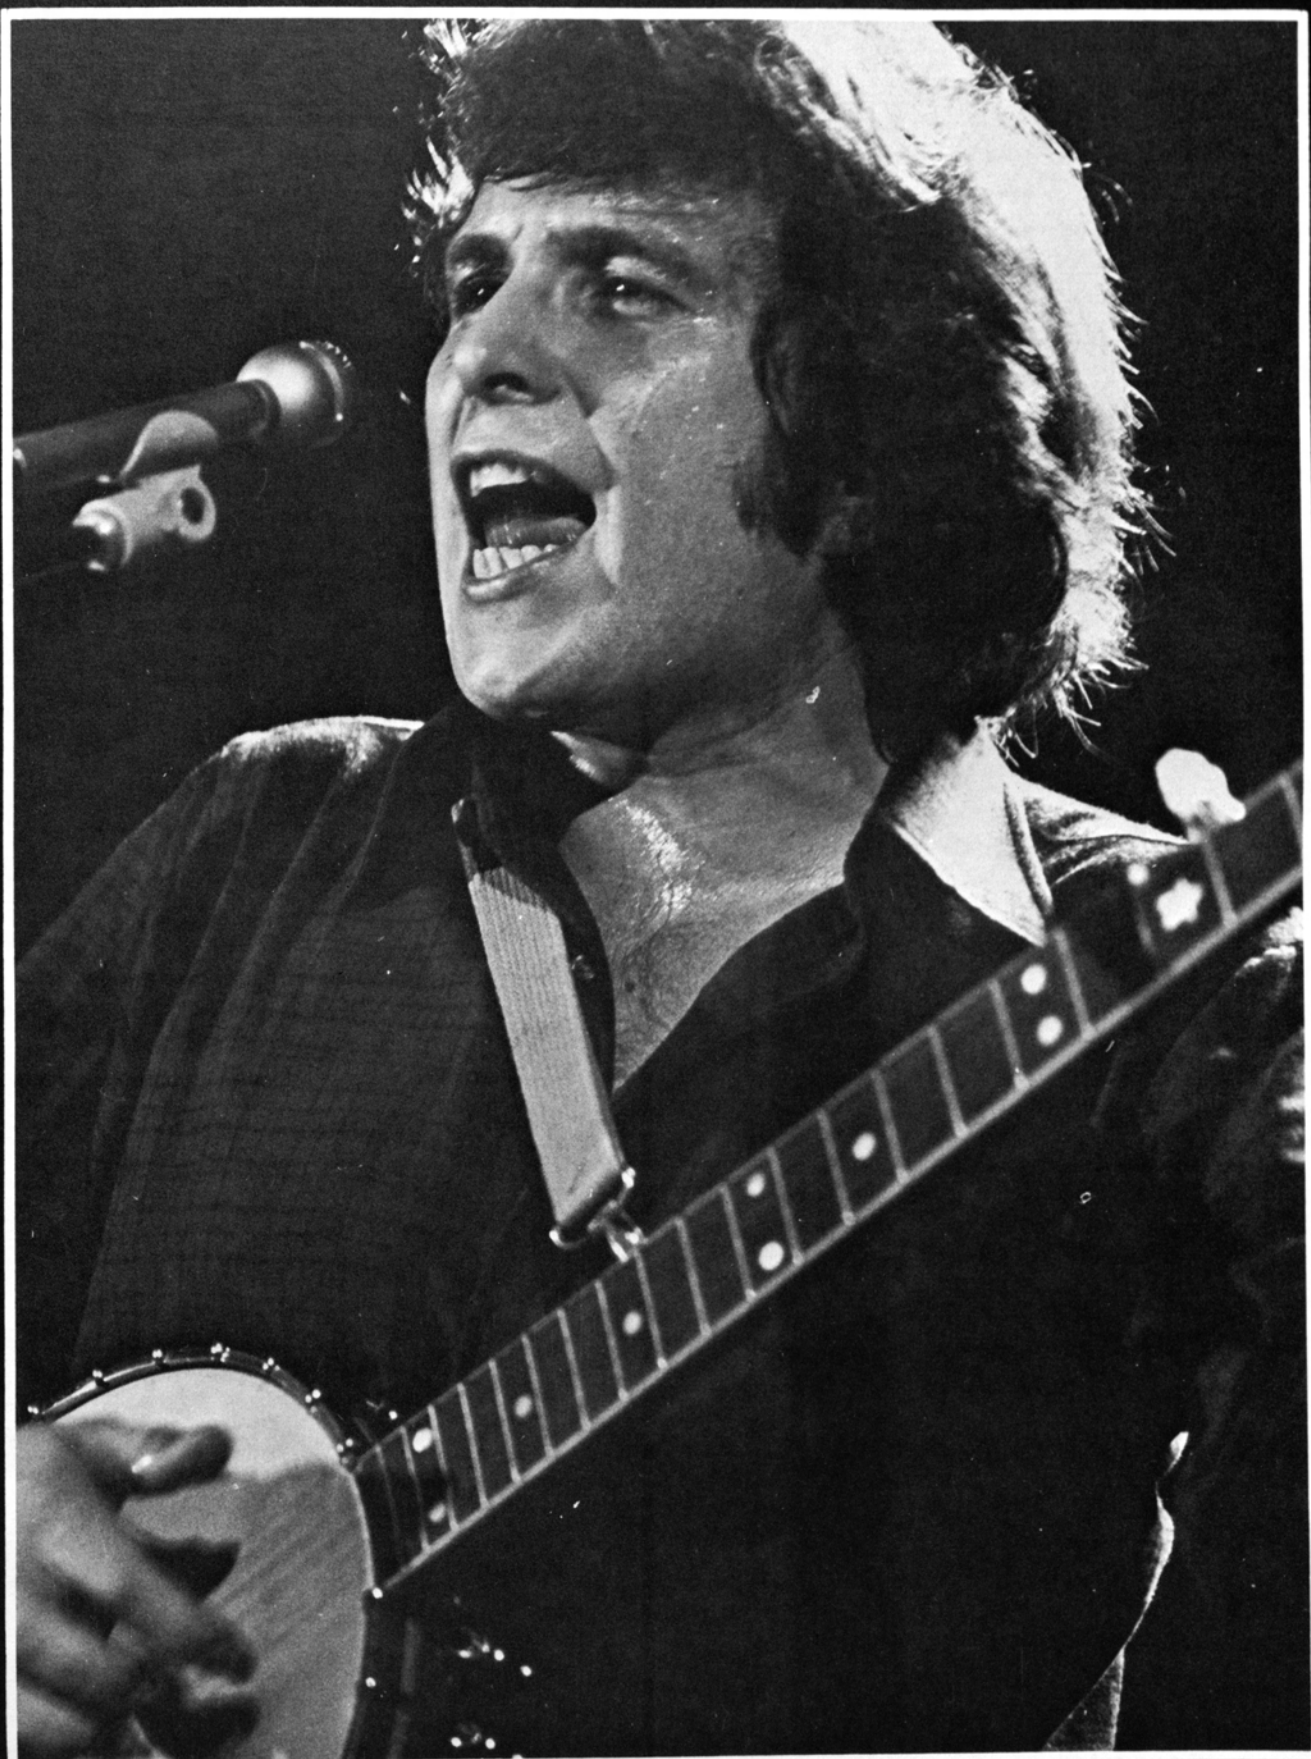

Don Mclean

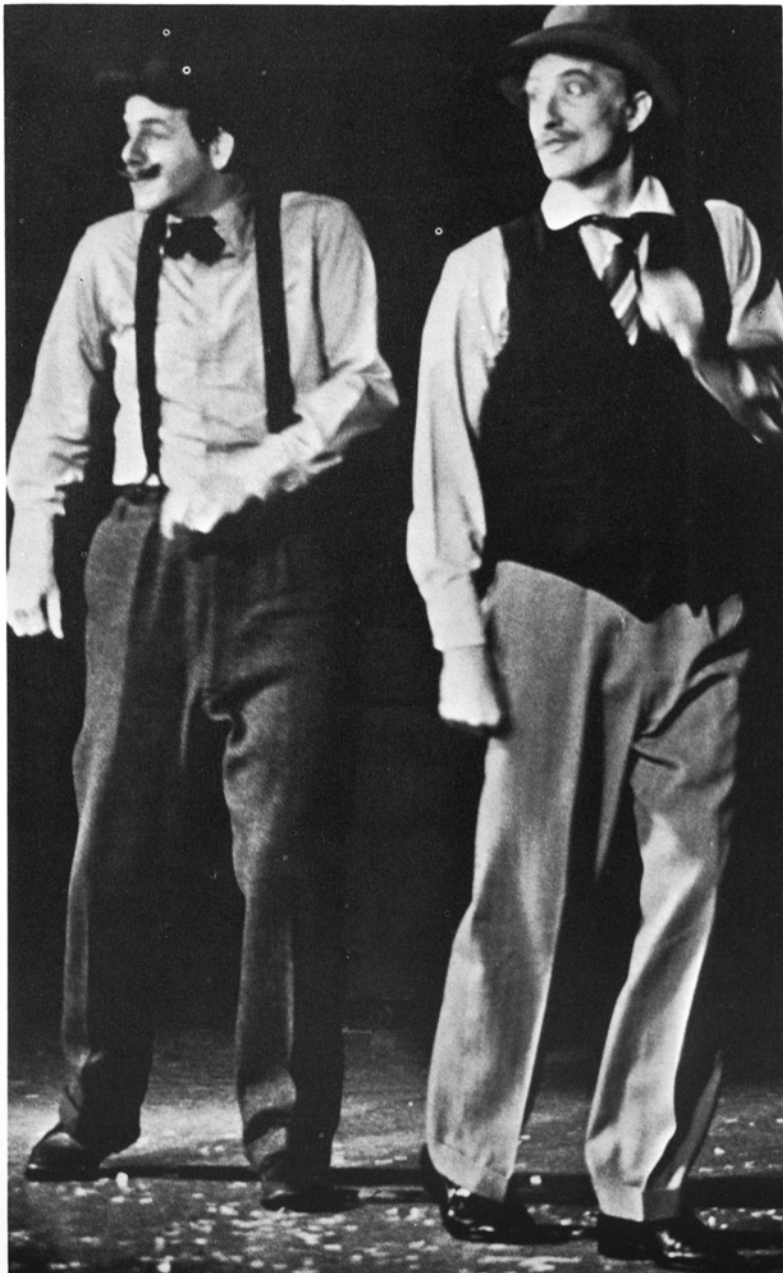

On Saturday evening, Don McLean entertained at the Homecoming party weekend concert. In the presence of a nearly packed house, McLean coordinated an array of folk, blues, and rock the clearly showed why he has obtained popularity in the past few years. Mixing in old with the new, he provided an evening of entertainment long to be remembered.

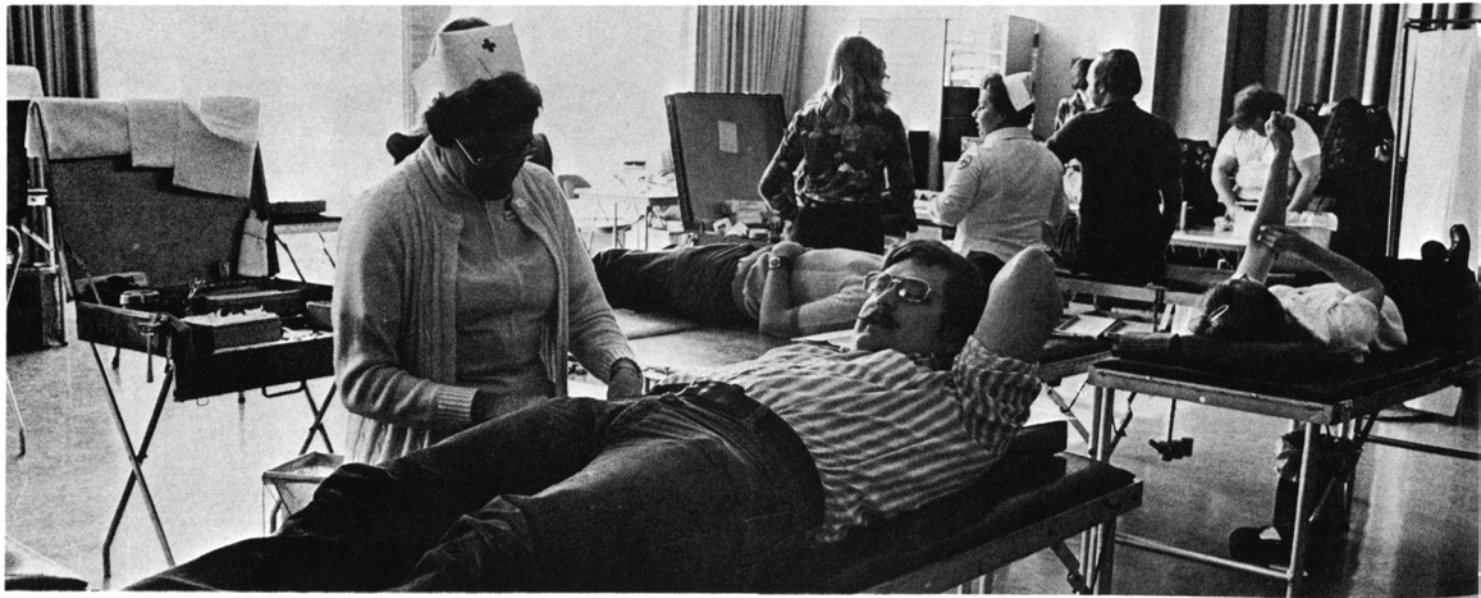

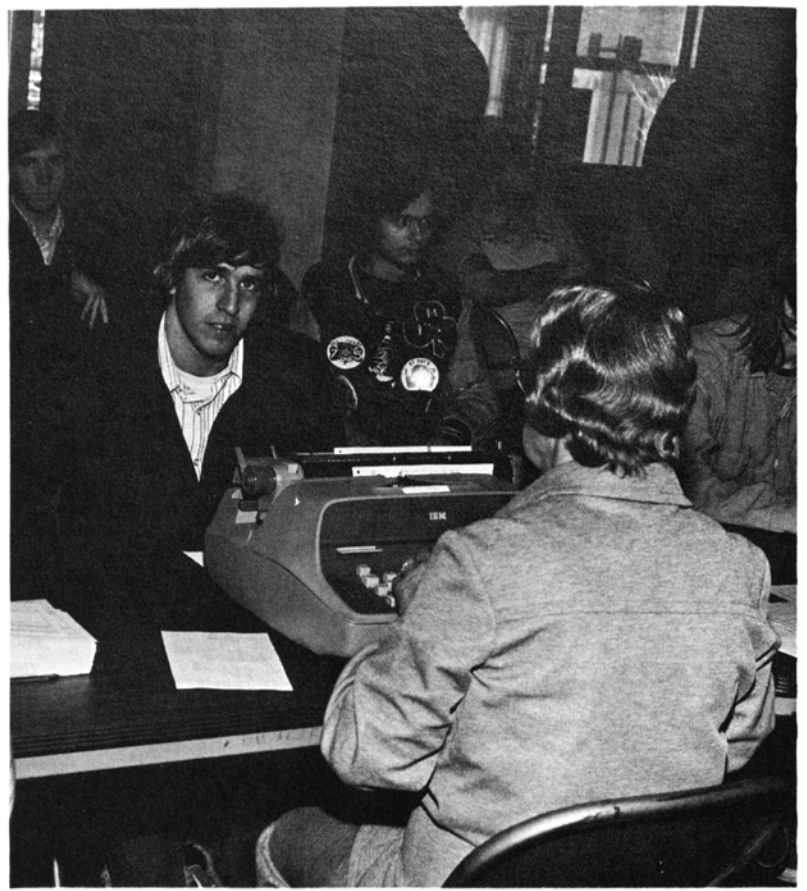

"The Fantasticks"

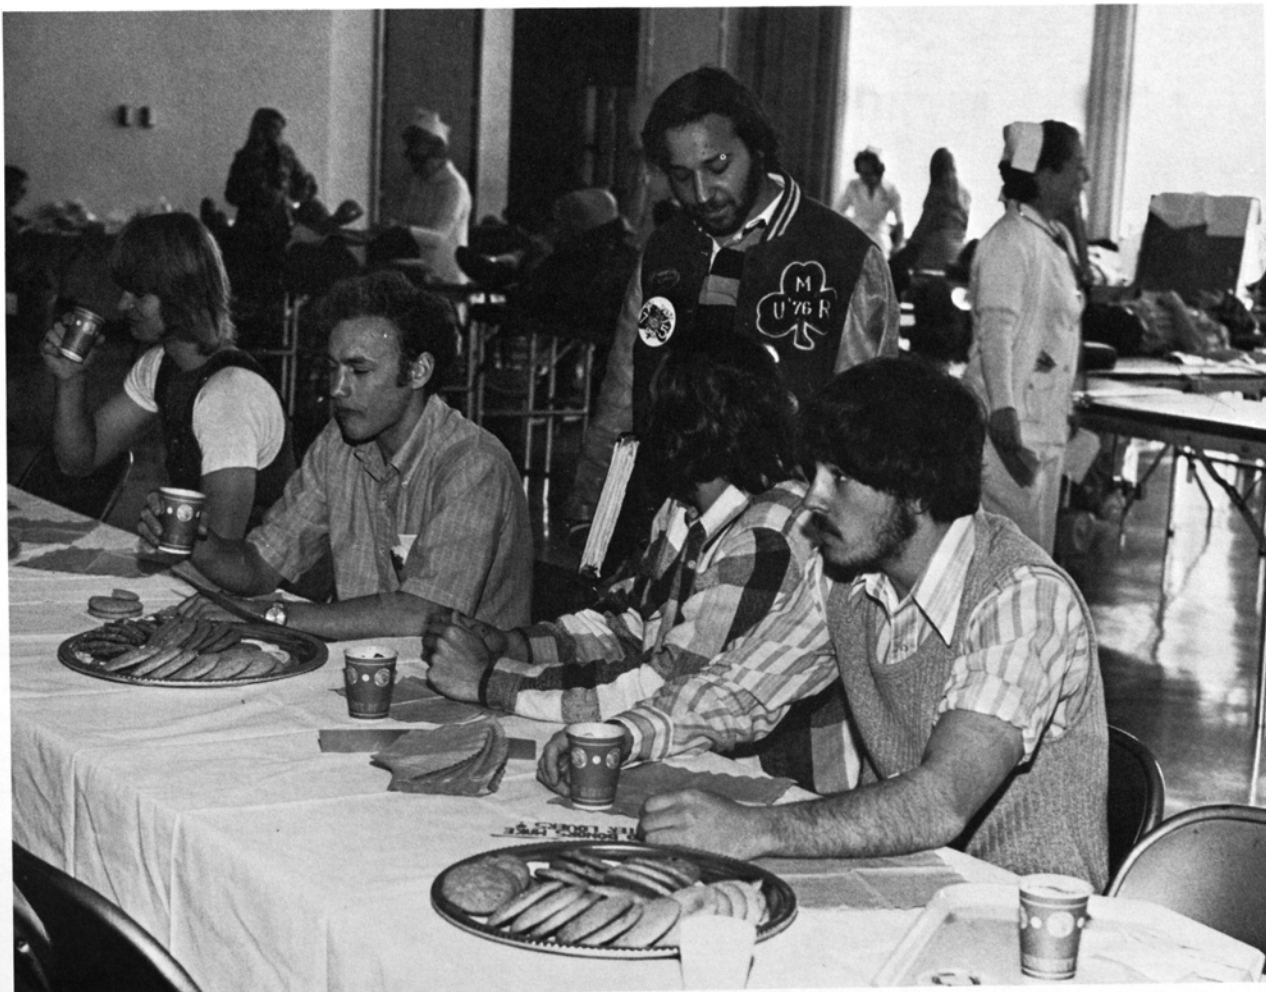

"The Fantasticks" was presented by the Continental Theatre Company, a professional touring company from Kansas. The show is the longest running Off-Broadway musical in American theatre history. The plot centers around two fathers trying to match son and daughter.

UMR Blood Drive

The UMR Blood Committee, in conjunction with the American Red Cross, sponsored three blood drives over the year. Students gave blood between classes and were refilled with cookies and refreshments. Approximately 80 percent of the Red Cross' Phelps County blood quota is supplied by UMR students.

IFC

Cleanup

The third annual IFC Clean-Up was held on November 9th. The Clean-Up resulted in an estimated 20 tons of trash being picked up in the Rolla area. The IFC provided the manpower while Rolla Sanitation, UMR, and some Rolla businessmen provided trucks for the pickup of trash bags.

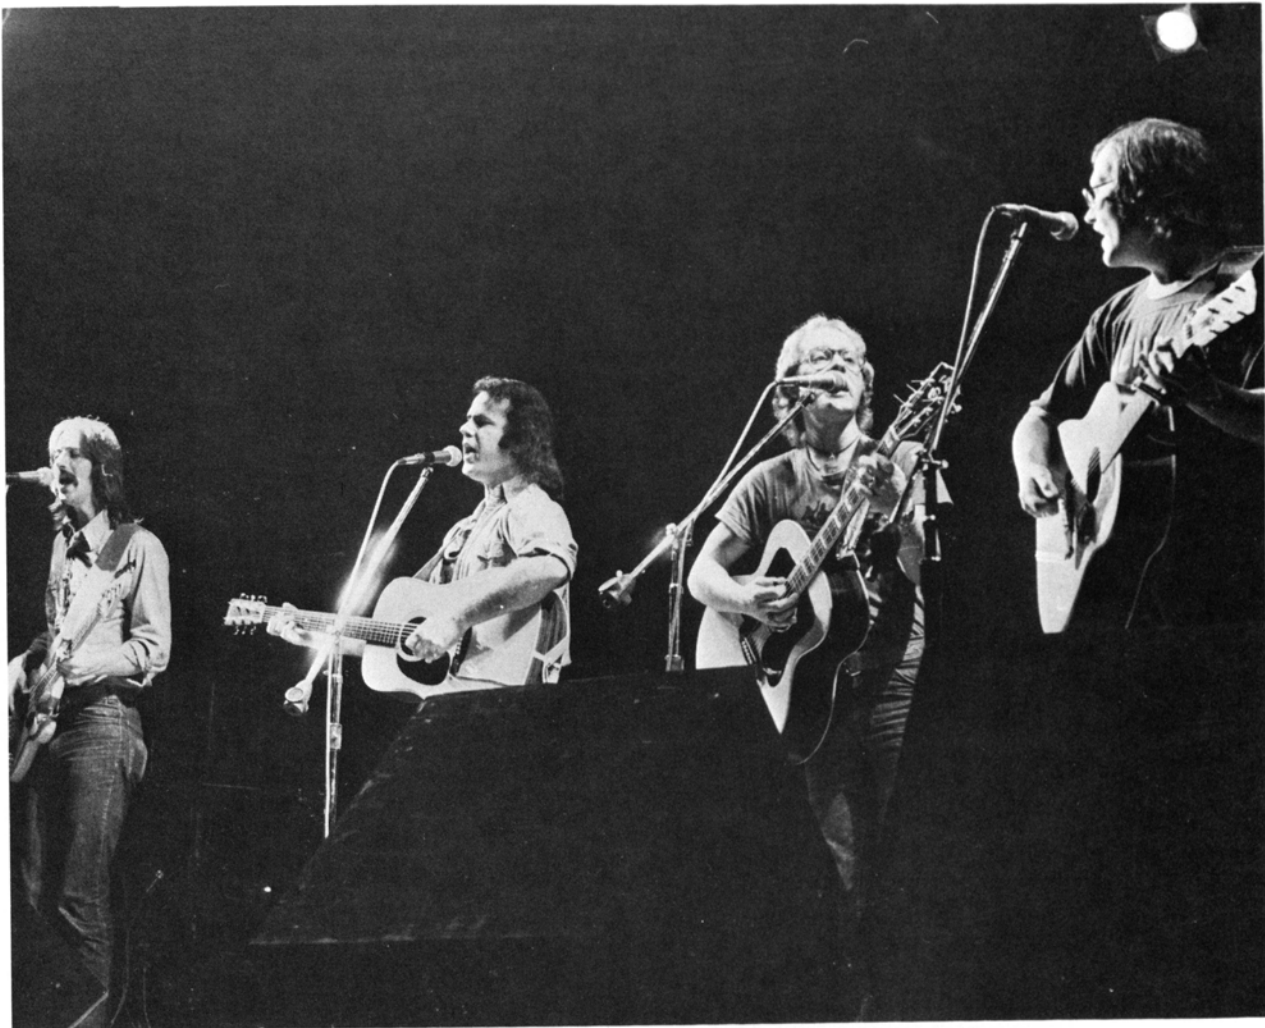

Dave Loggins

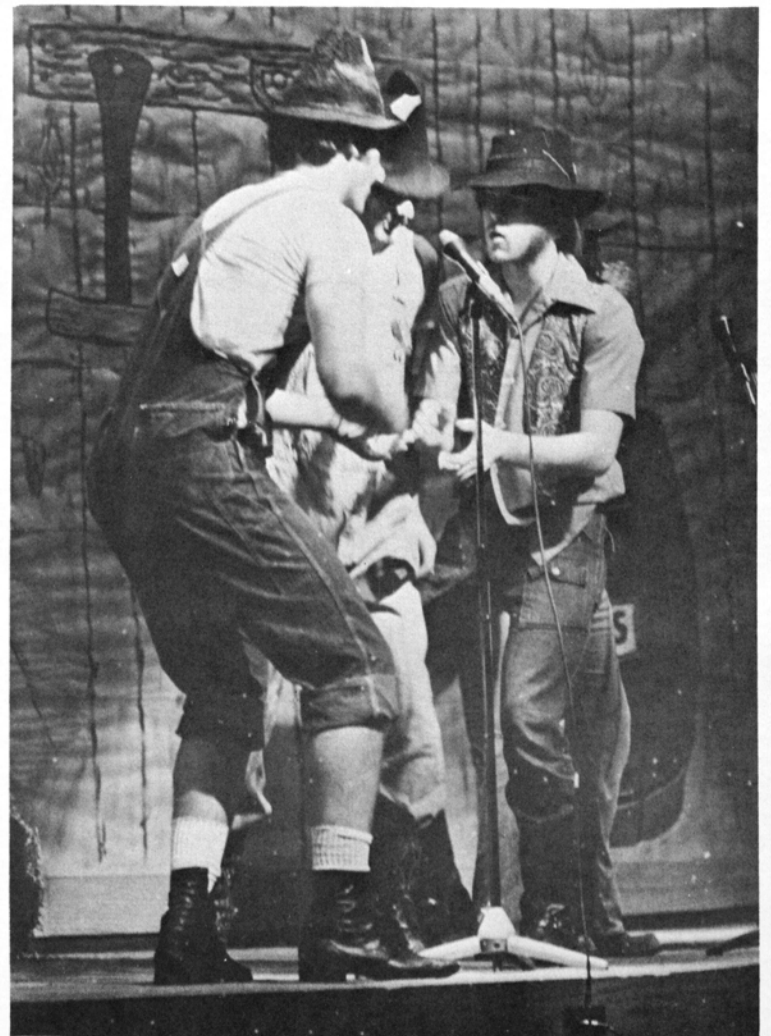

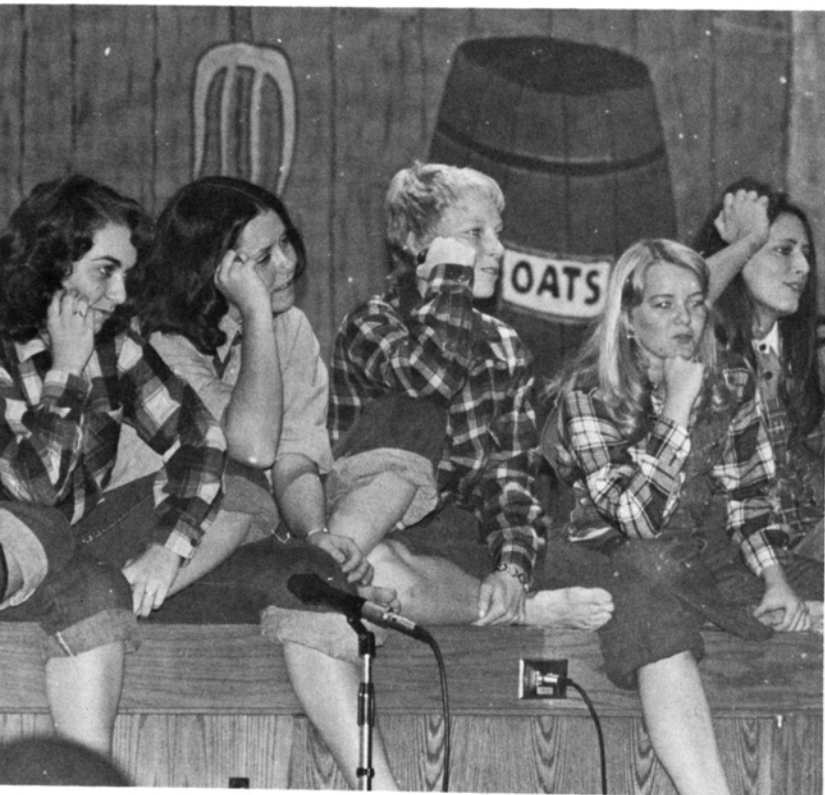

Dave Loggins livened up an otherwise typical Miner weekend by putting on a concert of soft country music. Between singing and playing he took time to joke and talk with the crowd, emphasizing his reputation as a well rounded performer.

IFC Sing

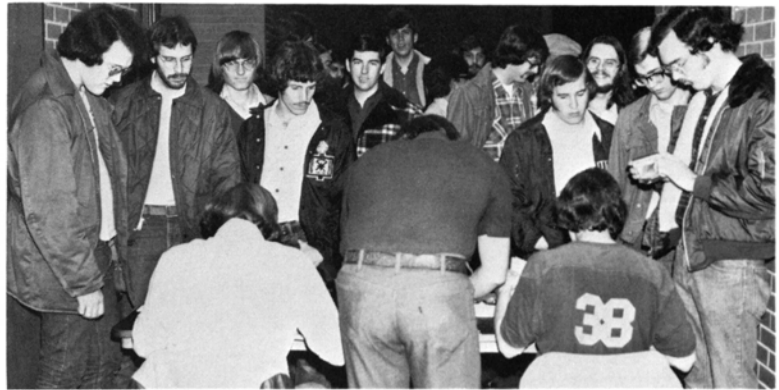

The annual IFC Sing started the 1974 Christmas Party Weekend. Centennial Hall was packed as UMR's Greeks gathered to display their talents. The time between acts was filled with comedy skits and music by the UMR Jazz Ensemble.

SUB Casino Night

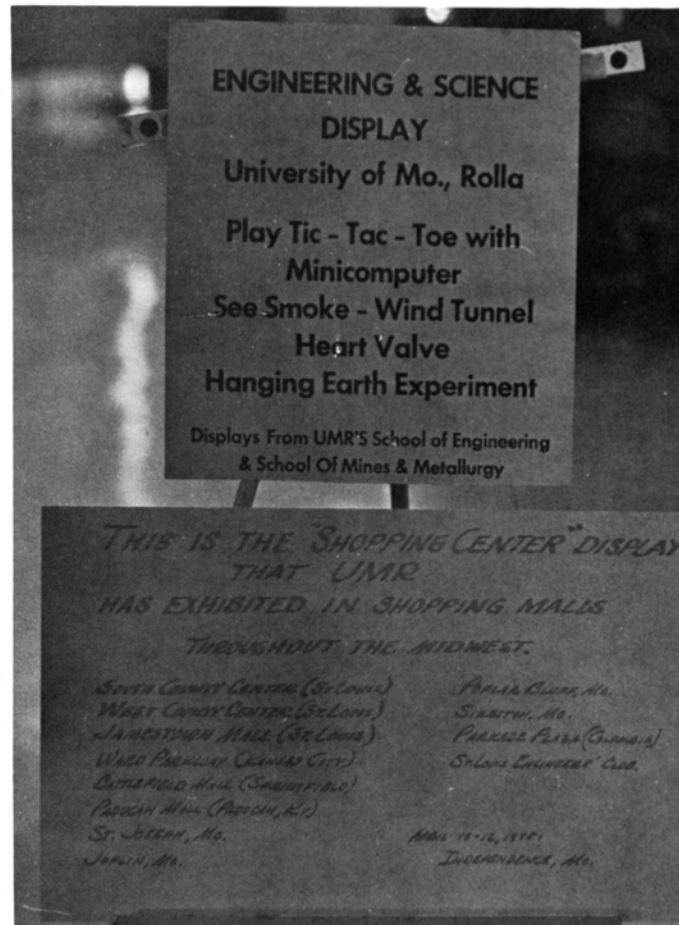

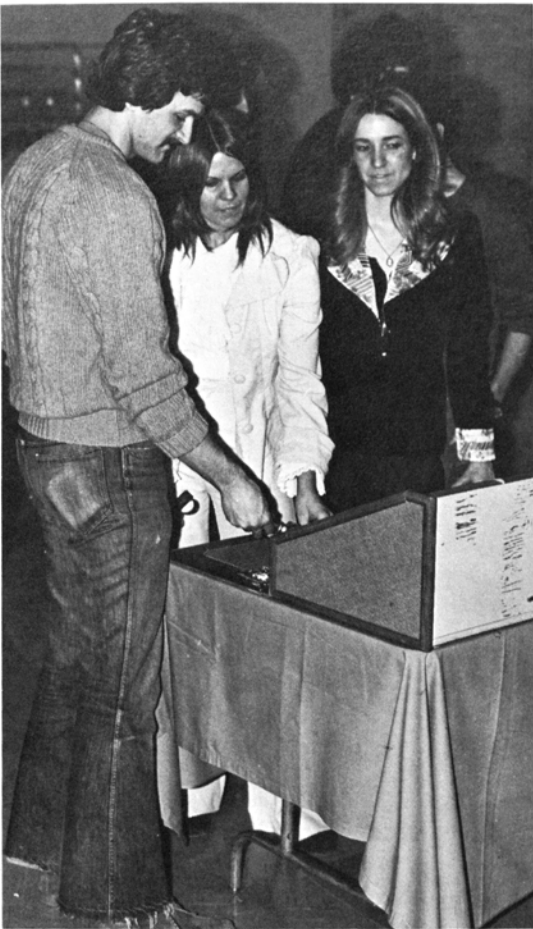

The Student Union Board held its Casino Night on January 24th. The evening was sponsored for pleasure rather than profit. The dealing behind the game tables was handled by some helpful profs and administrators. Many students attended to find some relief from hard studies.

Rob Inglis

Rob Inglis presented in a delightful manner the ribald and raucus humor of the literary classic, *The Canterbury Tales*. Before a disappointingly small crowd, Inglis performed the great work of Chaucer with perfection.

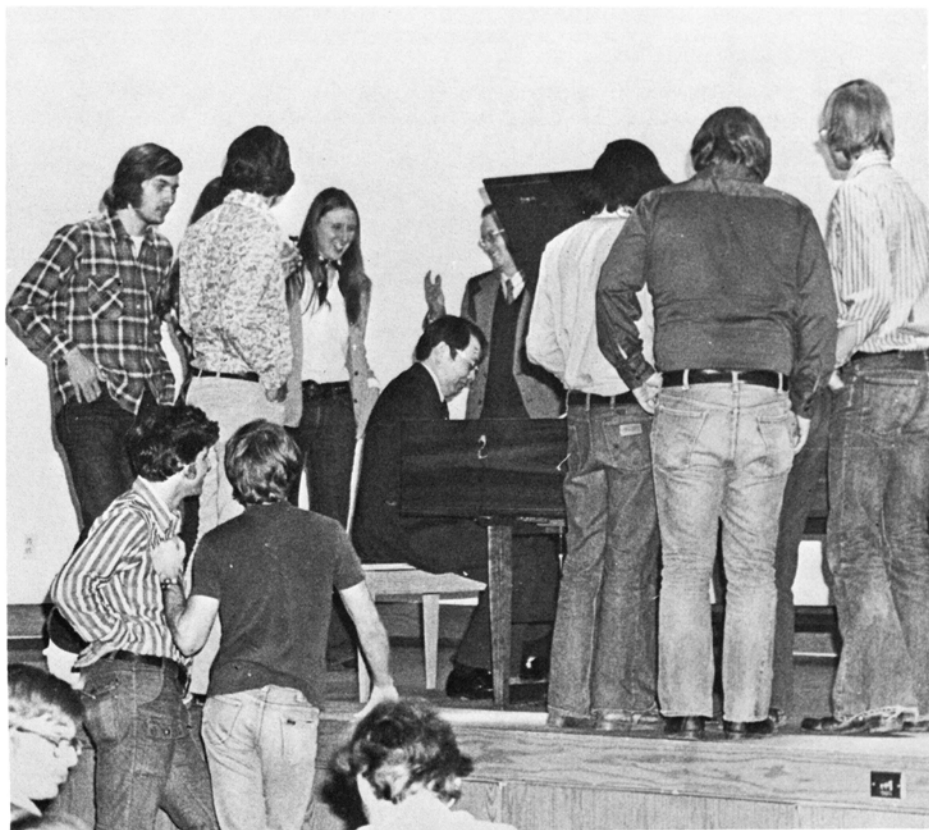

Engineer's Week

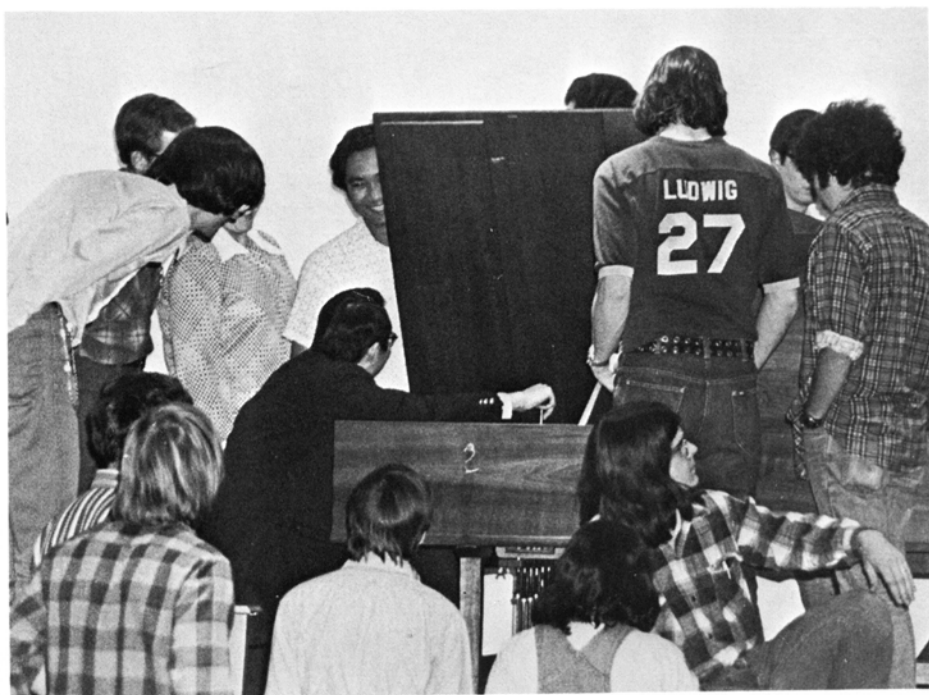

The theme of Engineers' Week was "Engineering-Exploring New Energy Frontiers". In observance of Engineers' Week, UMR's traveling engineering exhibit was on display in the St. Pats ballroom. Displays included an urban car built by UMR students, a wankel engine, a mini computer, and many more.

Eiji Hashimoto

On February 16, the students of UMR had the chance to see one of the better known harpsichordists in the country, Eiji Hashimoto. Hashimoto has obtained international fame by performing in many of the capitals in the world. Hashimoto started the show with an informal chat about the harpsichord, and continued by playing a variety of music from the 17th and 18th centuries.

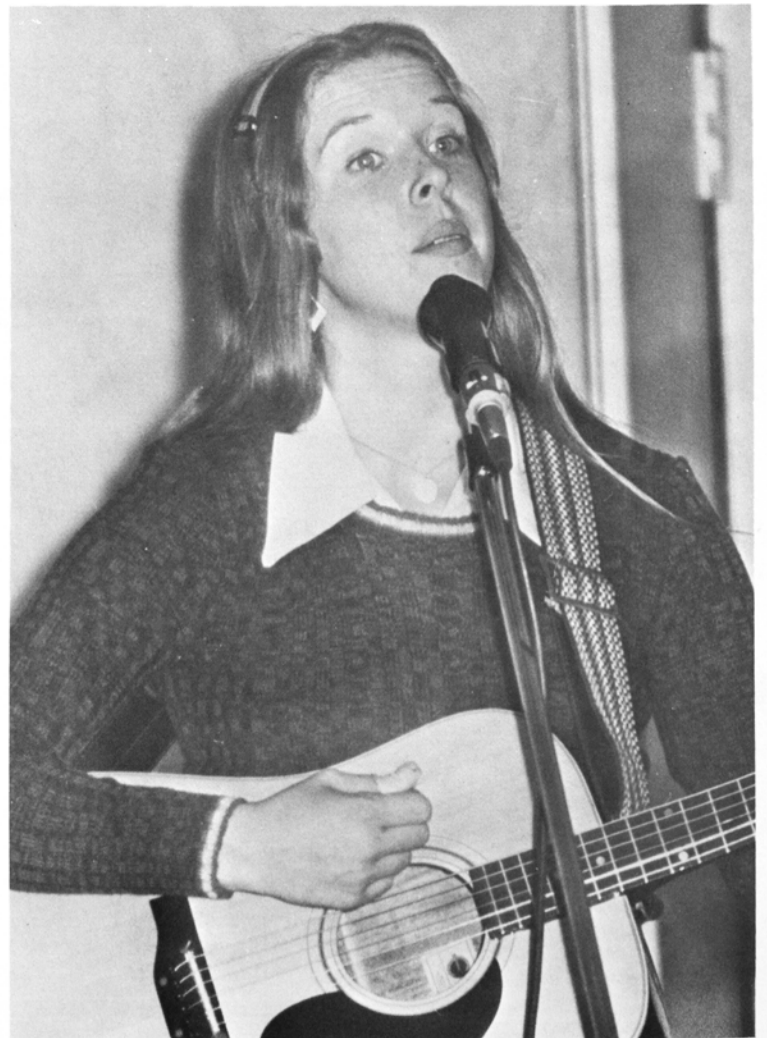

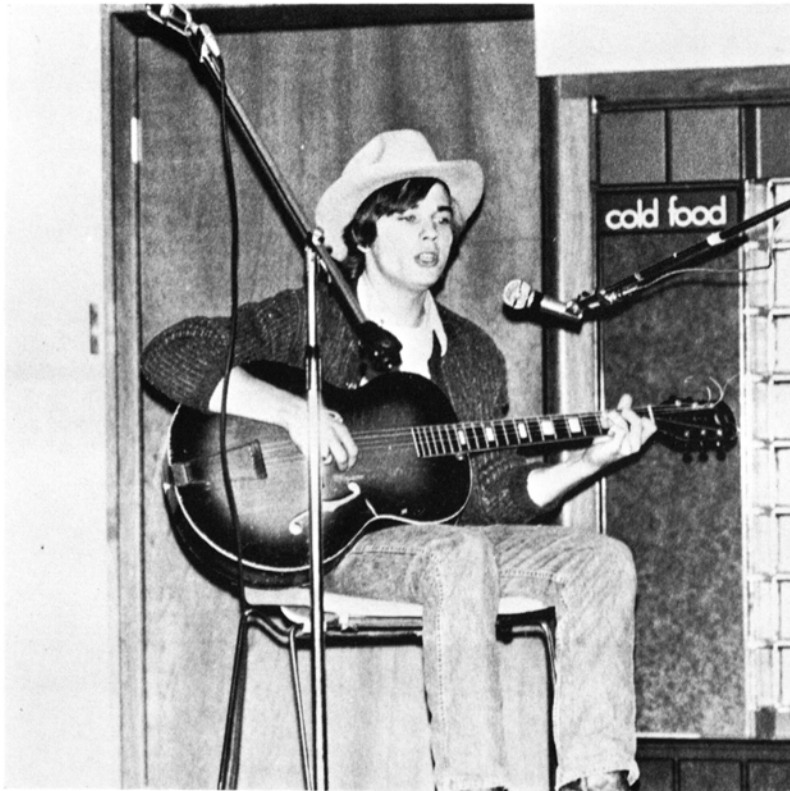

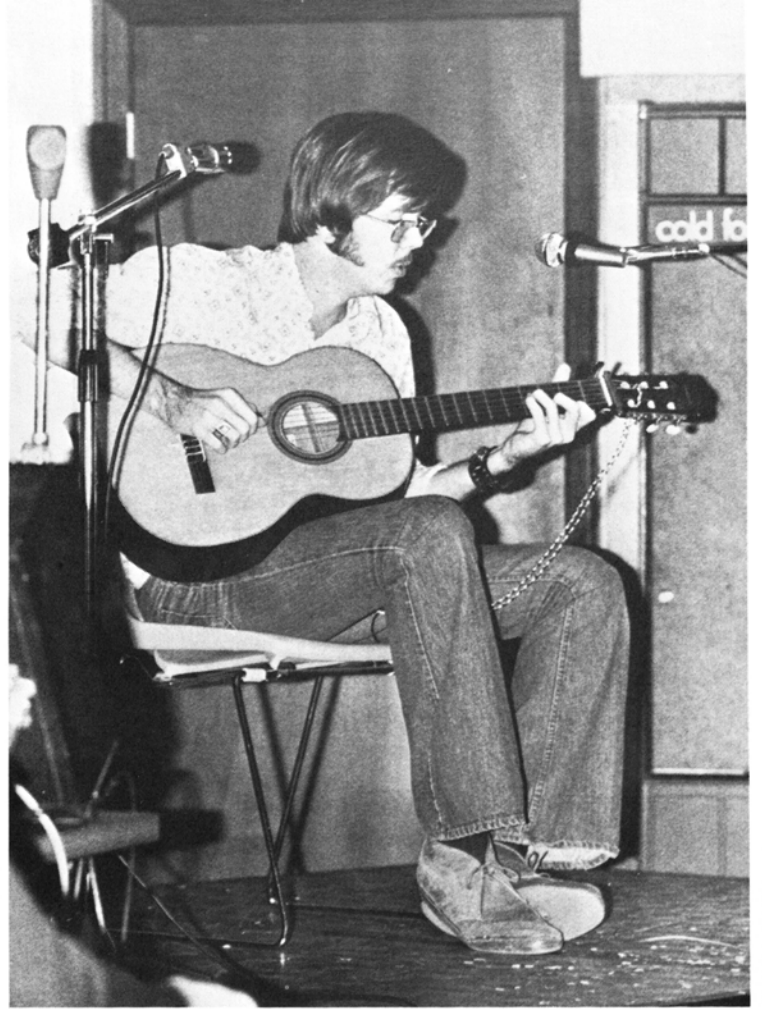

St. Louis Brass Quintet

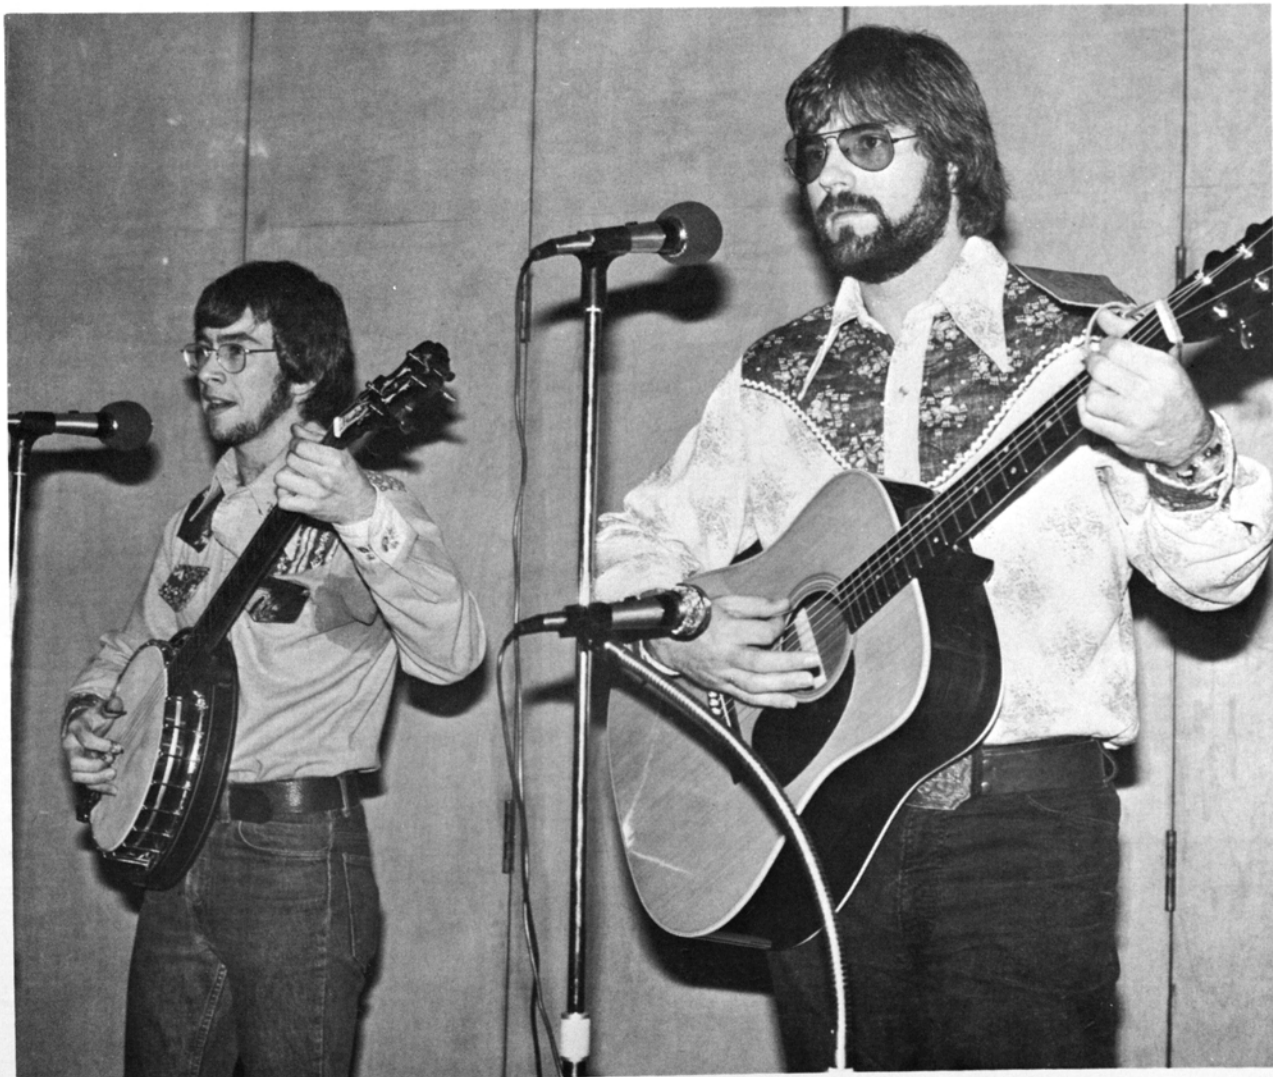

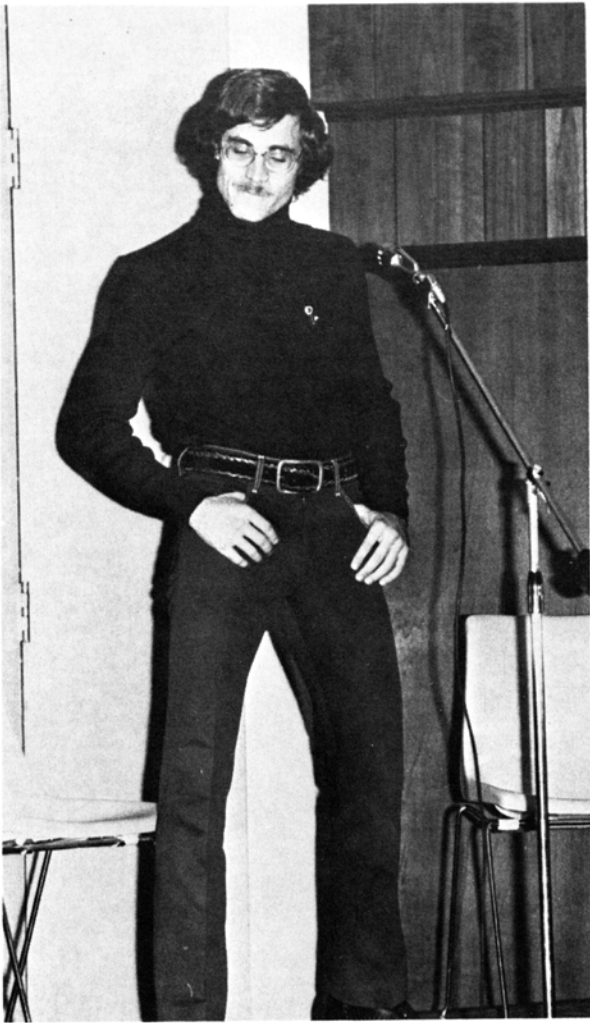

On February 21st, the St. Louis Brass Quintet performed music of the major composers from the Renaissance to the 20th century. The Quintet has been performing at colleges across the nation.

SUB Coffeehouse

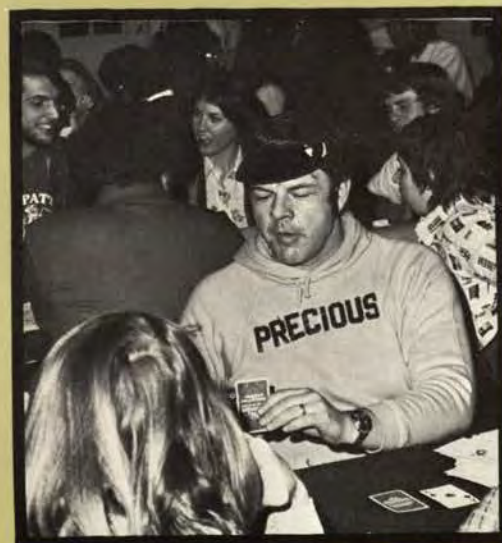

Theta Tau Casino Night

On the Wednesday before St. Pats, Theta Tau held its annual Casino Night with the proceeds going to the Ugly Man charity drive. Many Rolla businessmen donated prizes and refreshments while the fraternities and sororities provided the entertainment.

St. Pats

With the arrival of St. Pat on the hand car and the tapping of free beer at Top Hat, St. Pats Party Weekend officially moved into full swing. The coronation was performed with a style and grace not usually associated with the men in green. Governor Kit Bond was declared honorary St. Pat. Knighthood was bestowed on Chancellor Raymond Bisplinghoff, Mayor Harold Barnes, Mr. Robert Schucardt, St. Pat in 1950, and Mrs. Elizabeth Lorey. Miss Marilyn Weints was chosen the 1975 St. Pats Queen of Love and Beauty.

The Games

This year the St. Pats Games drew the largest crowd of the past several years. A new record was obtained by Bill Williams as he won the Six Pack Chug in 45 seconds. "Easy" Moore was the victor in the Endurance Chug. In a popular and hotly contested event, Jane Gremp came out on top in the Girls Quart Chug. The tree from Beta Sigma Psi was the winner for the second year running.

The annual St. Pats parade was a spectacular floats, bands, antique cars, and this year, the Anheuser-Busch Clydesdale horses. The parade was very traditional with the St. Pats alum painting Pine Street green, St. Pat riding on a manure spreader pulled by freshman, and the Queens Float filled with lovely gals representing many organizations on campus.

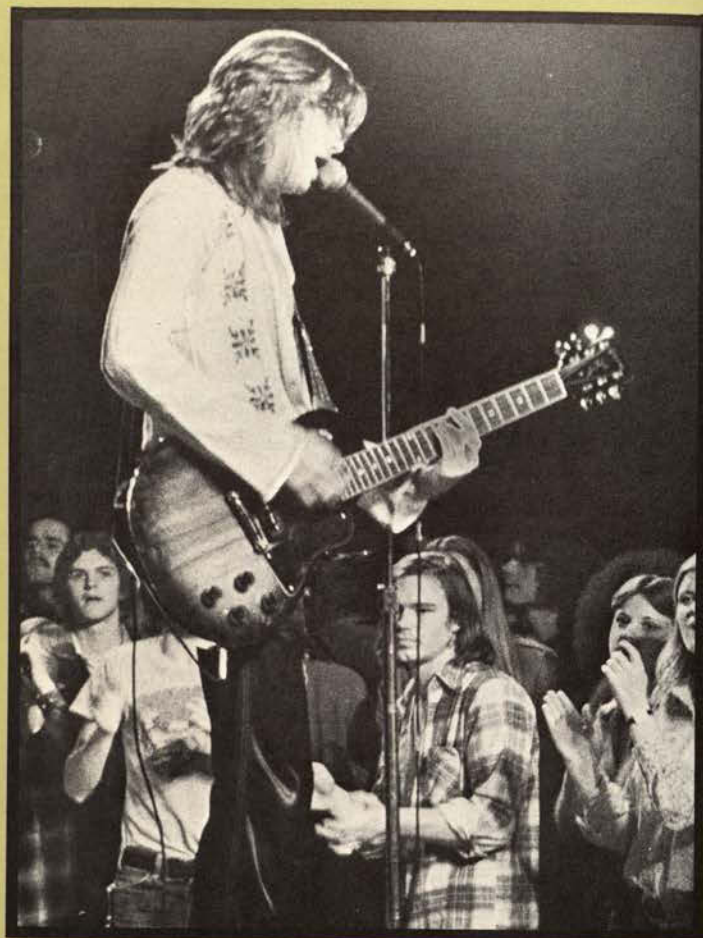

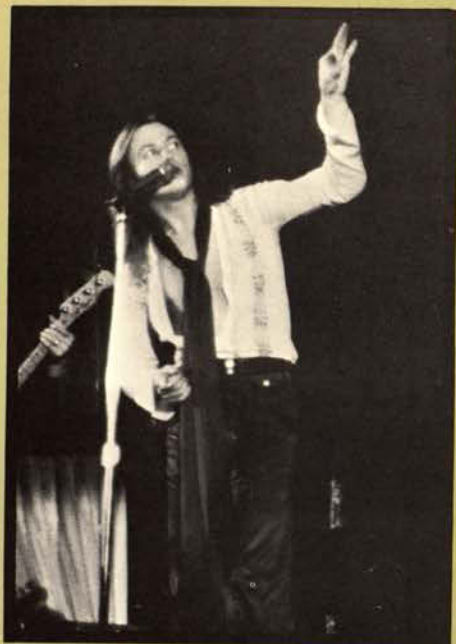

Who is Alice?

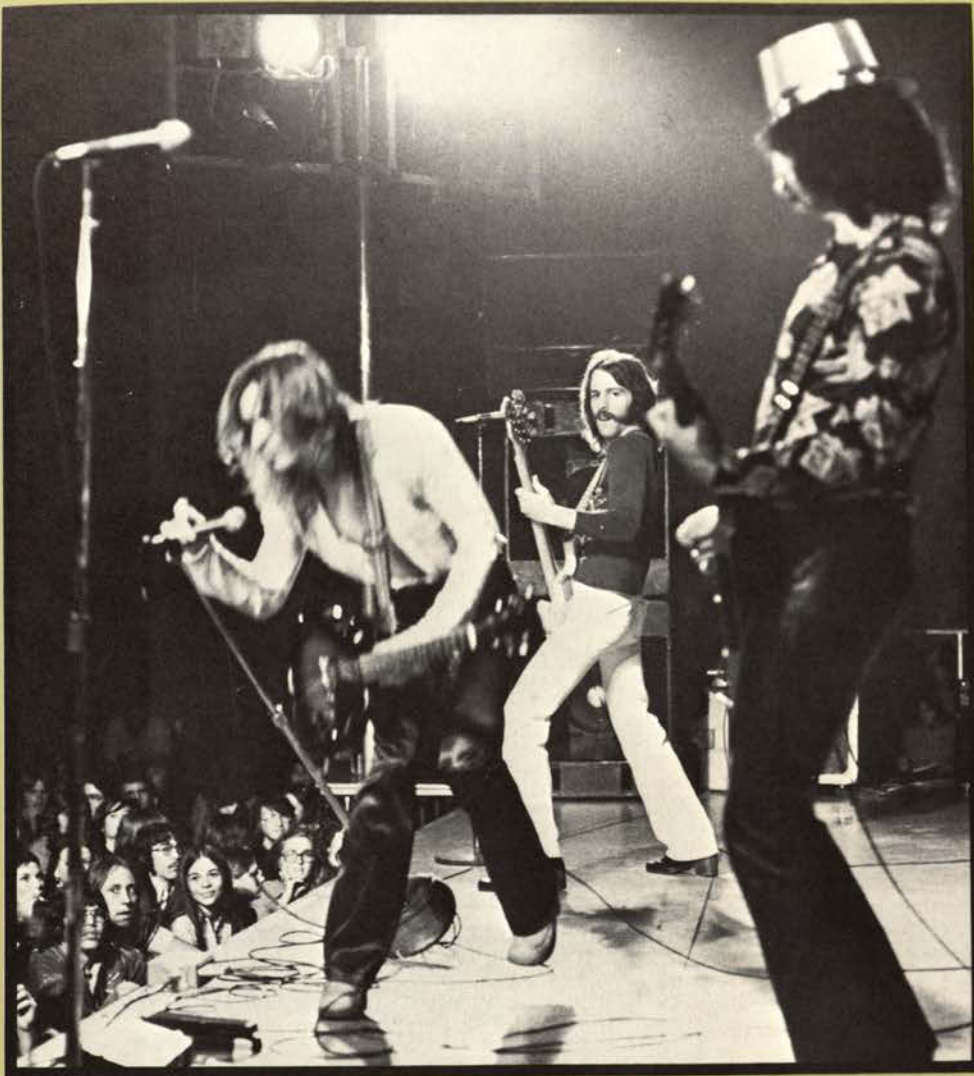

The knighting Ceremony took place early Saturday afternoon. The warm weather and the nature of this strange event was responsible for a huge crowd at UMR's Jacklin Field. Many organizations saw their elected knights kiss the hand of the St. Pats Queen and then take a dip in Alice. The crazy outfits of the knights and a dead possum were highlites of the afternoon.

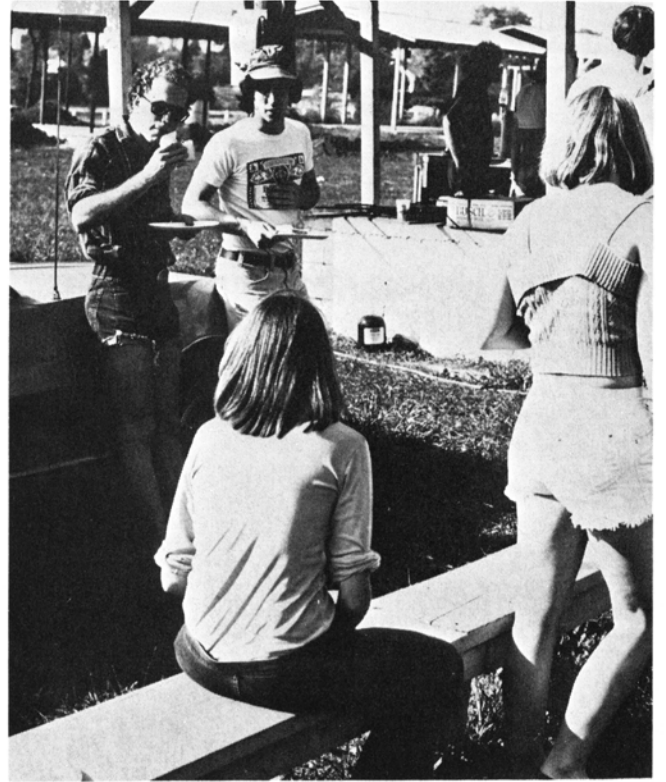

The James Gang

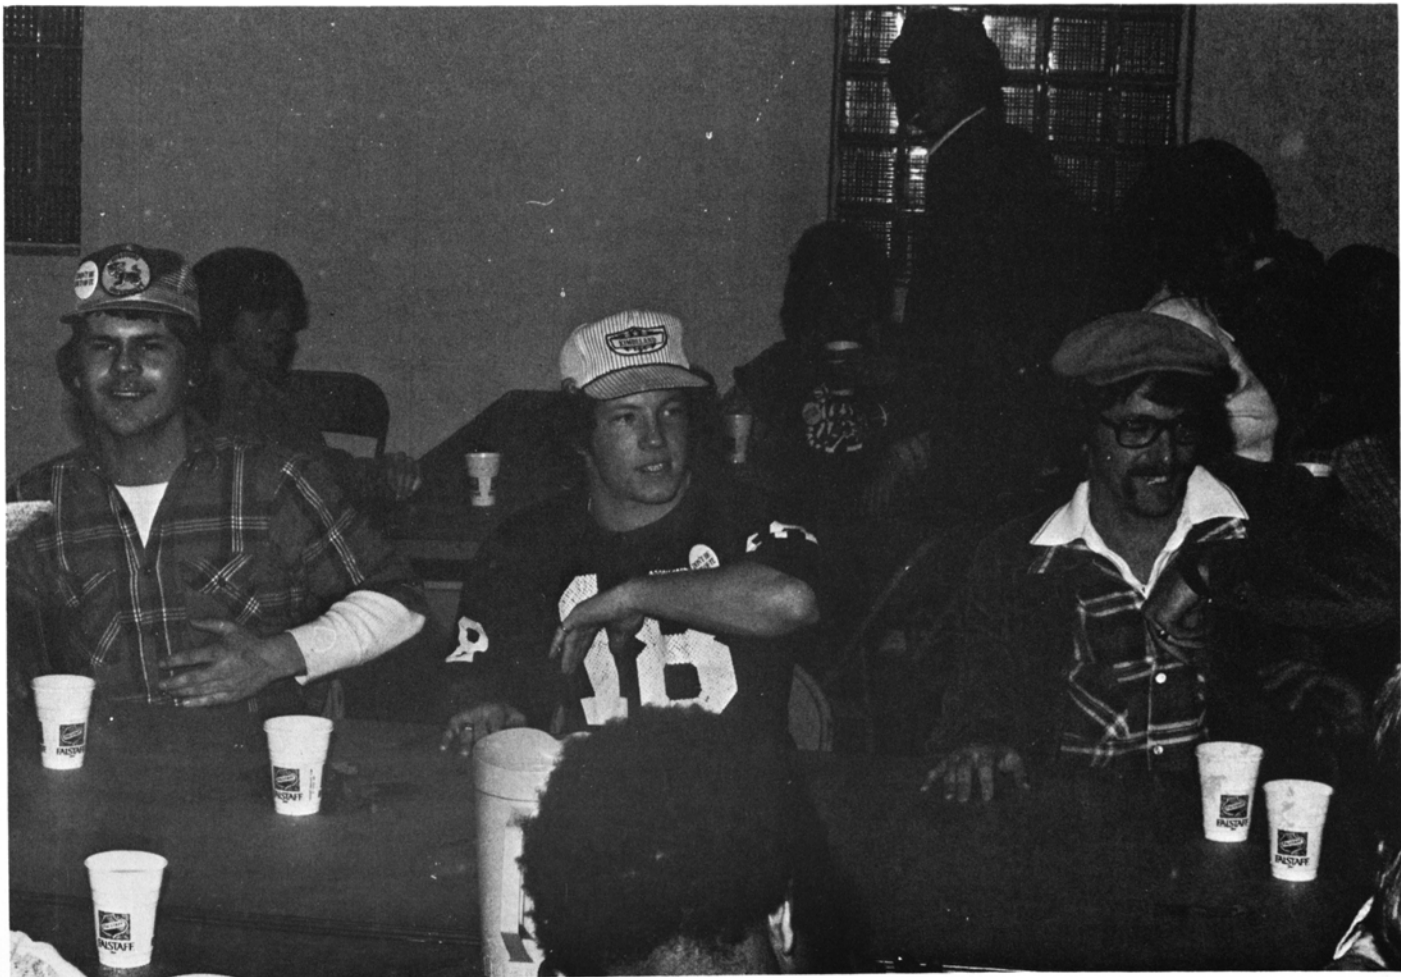

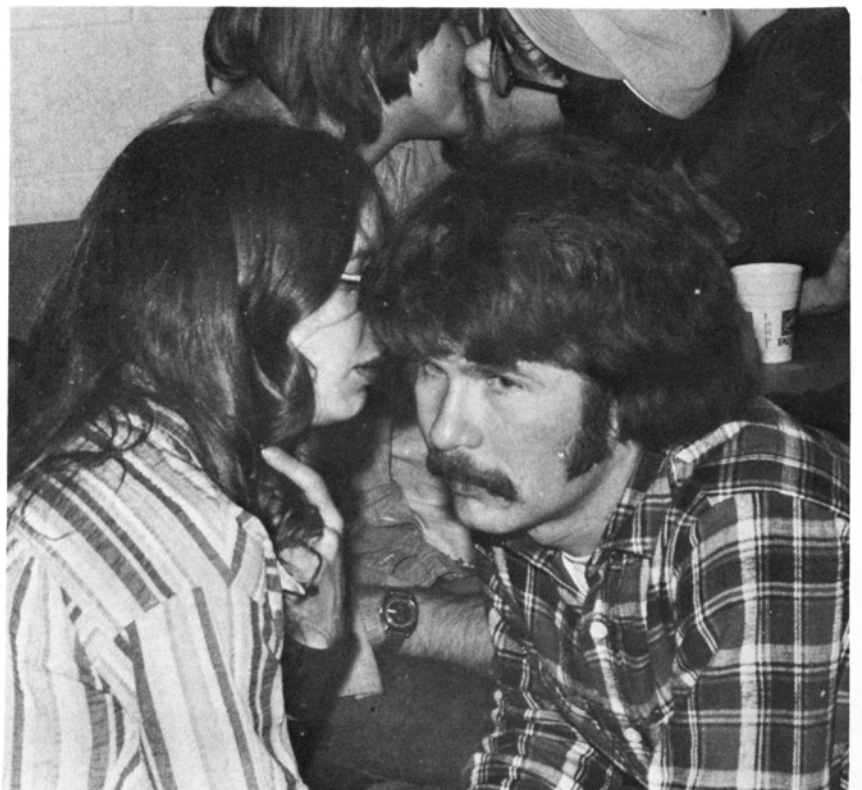

Active Independents

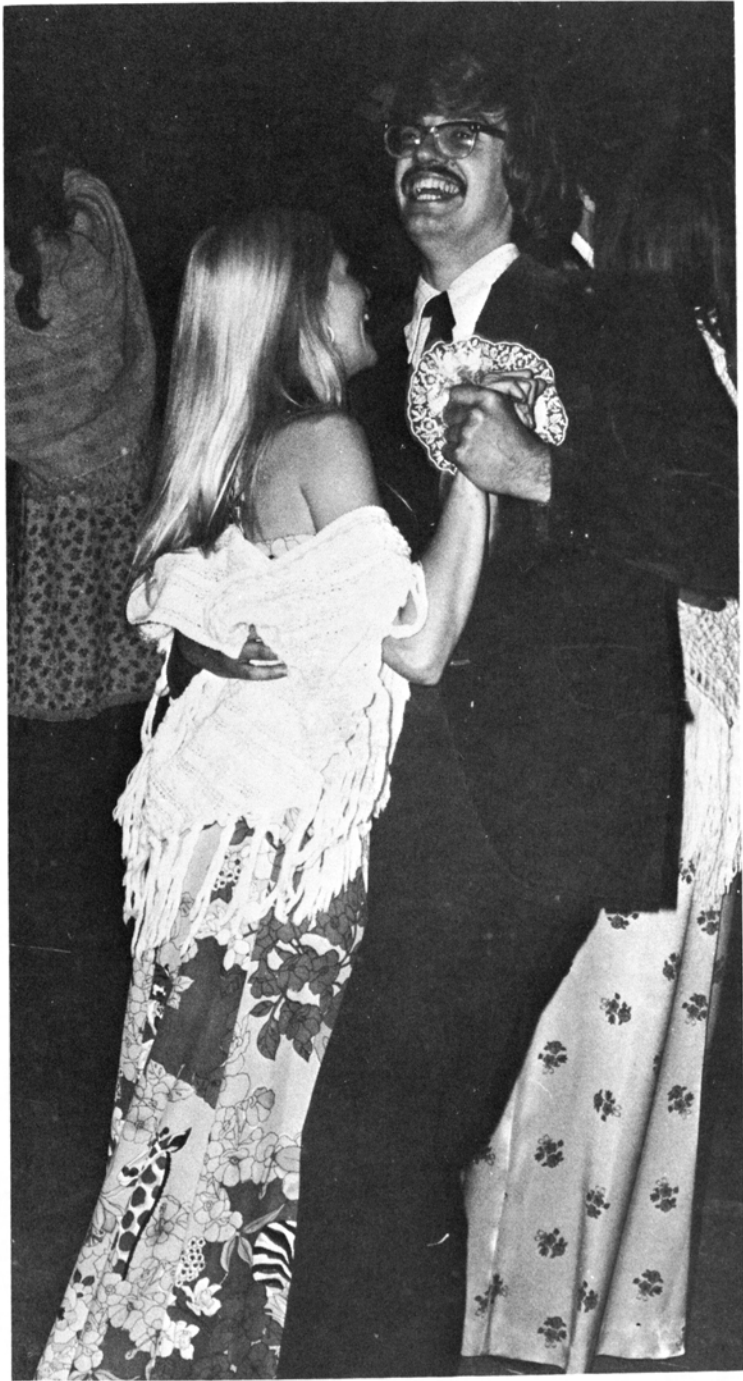

The annual All Independents Party Weekend was sponsored by the UMR Dorms, the ICC, GDI, and the International Students. Dancing, dining, drinking, and games were the order of the weekend. Echo Valley Farm was the site of two five-hour dances, the ALL-U-Can-Eat Barbeque, and the games.

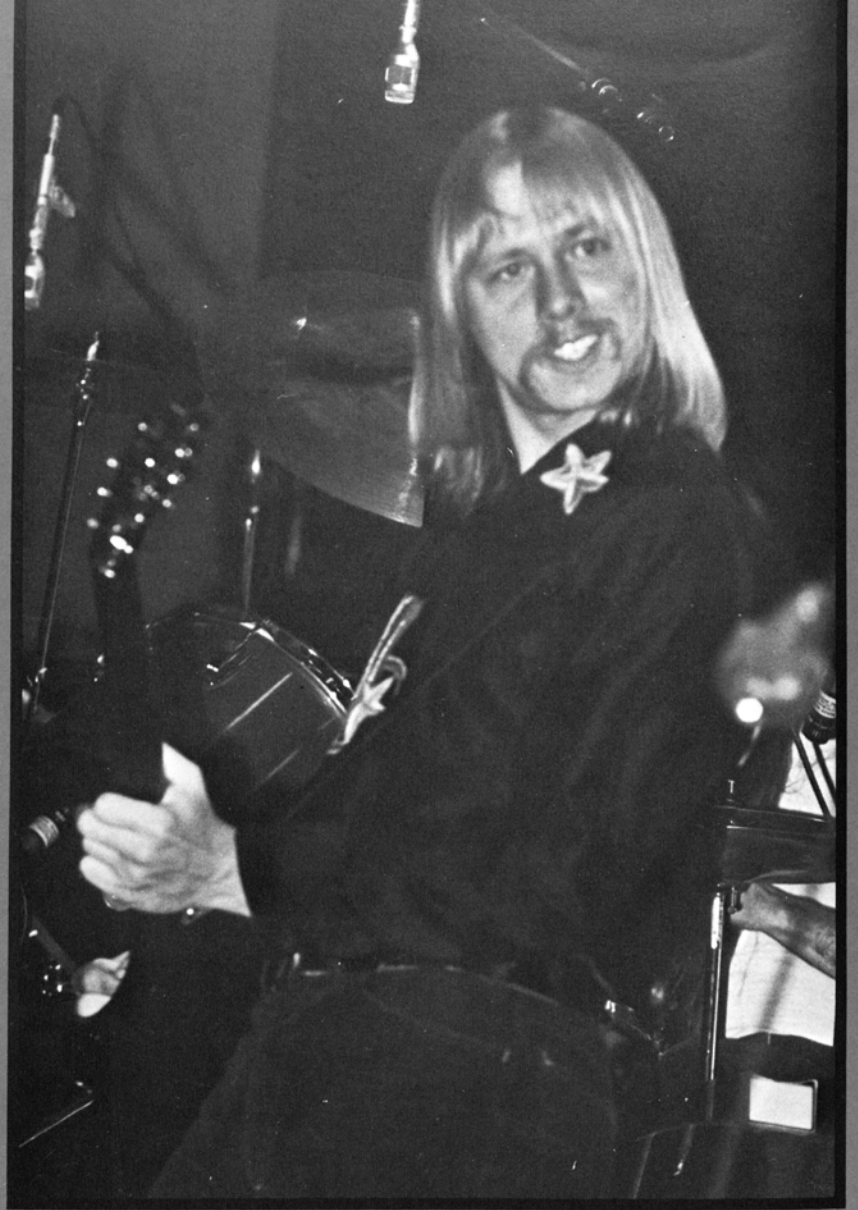

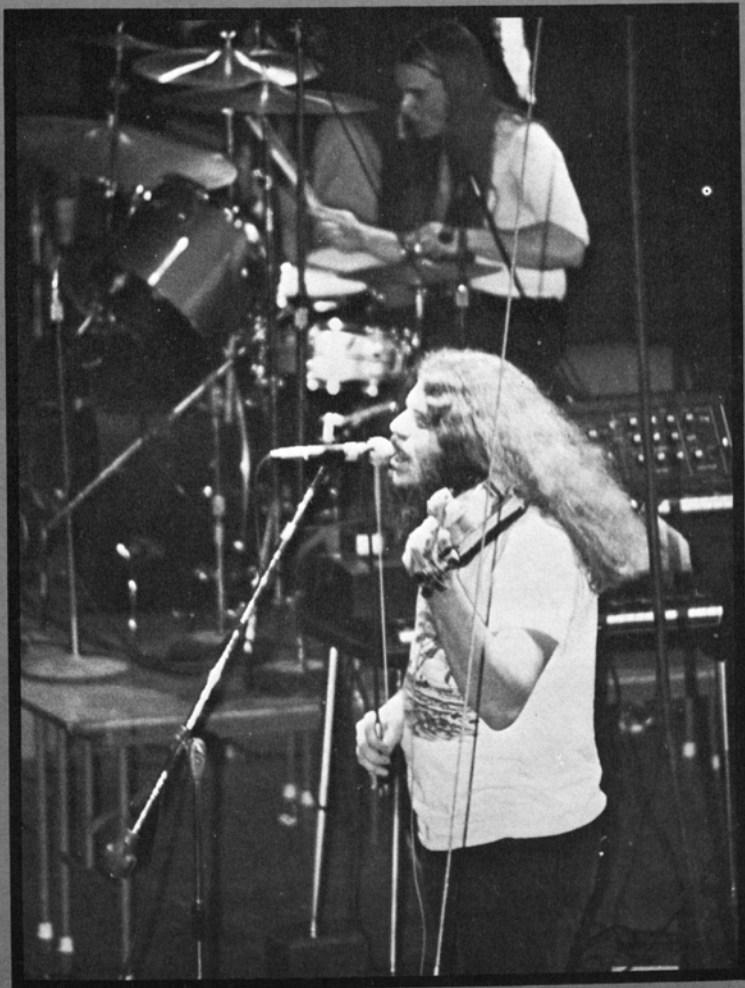

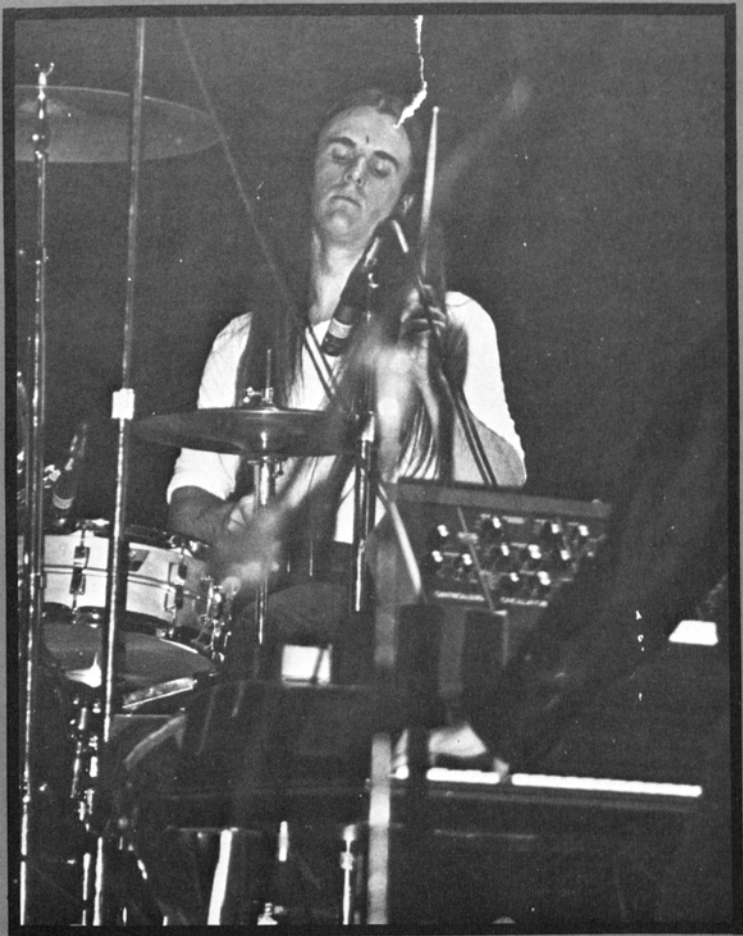

"Kiss Me, Kate"

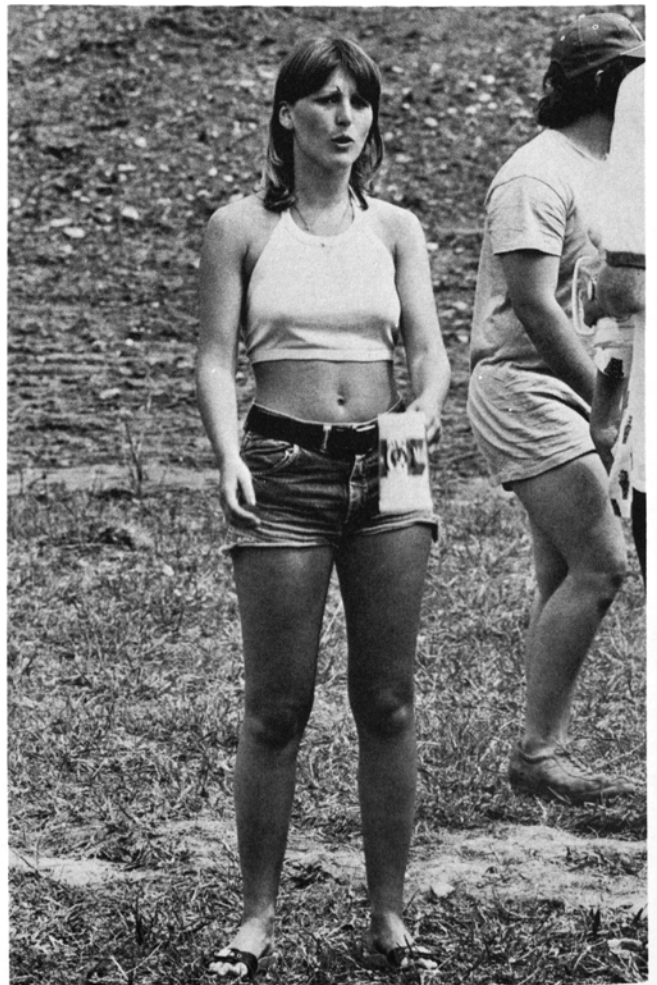

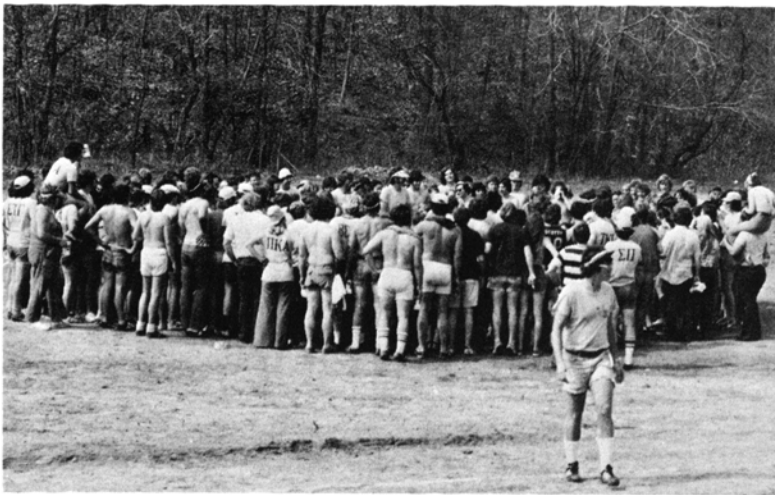

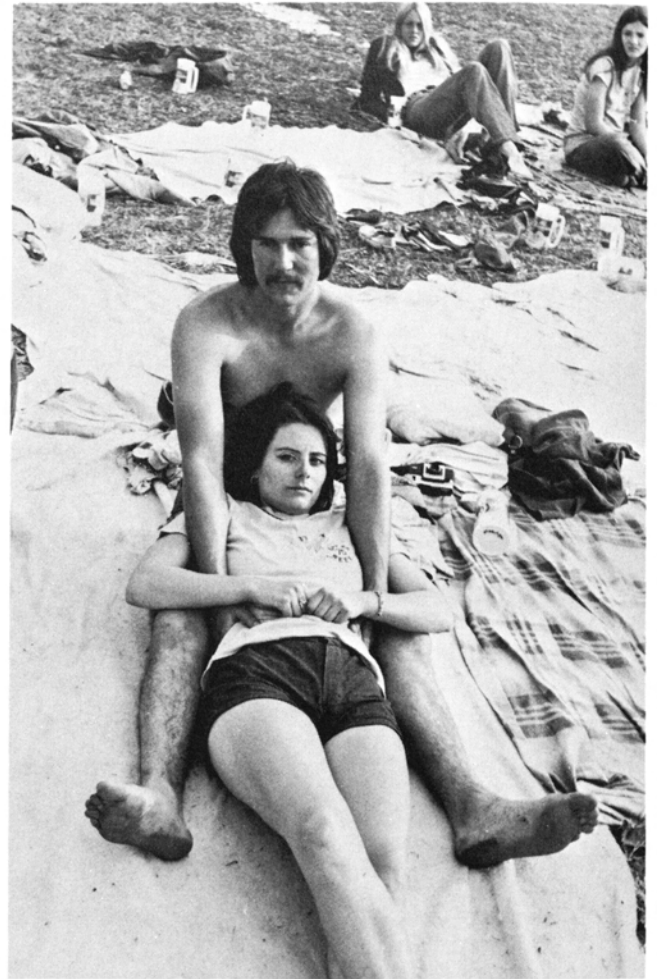

"Kiss Me, Kate", a musical by Cole Porter, was presented in the spring by the UMR Theatre Guild and UMR Music Section. "Kate", is a musical version of Shakespears "Tamming of the Shrew". Each night found Centennial Hall packed, indicating that the UMR Miners can appreciate a cultural performance.

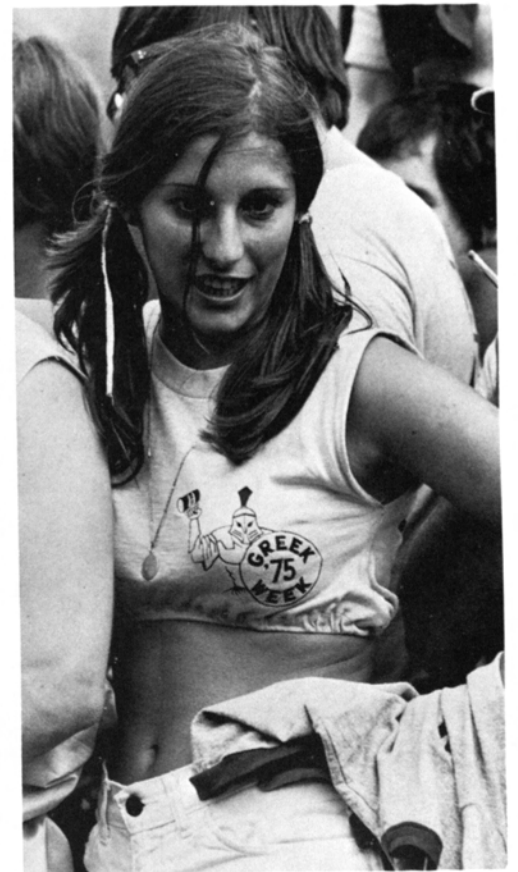

Kansas

Greek Week

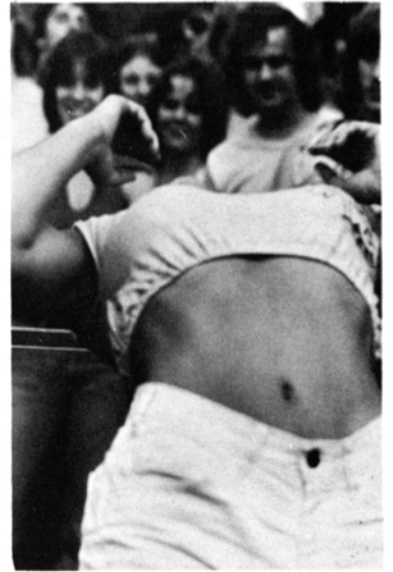

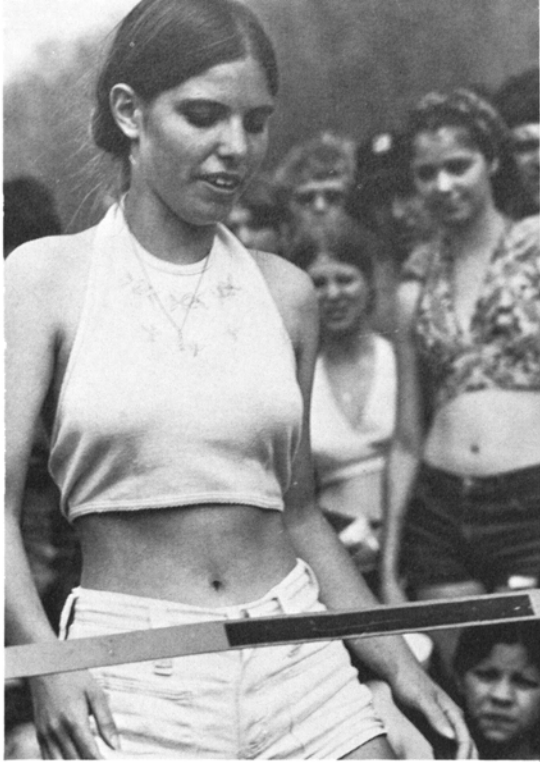

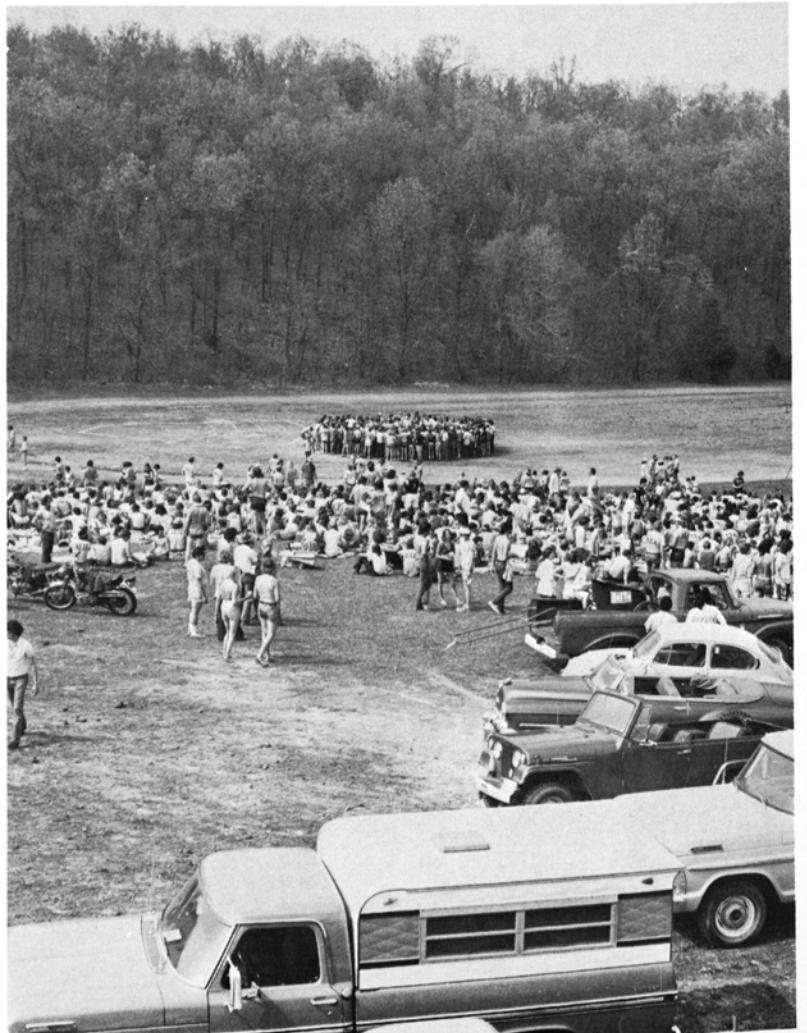

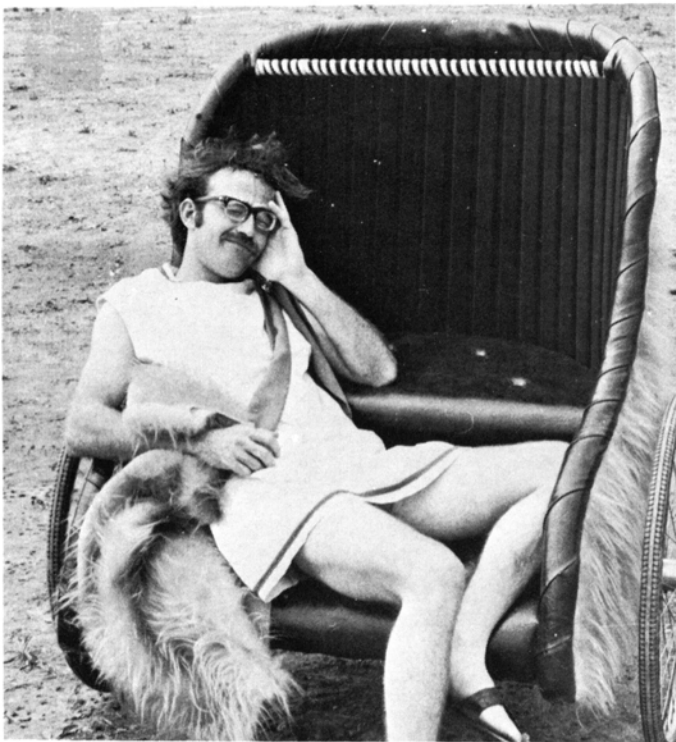

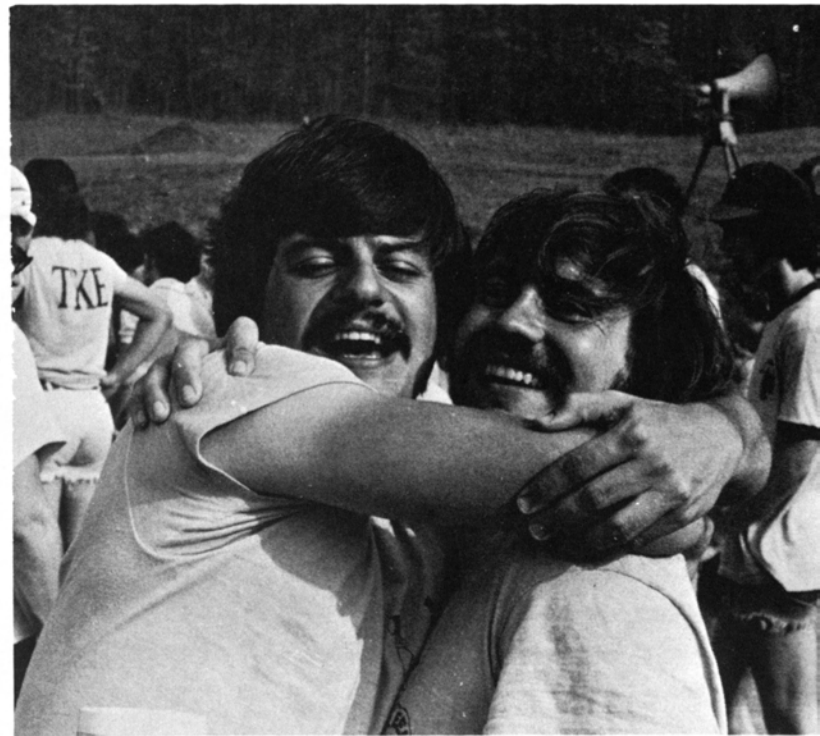

The Elysian Fields was the site of the Greek Games. The fields have been improved each year. 1975 was no exception as a scoreboard was constructed to keep the Greeks informed on the progress of the chariot race, rat race, keg toss, limbo, and tug-of-war. Tau Kappa Epsilon was the overall winner of Greek Week.

ROLLAMO Board

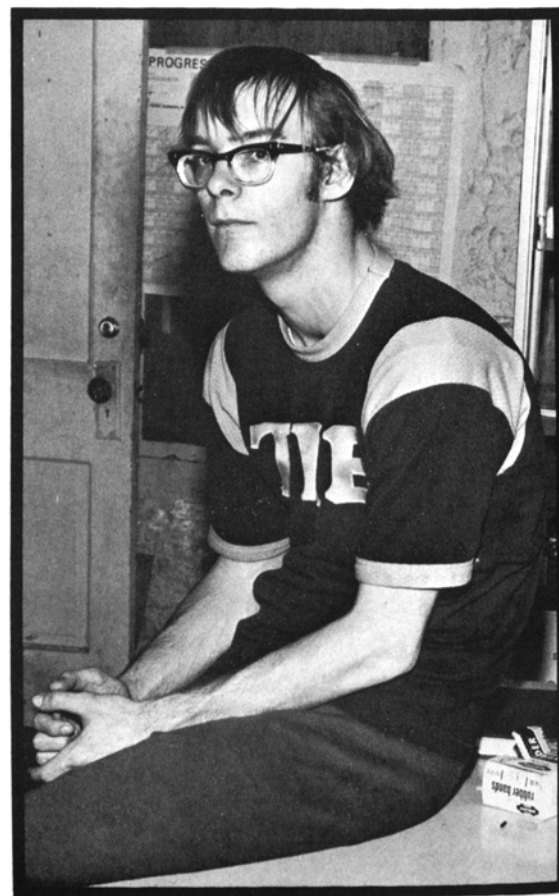

Dave Schepers-Editor in Chief

Kathy Veit-Queens

The ROLLAMO Board is responsible for compiling and editing the yearbook each year. The job begins in August with selection of staff and photographers within the first weeks of school, and continues throughout the school year as deadlines are met, the ROLLAMO Queen and her court are chosen, and final proofreading and finishing touches are added.

Blue Key

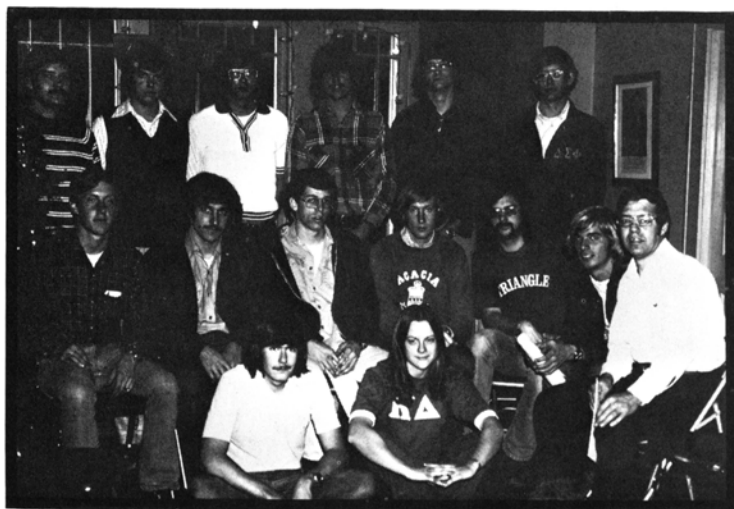

Blue Key is a National Honor Fraternity whose members are selected on the basis of character, ability and potential. On the UMR campus, its activities range in scope from services to the campus to services to the faculty and students. Among these are the Blue Key Student Directory, Miner of the Month, leadership seminars, and the resume service.

Beta Chi Sigma

Beta Chi Sigma is a newly organized service fraternity on the UMR campus. It is dedicated to preserving the ideals of the order of the arrow and providing service to campus, community, and scouting. Its big project of the year was the Merit Badge University which coordinated 28 merit badge skill centers sponsored by many campus and community organizations.

Gamma Alpha Delta

Gamma Alpha Delta is a Greek service organization which includes representatives from eleven fraternities and two sororities. The group organizes work projects throughout the state, allowing students to apply knowledge learned in the classroom to human needs. GAD also sponsors two discussion seminars in each member house each semester. The organization strives to create well-rounded engineers and scientists aware of the moral commitments of their profession

Economics Club

From left to right: Tim Bradley (president), Mike Winnett (treasurer), Ron Steingrubey (vice president), Dr. Brewer (advisor).

Forensic Society

Even though the UMR Forensic Society is a small organization, its members are developing a speech and debate squad that will travel across the state of Missouri to participate in forensic tournaments. Within a short amount of time, the speech and debate team will grow and be one of the most traveled of campus organizations. Though this organization is not well-known on campus, its officers ask that more Miners get behind the UMR Forensic Society and watch it grow to be one of the best squads in the state.

M-Club

Left to right: Rusty Crane, Mark Snowden, Greg Best, Art Stevenson, Brian Flynn, Dave Wisch, Steve Starke, Ken Burris, Bud Stein, Jeff Poze, Dan Wenk, Greg Haug, Vic Lomax.

M-Club is a service fraternity composed of varsity athletes. During the course of the year, besides encouraging the participation in varsity athletics, the organization carries out many projects. Every week, the club selects an athlete on campus who has excelled in his sport during the past week. For Homecoming, the club sells Homecoming buttons and sponsors a pep rally and bonfire. During the basketball season, M-Club handles the concessions and ushering at the games. In the spring, the club has two big projects, the Junior Olympics and the Sports Banquet.

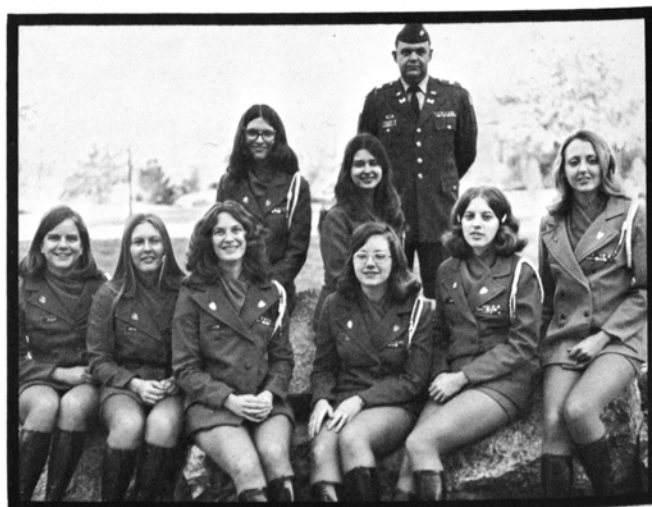

First row, seated: Dr. Donald B. Oster (advisor), Larry Maxwell (vice president), Phil Hensley (president); Second row, standing: Frank Chapman, Dr. Lawrence O. Christensen.

The Marching Minerettes are a girls' military drill team. Activities this year included state-wide competitions, performances on campus and in the Rolla area, and several service projects. The group made a fine showing in standard weapons drill competitions against all-men teams, placing second only to UMC's team at one meet.

The UMR Scuba Club, organized in the spring of 1973, has as its objective the association of people with a common interest. It also serves to promote safety as an inviolate way of life in one of our newest sports. Second only to safety, the UMR Scuba Club stresses an appreciation and sportsman's respect for the ecology and environment to be found only by those who venture beneath the surface of our water world.

UMR Sports Car Club

Scuba Club

The UMR-Sports Car Club is an organization specifically oriented to the car enthusiasts at UMR and the surrounding area. The primary objective of the club is to promote good driving habits and automotive safety as well as keeping one informed as to new developments in the automotive industries. These goals are achieved by sponsoring rallies and autocrosses, in which skill, safety, and coordination are stressed along with competition. The club has also helped the Boy Scouts in Automotive Safety merit badges.

University Chamber Choir

The highlight of the year for the University and Chamber Choirs, under the direction of Bruce Chamberlain, were the Madrigal Dinners, their contribution to university Christmas spirit. Patterned after actual medieval English Yuletide celebrations, the feast included wassail, roast beef, and flaming plumb pudding. It was all serenaded by the choir, in costume, through solos, sing alongs, and group selections of authentic Old English Christmas music. It is hoped the three night celebration will become an annual event and a UMR Christmas tradition.

Tau Beta Sigma

Tau Beta Sigma is a national service sorority for bandwomen to promote the role of the college band. It co-sponsors with Kappa Kappa Psi an annual Junior High Band Clinic and the District Music Festival. The Band Clinic brought in over 800 students from 27 schools. Tau Beta Sigma also co-sponsors socials and banquets for all UMR band members.

Crescents

The Crescents of Lambda Chi Alpha are an auxiliary organization to promote spirit within the fraternity house. For the first time the organization had an actively participating intramural team. Among their other projects were monthly dinners, a Halloween party for area children, and supporting the fraternity for intramurals and philanthropic projects.

Daughters of Diana

This year the Beta Eta Chapter of the Daughters of Diana were very busy. A few of their activities this year were a Halloween Party, followed by two house dances and a Big Brother-Little Sister pool tournament. Moneymaking projects this year were a raffle in the fall and a Spaghetti Dinner in the spring. They also helped the house with their St. Pat's float and the TKE First Annual Mid-America Softball Tournament and participated in the Greek games.

Kappa Mu Epsilon

The Missouri Zeta Chapter of Kappa Mu Epsilon National Mathematics Honorary Society has always had as its main objective to further the knowledge of mathematics of students on the UMR campus. Again this year, we have held help sessions for students in algebra, trigonometry, calculus, and differential equations. Also, we have been fortunate to have several of the faculty in the UMR mathematics department speak. These topics ranged from mathematical applications to polling to a mathematical construction of the Wankel engine.

The Society of Physics Students encourages and develops the knowledge, competence, enthusiasm, and social responsibility of student physicists essential to the advancement of physics. The society also stimulates interest in research and develops friendship among physics students and faculty. In addition, the society gives recognition for the attainment of high scholarship and achievement in physics as well as to promote the popularization of physics in general.

Society of Women Engineers

The Society of Women Engineers is an organization which provides fellowship and unity for Women in Engineering. The Rolla student section of SWE holds monthly meetings with programs varying from panel discussions on summer jobs to lectures on recruitment of women into engineering, women's legal rights and the transition from college to work.

W.T. Shrenk Chemical Society

The W. T. Schrenk Chemical Society is a student affiliate of the American Chemical Society. The primary goals of the organization are to acquaint people interested in chemistry with professional opportunities for chemists in education, industry, and government service, and also to inform interested people of the recent advances in the science.

The Inter Co-op Council was founded in 1960 at the University of Missouri at Rolla with the purpose of promoting cooperation and mutual interest between the eating clubs and their members on this campus. As the coordinating organization for the three eating clubs on campus, the Inter Co-op Council represents nearly 500 students. ICC continually strives to make its member clubs more than just a "place to eat". This year as in the past, ICC was a major force in the preparation and operation of Independents Weekend. Combining efforts with GDI and IWC, ICC helped greatly to again make this weekend a truly fine weekend for the independents. ICC also sponsored and helped with the many dances held by the eating clubs on the other party weekends throughout the year.

Tech Club enjoyed another good year in both Academics and Activities. 1974-75 proved to be an excellent year for Tech Club in the Intramural Race. Overall the club finished Third. Second and Third finishes in many of the sports gave Tech many points and also earned the Consolation Trophy for the club for having no first place finishes. Tech Club athlete of the year went to Ken Jinkerson for his participation in many of the intramural sports, but special mention must also be given to Jim "Bosco" Dudley for his participation in Tech Club sports. This year also proved to be very interesting with the merger of Engine Club and Tech Club and both clubs eating and sharing expenses at the Engine Club facilities. Next year both clubs will be known as Tech-Engine Club and will reside in the Engine Club facilities.

1974-75 was a year of successful innovations by the Board of Governors in making life more eventful for the MRHA. Many of the ideas and much of the energy emerged from President Steve Tillman. Vice-President Mike Mullens, Secretary Tom Rechtien, and Treasurer John Westermayer formed the remainder of the unified and totally dedicated executive board. Mr. Joe Ward served as Advisor for the MRHA for the sixth year.

The Year was opened with a watermelon get-together in the dorm quad. The quad was also the scene of several movie spectacles complete with free refreshments. Open to all MRHA and WRHA members; it was probably the most successful and enjoyable innovation of the year.

Truly a year of impact upon dorm life and all attributable to a fine group of officers, governors, committee chairman and reps, making up the MRHA Board of Governors.

House A

This year House "A" 's supreme endeavor is to reach our goal of a 3.50 house GPA. Along with this comes great responsibility which every member must share. We require constant study every third day there must be no night go by without someone pulling an 'all nighter' (especially on Friday or Saturday nights).

Along with this hectic pressure comes the need for relaxation. This consists of football, volleyball, basketball, watching Star Trek, giving blood (one way or another), and all night monopoly games.

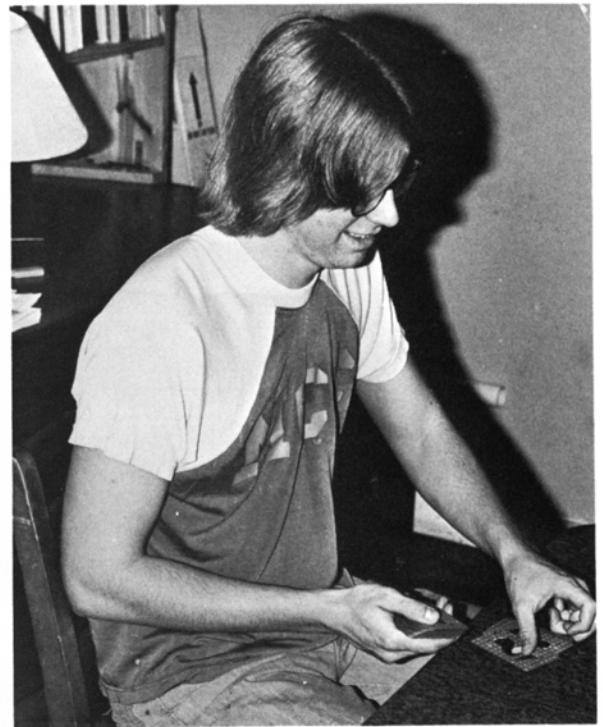

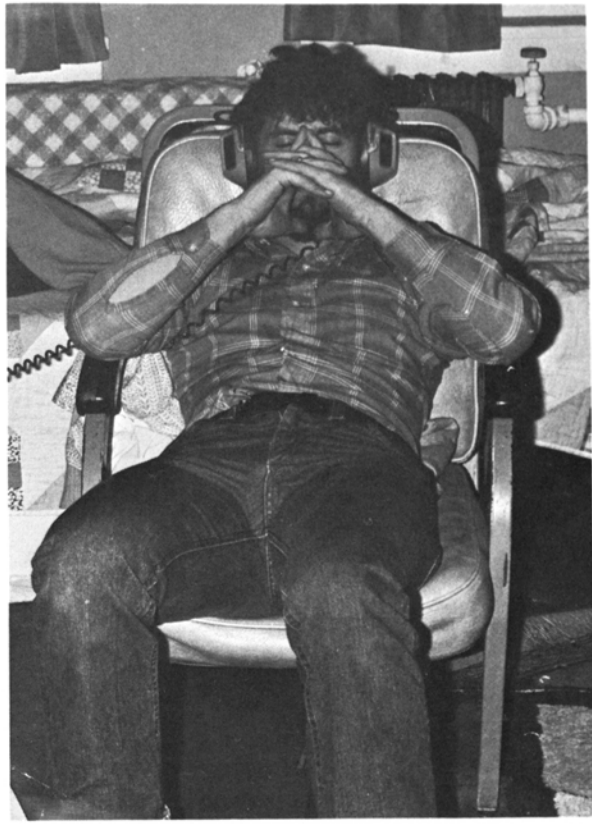

The upperclassmen have tried to impress upon the freshmen the necessity and applications of sound formulas in everyday life at UMR, such as the rules of St. Pat's.

House B

House C

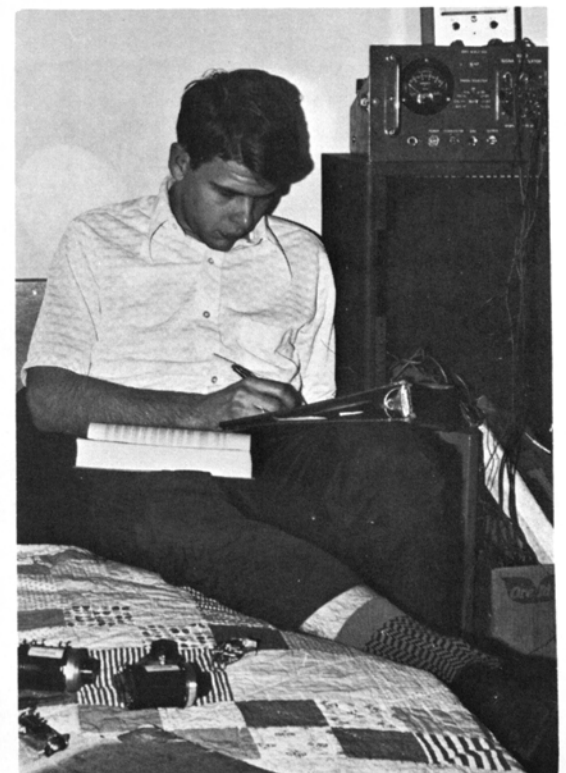

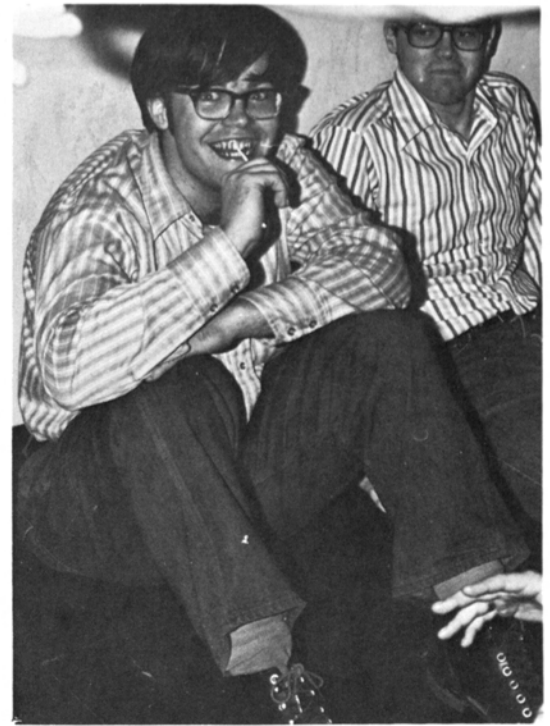

In the fine tradition of House 'C' as being highly public spirited, we helped our advisor, Dr. Sparlin, replace the dilapidated seats in the old Rolla High School. We pride ourselves in helping people. For the past five years, we have collected the most money for the Ugly Man Campaign. Rain or shine, you could find us on the street corners in Rolla. This year was no exception. We already are off to a real good start. With the school year half over, we stand second in interdorm sports competition, but are looking for our usual strong finish. We also furnish athletes for the many M.R.H.A. intramural sports.

House D

From high atop Kelly Hall, the windows of House D command an awe-inspiring view of the dormitory complex. The penthouse affords the resident sweeping vistas; the Quad Christmas lighting, the MRHA float, construction, and the lens of the projector during Social Committee movies. In a more serious vein, House D has compiled an impressive academic as well as athletic record - first in interdorm athletics and second in MRHA grade point averages. When they aren't studying or working out, the men of House D settle down to their favorite activity - sitting in the hallway waiting for an Exit light, or in season, watching the Christmas tree lights blink. Rolla at times, can become just a tiny bit boring.

House 2

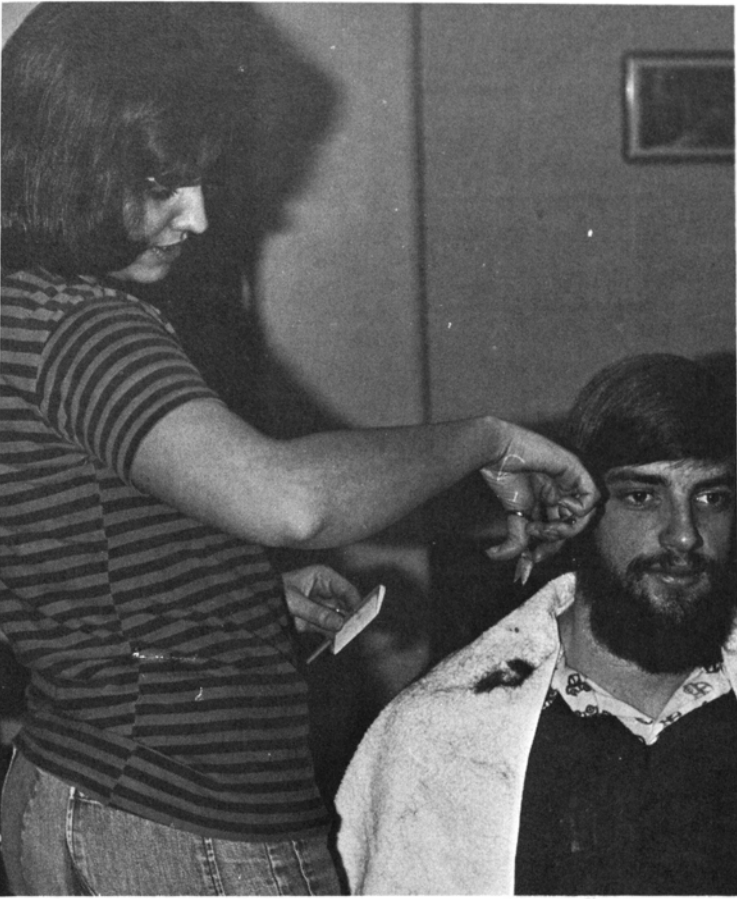

House 1 and 2

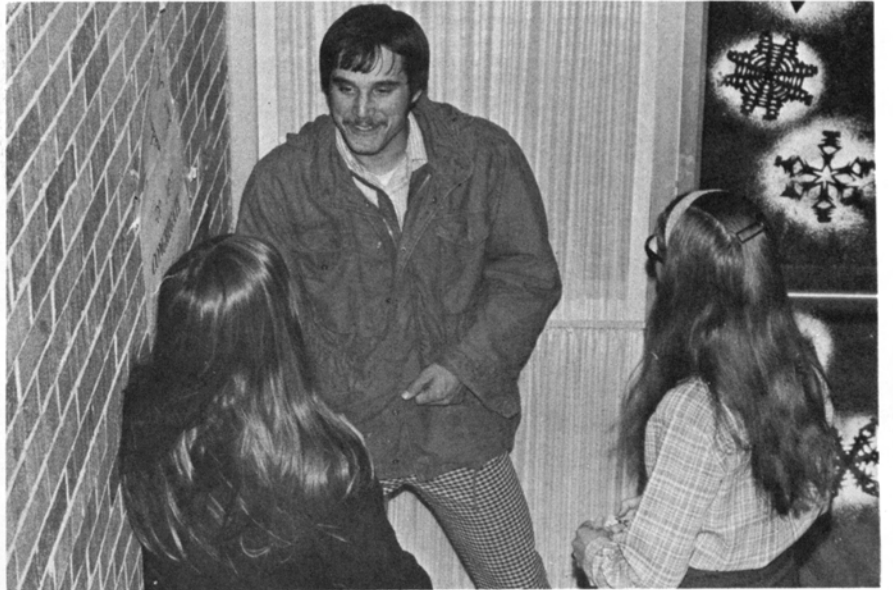

The Women's Residence Hall Association had an interesting and enjoyable Year in 1975.

.The girls participated greatly in all campus activities especially in the intramural program where they finished second in the women's program.

.....The dorm also sponsored a pizza party and outing and contributed their sewing, typing, and hair cutting efforts to raise money for Ugly Man. . . .

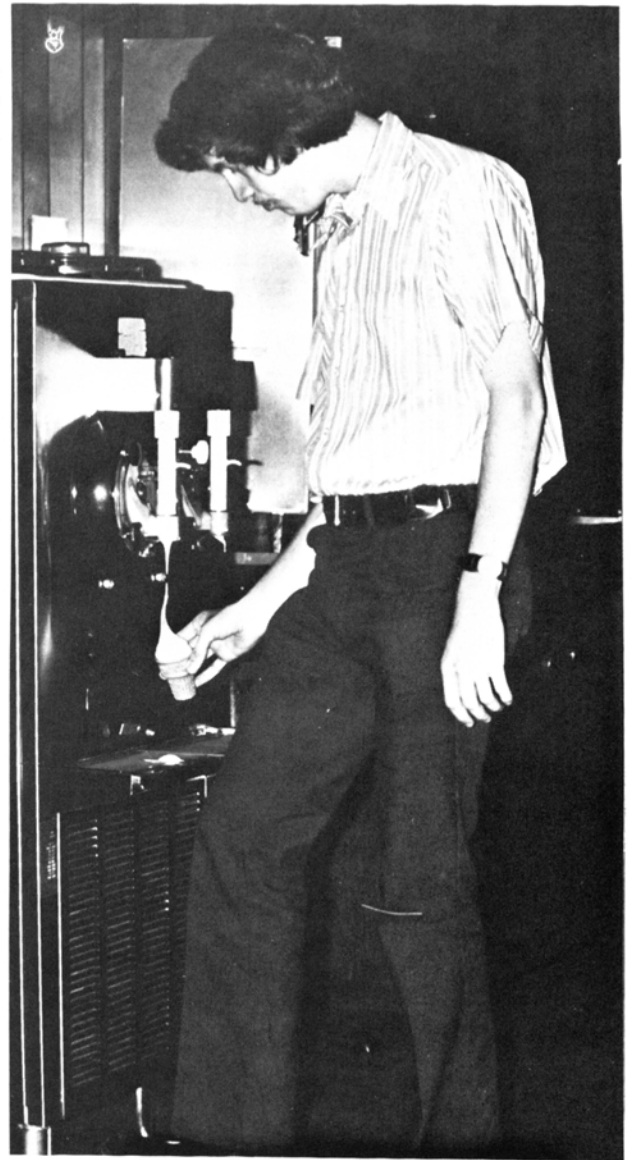

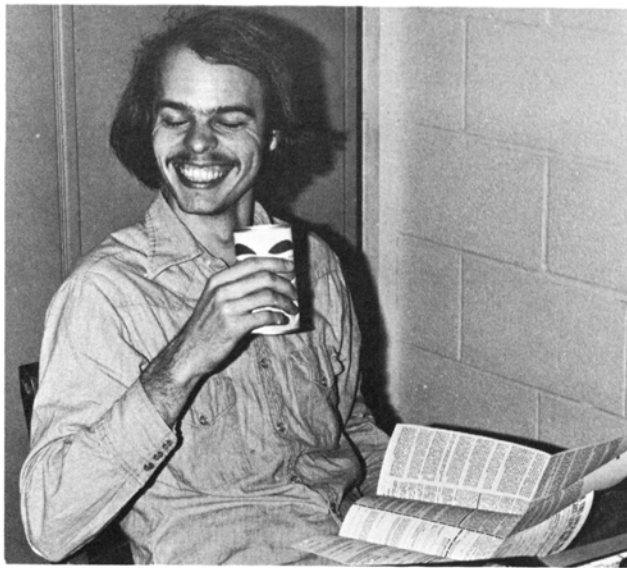

.....The girls also continued their excellent standing in the academic section of university life.

House 3, whether you catch them in a dilly mood or a truckin' mood, remains one of the most active houses in the MRHA. Steve Tillman, MRHA President, is the 5th president of the last 6 to hail from House 3.

Governor Trent Parkhill has motivated the house to the painstaking task of creating a 1000 pound cudgel from a 40 foot high oak tree. Other officers are Jim Schaefer, Matt Willie, and Mark Bording. MRHA Treasurer, John Westermayer and Miner football star, Mike Keeler are House 3 members. Killer Keeler is the House 3 RA and a top notch RA at that.

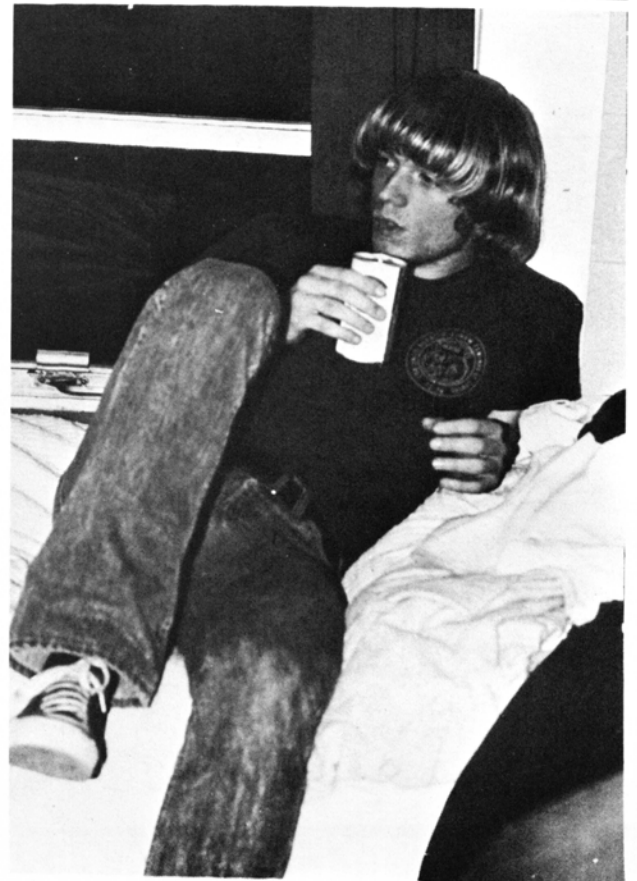

Ground Floor: with the touch of army ROTC, they use their muscle when House 3 repels 100 foot cliffs.

First Floor: home of Gamma Pi (Brothers of the Eta Rho Alpha) boasts of self-organized hall sports, polls, and government.

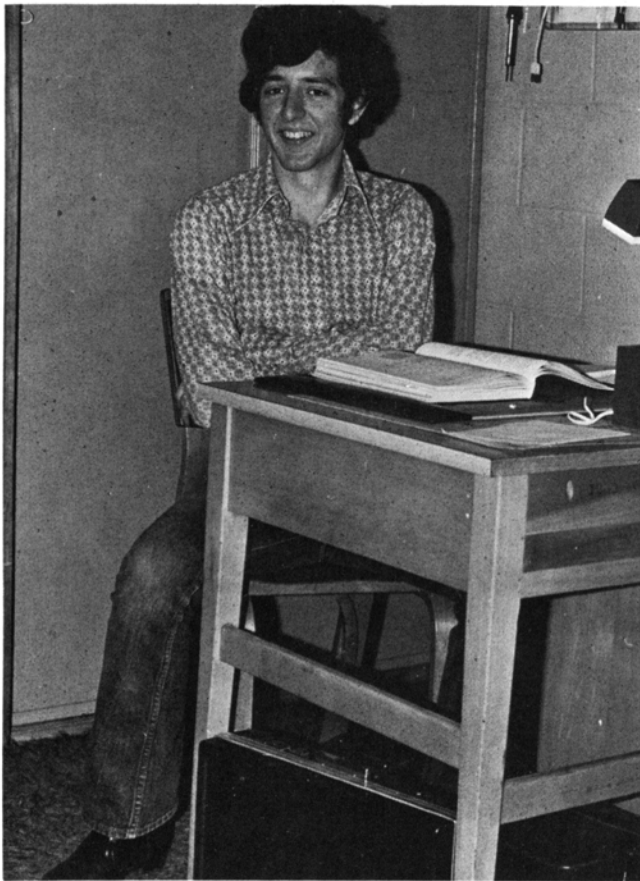

Second Floor: where music, rugby, the Miner football star, and the prez abounds.

Third Floor: the craziest and most energetic floor in the dorms; featuring a scenic lookout with binocular rentals.

These four floors combine their individual characters into a moving house and a great place to live.

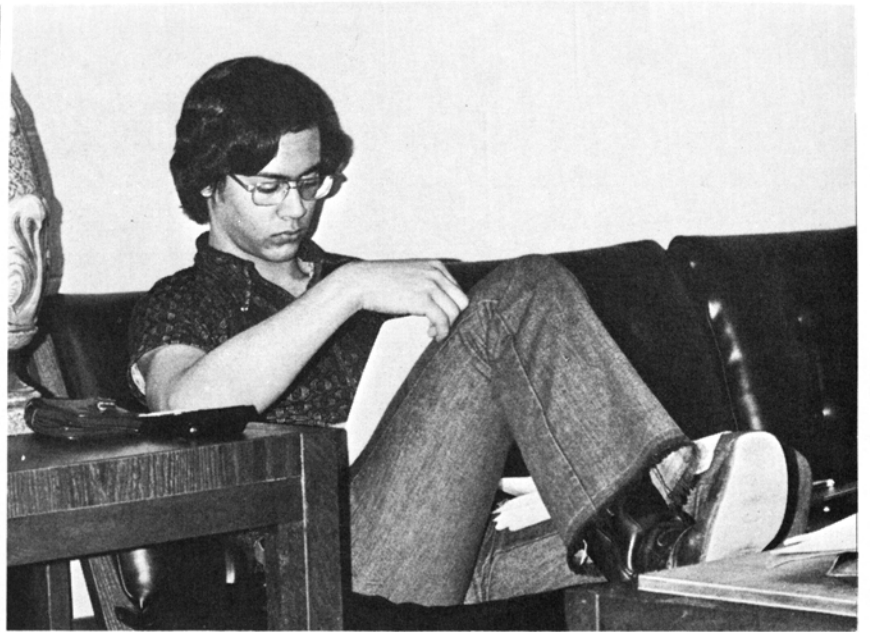

AH, House 4, what can you say about a place where the Existential Transmiration of human orifical bedoseness can smell so sweet. Yes, My friends, that and more is House 4, a place where social development goes hand in hand with scholarly education. In fact, some people socially develop right up to class time which makes strange class discussion. We play hard and work as little as possible. Yet our grades are good, yes, we are scholars of life. And we do not neglect the physical aspects of our mortal coils. We took all 5 events at the MRHA outing. Something none should overlook. Our consumption of brew is legendary, and the frequency of it is astounding to all who know us. Yes, this is 4, home of the smart, the free, the brave, and the drunk and dead dogs too.

House 4

This year has been one of a new look for House Five. With the vast majority of the members being either freshmen or transfer students, we introduced a whole new image. To start off with, House 5 came up with its highest standings ever in Football, Cross Country, and Basketball, and to accompany this, we also had the highest grade point average on campus for the fall, a 3.11. We are looking forward to more of the same for the 1975-76 school year.

The 1974-75 school year brought many new faces and changes to House 6. The entire house government changed hands and the new year brought many freshmen and transfer students. One outing was held in the fall with two more planned for spring. The house received a facelifting with the installation of new doors, carpet for the lounges, new furniture, and a copy machine. The prospect is for these improvements to continue with clocks, paintings, and plants to be added later in the year. It's been a pretty good year for House 6, RHA, and the future we of House 69 hope they can continue to improve.

House 7

The men of House Seven of the MRHA have thoroughly enjoyed the 74-75 year at UMR. Some of the activities that the members of House Seven participated in include: intramural and interdorm athletics, Theta Tau's Ugly Man, St. Pat's, Independent's Weekend, and Various MRHA activities. The highlight of the year for House Seven was the design and purchase of house shirts.

House 8 continues it's one-year tradition of unusual and varied activities. Among the printable ones, the MRHA outing was the beginning. House 7 was dragged through the mud of Lion's Park Pond in 8's triumph of the Holtmantug-a-war. House 8 entry to the six-pack chug came out also on top. The high point of the fall sports was the second-place standing captured in interdorm football, a feat unsurpassed in recent house 8 history. The victory celebration was wildly appropriate.

Delta Sigma Phi

Delta Sigma Phi enjoyed another year of the daily grind here at Rolla. At the start of the semester, Phil Kaplan took the Intramural tennis singles championship. Later that semester, the house sponsored the First Annual UMR Arm Wrestling Contest, proceeds going to the Ugly Man Fund. During the semester the house made several trips to St. Louis to repair and refurbish day care centers in the area for Gamma Alpha Delta projects. In the Spring semester the house established a Little Sisters Chapter, initiating a dozen lovely ladies as Chapter members. And the year closed up with the Delta Sig bowlers, led by Darrell Robinson and Roger Senft, overpowering their opponents to take first place for the semester and the year in the IFC Bowling League.

This year Delta Tau Delta participated in the annual IFC Fall Clean-up, held our own third annual Christmas canned goods drive for the needy families in this area, and participated with a non-float entry in the St. Pat's Parade, collecting over \$300 in the process for Shamrocks against Dystrophy. Next year we hope to do even better.

Kappa Alpha

Kappa Alpha retained its wrestling dynasty this year by capturing its 8th crown in 8 years. Along with wrestling, K.A. also won swimming and tennis and finished strong in golf, horseshoes, bowling, ping-pong, softball, and football. But intramurals isn't all that happened this year. Academics placed K.A. in the upper half of all the greeks. Also the Beta Alpha chapter's Cliff Mahar was the I.F.C. president and Greek God. K.A.'s also helped re-open the Rolla-U-Center and participated in two Gamma Alpha Delta work projects as well as the Cancer Crusade. Overall its been a very good year for K.A.

Installed in October of 1972, Kappa Delta has been on the UMR campus only two and a half years. This is our second year as a living unit in the house at 1301 Elm. Though our numbers are small, we took active part in a variety of campus activities. We participated in almost every intramural sport, particularly the team sports, with enthusiastic support. Our pledges designed and built our Homecoming display, "The Computer That Wore Tennis Shoes." We served as hostesses.

.for University Day and held an open house for Parents Day. After much practice, our chorus won first place in the IFC sing for "Let There Be Peace on Earth." We finished the semester with our annual caroling party to other Greek houses and the Foster Children's Family Unity Day, sponsored jointly with Wesley Foundation. The spring semester brought a visit from a national officer, a dinner at the home of our faculty advisor, and of course our Spring Formal.

The school year 1974-75 proved to be very successful and rewarding for Kappa Sigma. Again we placed well in Intramural Sports as indicated by our capture of the football championship. Continuing tradition, social function at Kappa Sigma were numerous and basically a good time. The acquisition of a superb freshman class will almost make up for the loss of our fourteen brothers who graduated this past year.

The Lambda Chi Alpha fraternity has had a very remarkable 1974-75 school year. We've had an active social life as well as a year full of community service. Our annual Halloween and Christmas parties came off with the usual success while the children from State School #23 went off with gifts and happy memories.

The second semester began as the chapter witnessed the initiation of 13 fine men into the fraternity. A bus trip to a I.S.U. basketball tournament was also part of the early calendar for 1975. Again, our social life was not lacking as we celebrated St. Pat's and Greek Week in style. We were glad to welcome many alumni as they came back to party with us. At the end of the school year, we gave the 13th annual benefit chicken dinner from which we were able to give approximately \$500 to each of two charities.

The brothers of Sigma Nu had a good year. They started by getting a pledge class of 30 men and retiring the IFC scholarship trophy. They came in in the top 5 in intramurals by winning several small sports and taking intramural softball. They stayed active in campus events, presenting "Mammy" at the IFC Sing and building a float for the St. Pat's Parade named "Beanie and Cecil".

Tau Kappa Epsilon

The fraters of the Tau Kappa Epsilon took great strides in improving the chapter during the 1974-75 school year. The most notable item was the destruction of the old house. The old house had served as a recreation area and a living quarter since TKE's beginnings in Rolla in 1947. As far back as 1905, KA had lived in the house. A great deal of tradition was tied up in the old house. To remember some of this tradition, the entire chapter participated in a project to build a patio from the bricks of the old house. Teke also made a very respectable showing in campus activities during the year. Teke won the intramural championship. A first place finish in volleyball coupled with high showings in football, basketball, soccer, cross-country, and wrestling placed TKE well ahead of the pack. In addition to athletics, Teke's also demonstrated their artistic talent as they finished second in the homecoming display competition and third in the St. Pat's float contest. Tekes also are looking forward to defending their Greek Week crown. With the construction of a new house, Tau Kappa Epsilon will continue to be one of the campus leaders.

Triangle

Triangle Fraternity, a brotherhood of engineers, architects, and scientists, is proud of its achievements this past year. Its membership is expanding and growing and will be accommodated an annex next door. We participated in two Gamma Alpha Delta sponsored work projects to assist the needy in the St. Louis area. Being a combination social and professional organization, we participated in judging the Science and Engineering Fair here and presented a plaque. With these few highlights in mind, Triangle is looking forward to even better years to come.

Zeta Tau Alpha is an international fraternity for women. Although installed on this campus only two years ago, we are very active on campus and in the community with such things as the Red Cross blood drives at the Rolla Diagnostic Clinic. ZTA also offers a friendly and homey atmosphere for its members as do all fraternities.

The engineering student upon completion of his Bachelor's degree is in a unique position. Most of them have received sufficient training to obtain a job in their specialty. In contrast, many of the science, business, and liberal arts majors may need additional training, including possibly graduate study, in order to obtain a job in their specialty.

Bill Sallas

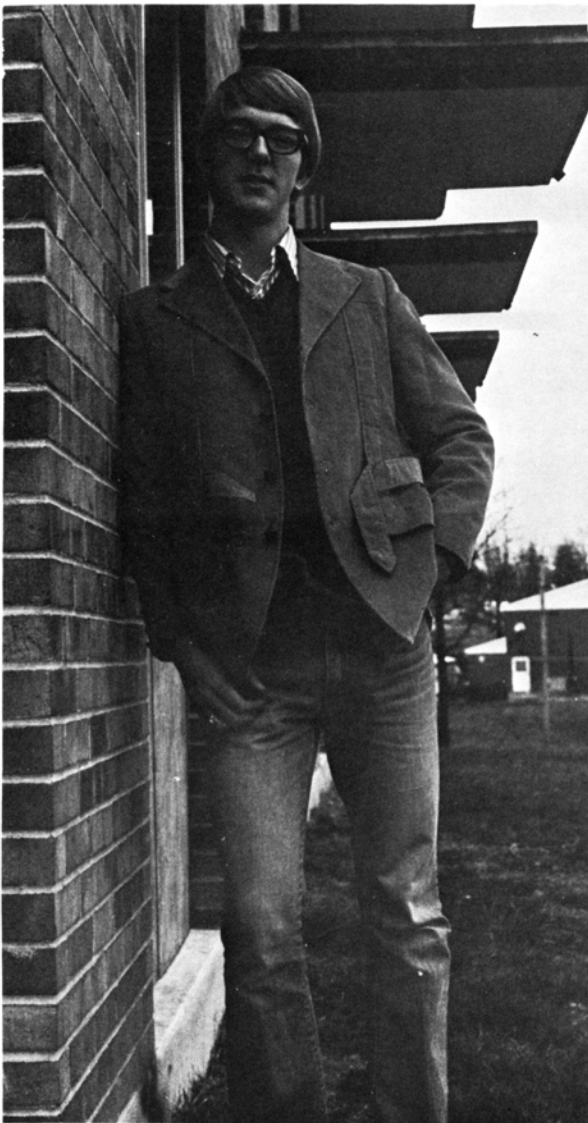

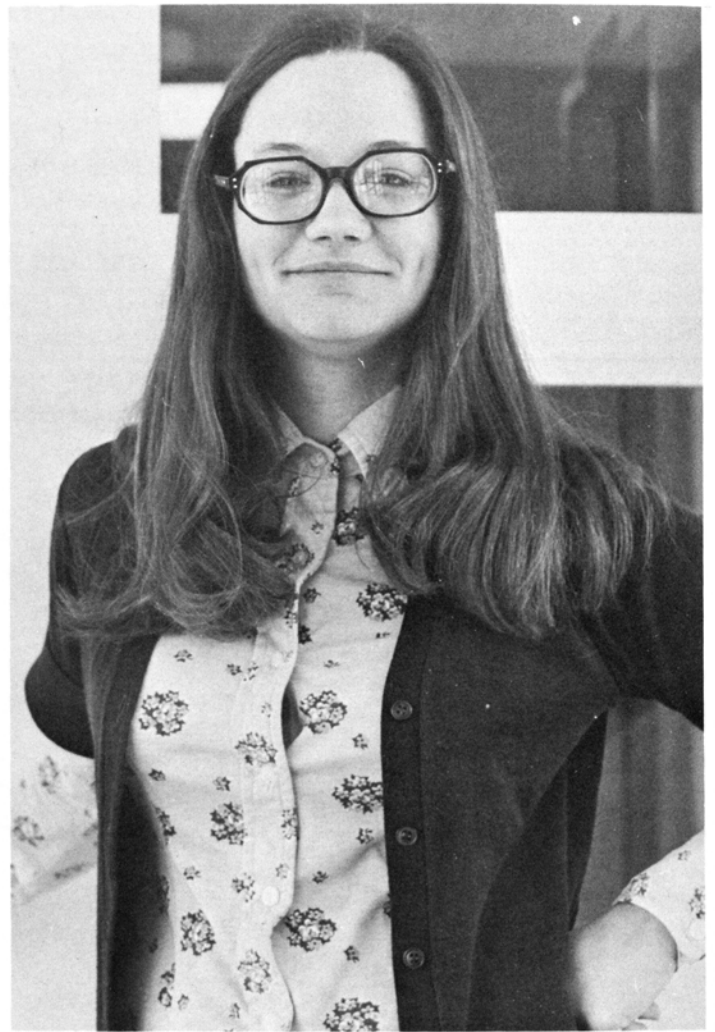

Involvement in the offices of student organizations on the UMR campus has been extremely rewarding. The atmosphere surrounding such extracurricular responsibilities is similar to that found in industry, and has provided very much valuable experience which will be helpful throughout my life. The importance of this experience became especially apparent during my co-op work periods. Knowing how to properly react in a business situation, and being able to realize the alternatives and consequences in advance have to be keys to success.

Dennis W. Leitnerman

Don't hassel the phone company.

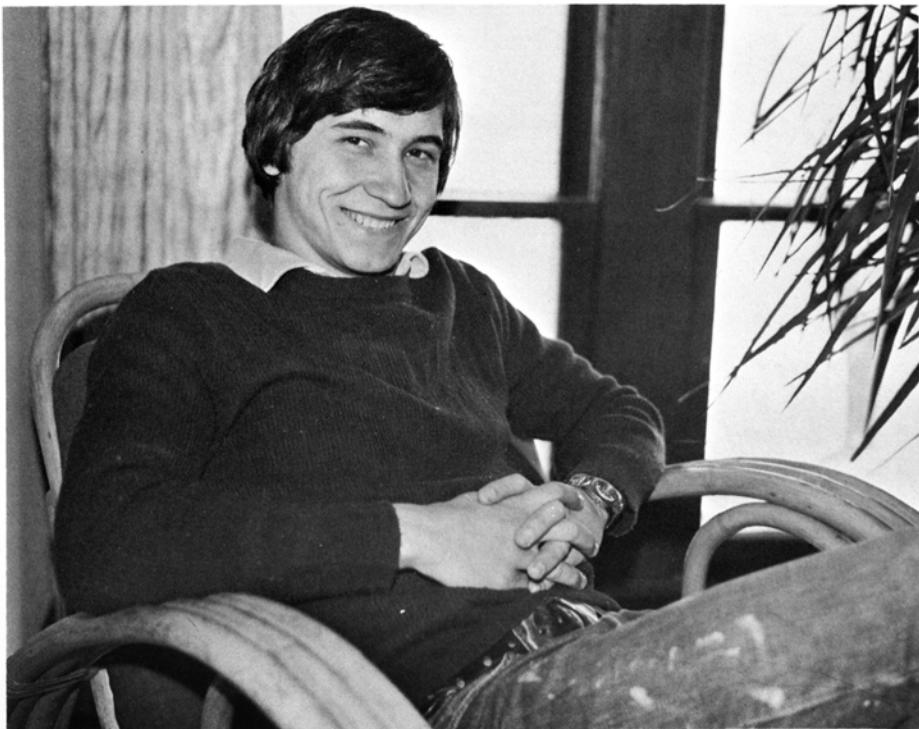

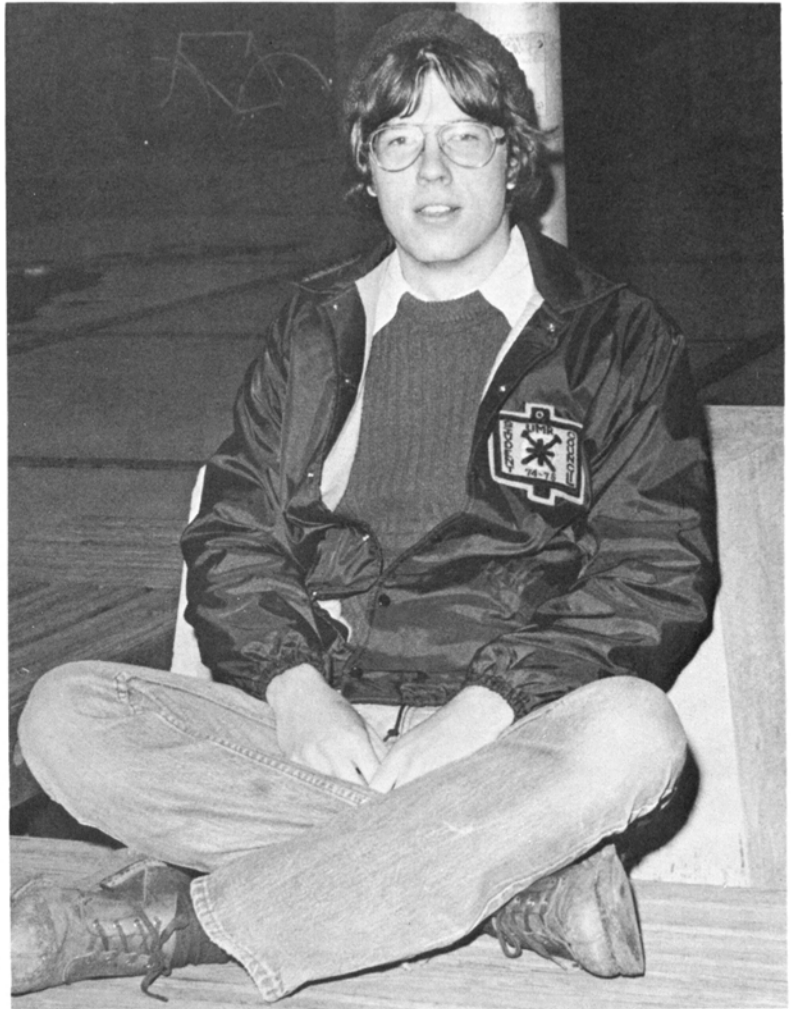

D'Arcy Holt

From my years spent in both a Fraternity and a dorm, I've learned that fraternities aren't for everyone. Dorms aren't for everyone either. Whoever isn't satisfied should be allowed to move elsewhere, no contracts, no hard feelings.

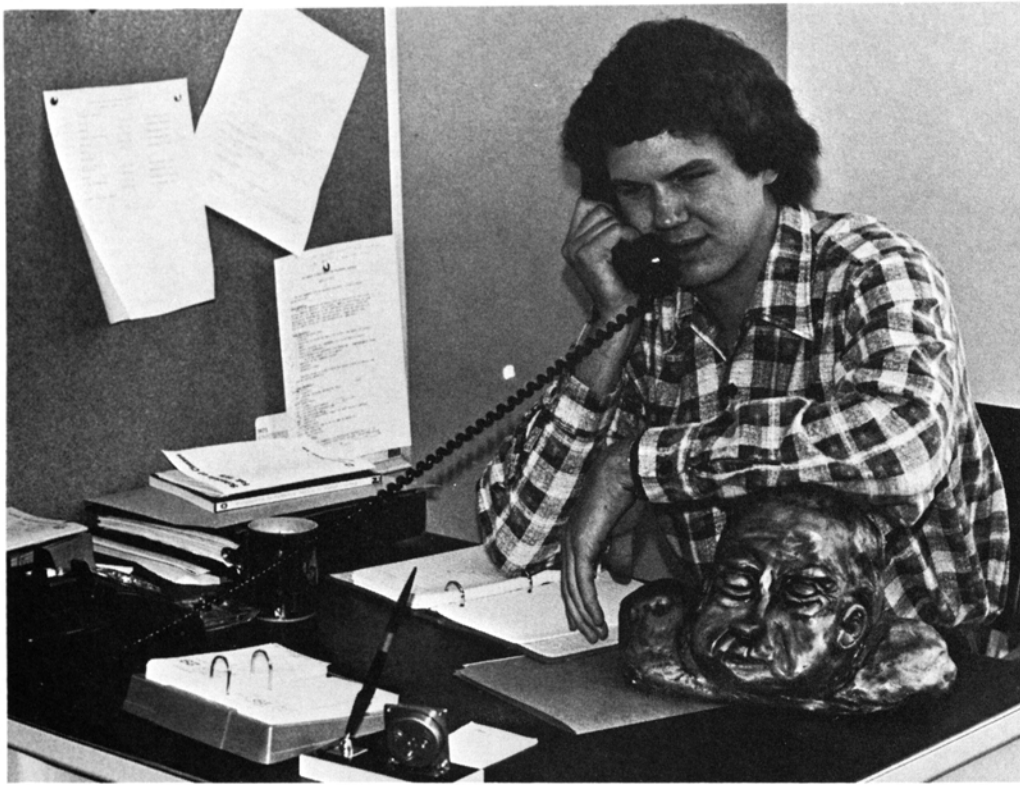

David Dunavant

Thomas Holley (4.0 jock)

Thank you, Rolla, for being the unique place that you are. I can only hope that you'll provide for your future students the same chances and opportunities that you offered me.

*Through my stay here at UMR I have
had many successes and many disap-
pointments. However, I've learned to
maintain a positive attitude by
remembering, "It's not what happens to
you, but how you take it that counts".*

Dick Hellwege

I think one thing this school is lacking in is tradition-at least compared to other schools. For this reason I hope all traditions of St. Pats will be retained. This celebration sets UMR apart.

Ed Hutson

What would I like to be remembered for? In short, just being different. Hopefully, I added a little variety to the "normal" (read dull and conforming) lives of the people I've come in contact with. To anyone who says "She was a little different" I thank you. I have been successful in my purpose and therefore have justified my existence.

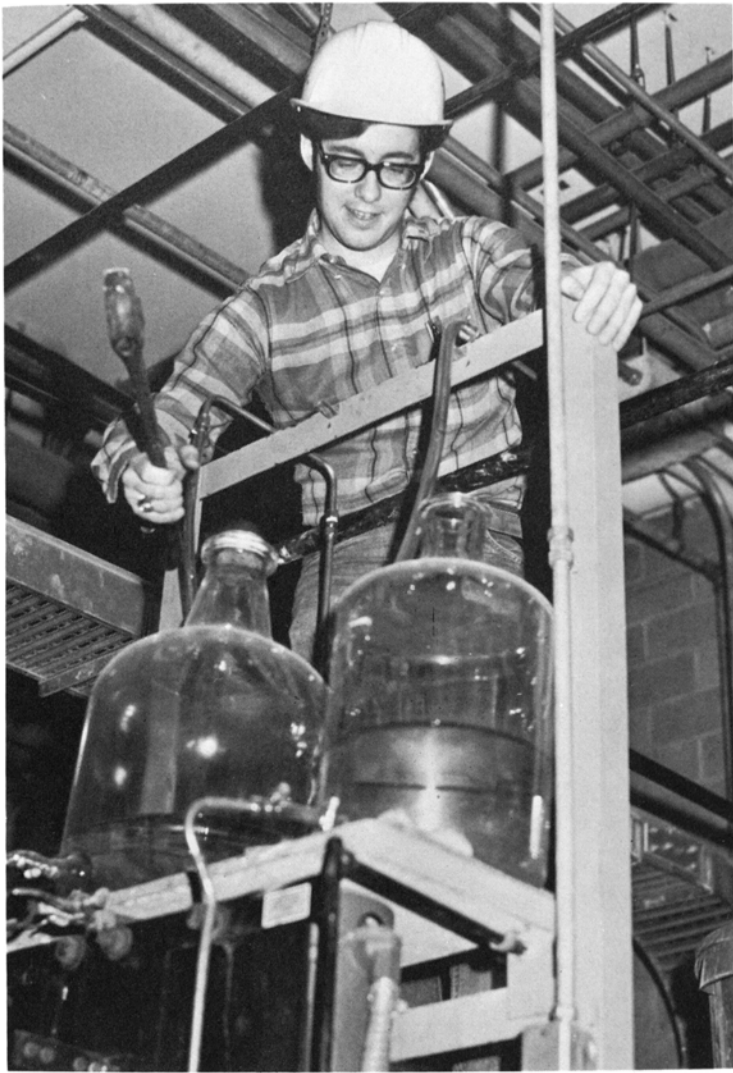

Diane Gibbs

The UMR fraternity system offers an excellent opportunity for students to get out and make friends, and to get involved in campus activities and organizations. I know it helped me.

Joe Cappa

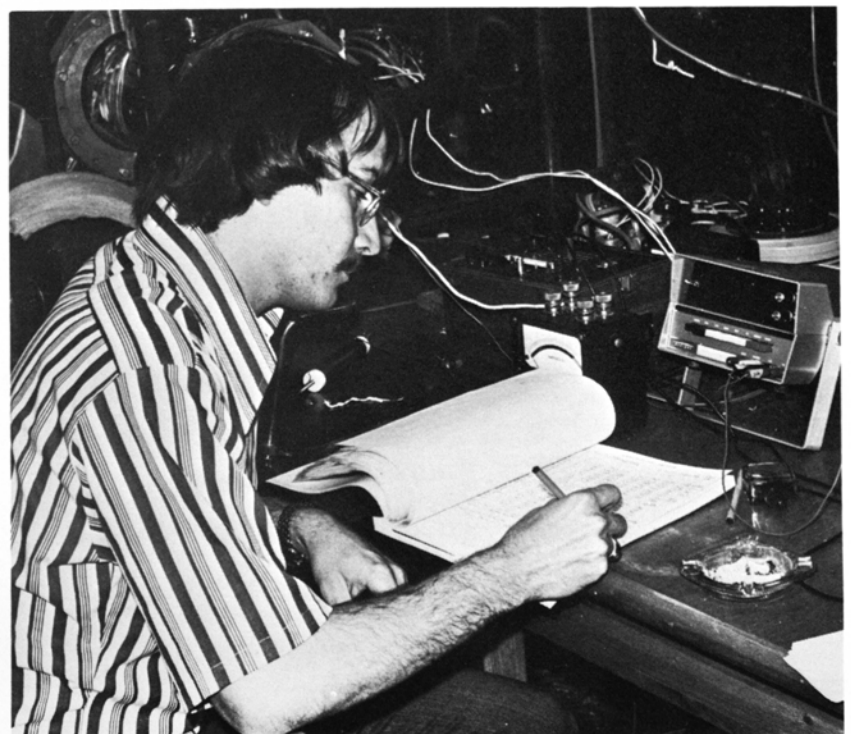

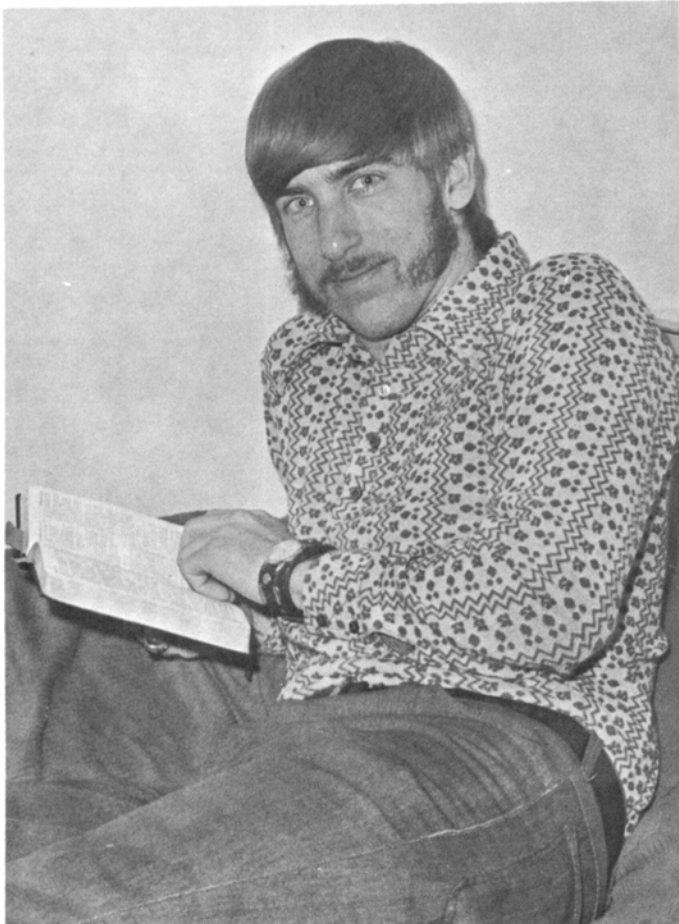

In order to answer the questions and problems in a real life situation, a person must solicit the knowledge and help of others. Consequently, every student should allow time in his schedule to participate in activities which will develop and strengthen his ability to work cooperatively with other people.

Hank Birk

The best advice I can give to those who wish to succeed in college is to take the time to do so.

Tony Messina

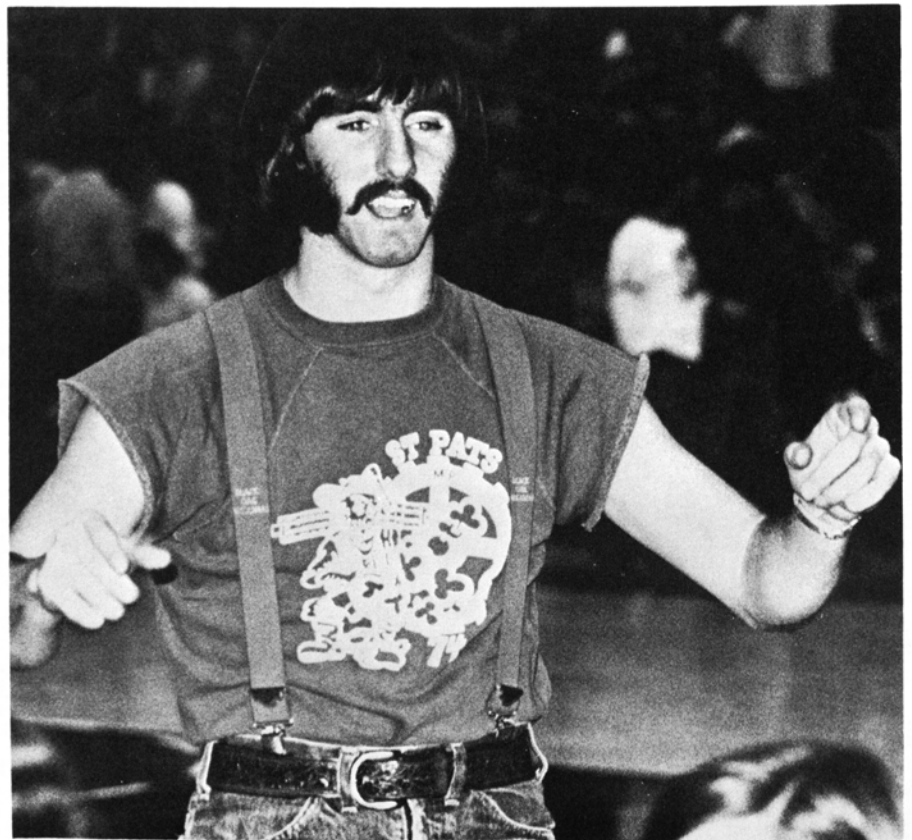

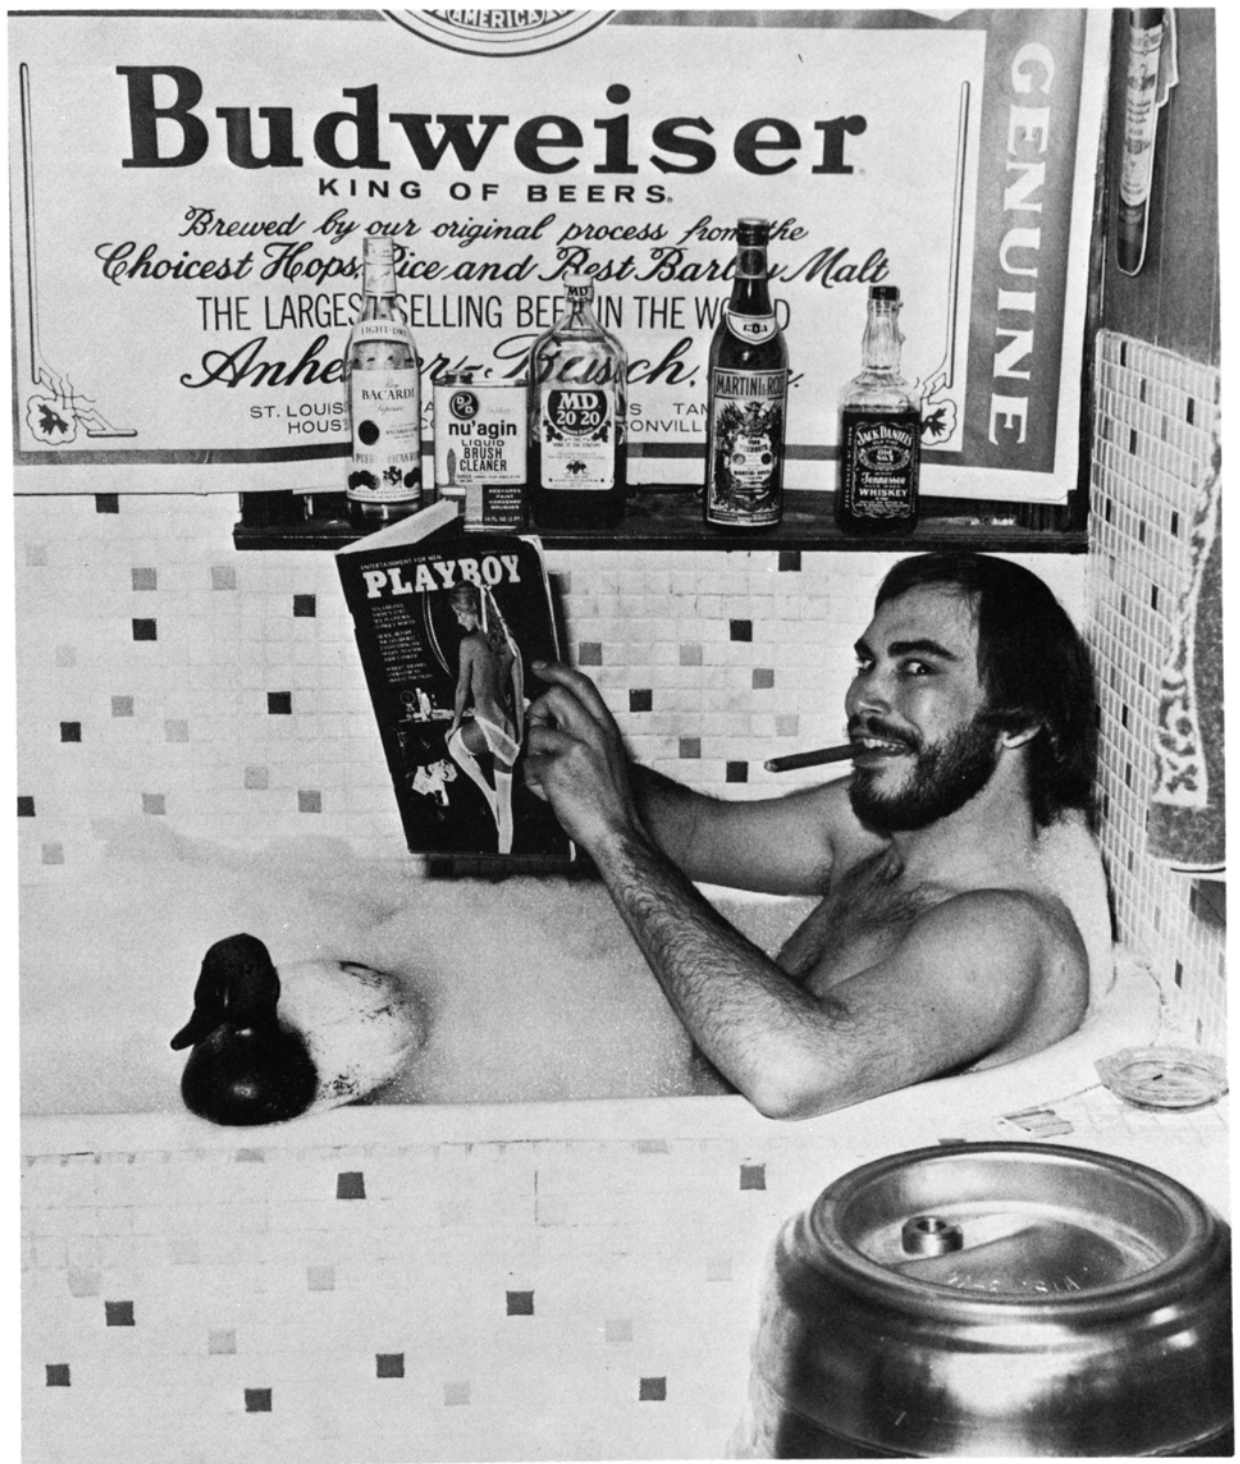

Robert Schaefer

I think UMR is one of the finest, if not the finest, Engineering schools in the country. Because of this fine reputation, a graduate of UMR can be proud he made it through.

I feel that if the male-female ratio was better, social life and campus involvement would increase, the apathy would go away, and school spirit would abound, making everyone again exclaim that are proud to be a Miner.

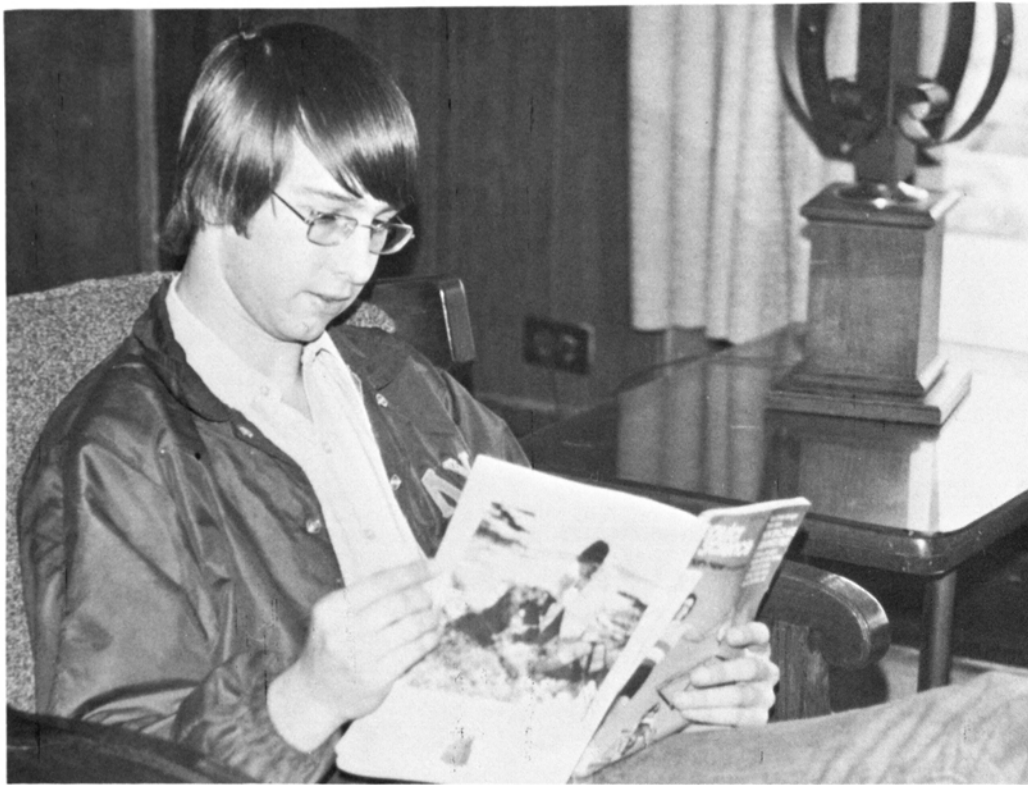

Paul Abney

*At the end, nobody cares how many
storms you encountered, but whether or
not you brought in the ship.*

Gerald (one-eye) Meyr

Despite the general opinion that everyone on campus is out to "screw the students" usually if you take the time to sit down and explain your problem or idea, it's amazing how much help and support you can muster.

Mike Boothby

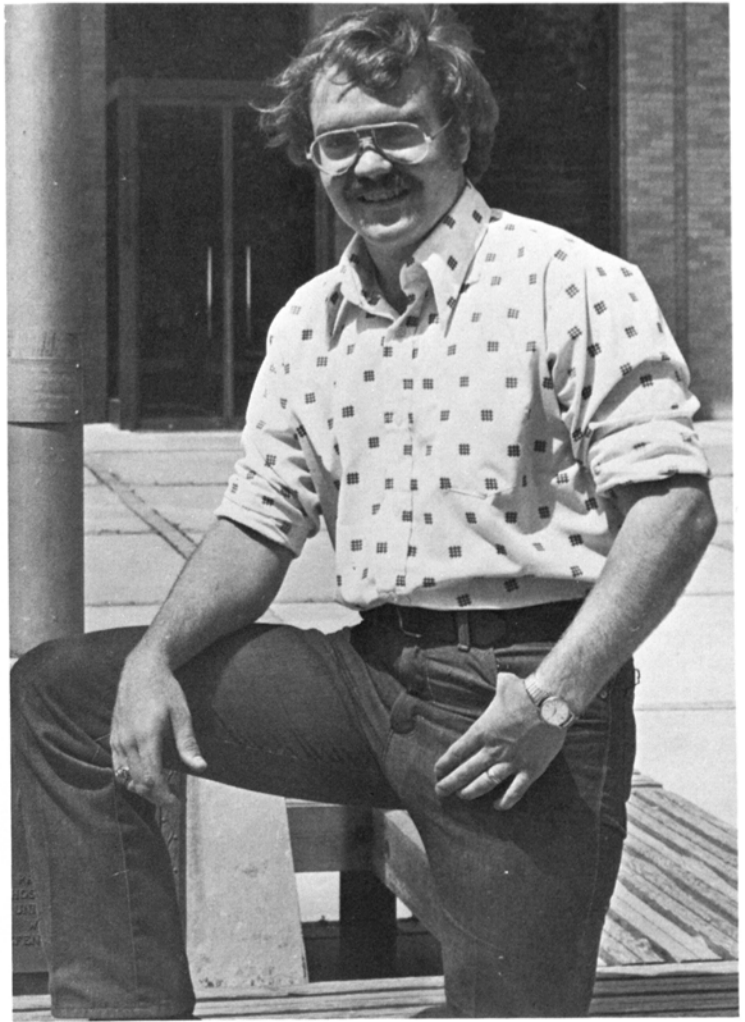

The key word to happiness is involvement. It's not only an outlet for excess energy but also an opportunity to grow. And UMR offers unique chances for such involvement. For such a small college, we have a wide variety of active organizations where a person can be more than just a face in the crowd.

Engineers and scientists have a tendency to isolate themselves, and it begins in college. After four or five years, they emerge intellectually mature but emotionally and spiritually a child. That's a great waste of good material.

Paula Marcellus

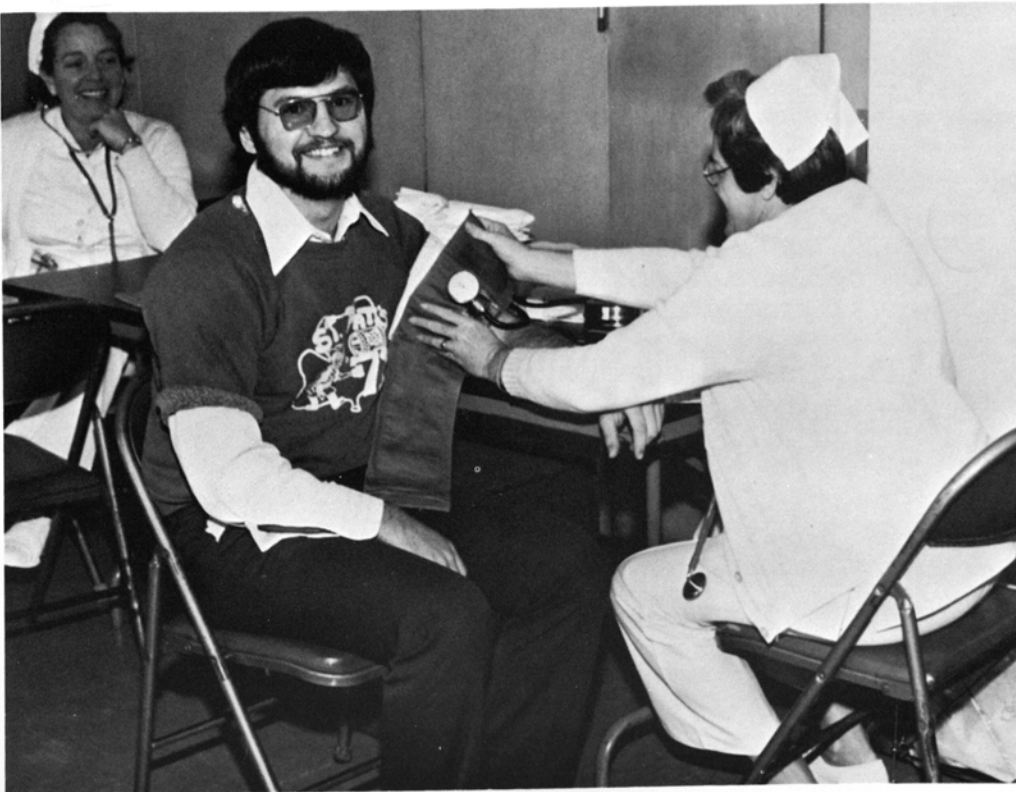

Karl Heisserer

I would like to be remembered for being a true friend, for reaching out and helping when it meant sacrifice and then not expecting anything in return. Wouldn't it be great if we all could realize that "we are now becoming what we will someday be" that luck is preparation meeting opportunity.

Dean Tibbits

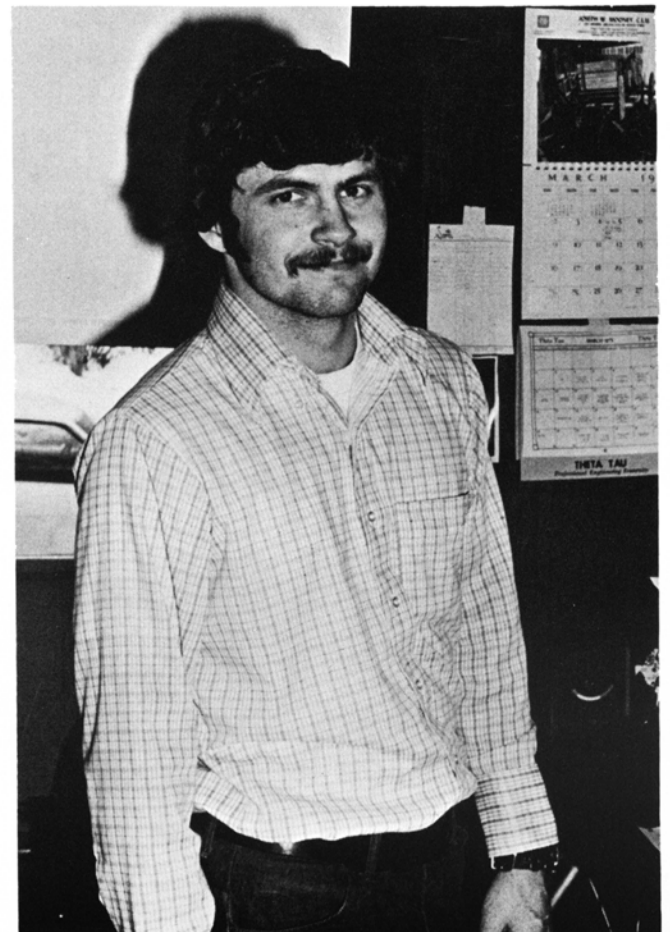

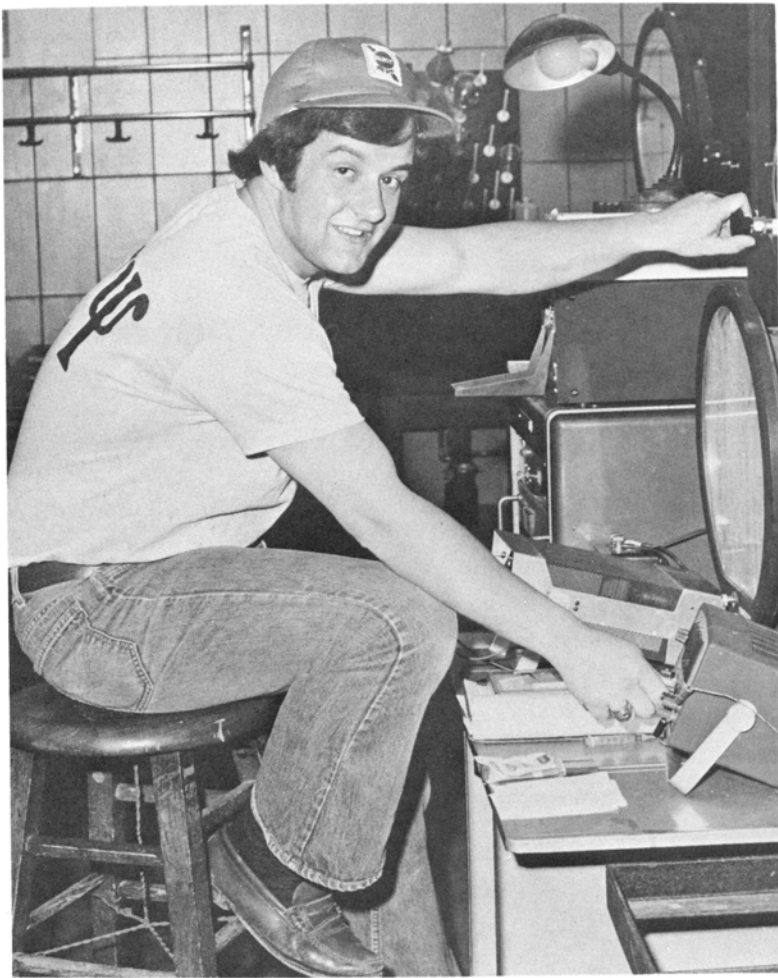

Unless you have learned to communicate to people, your knowledge gain at this institution is lost. If you don't know how to manipulate people to your ways while comprimising your own, you are destined to a life of insignificance.

Robert Fleischman

One million years ago, man painted on cave walls to teach and record. After these thousands of years of technology, we have advanced from the abacus to the computer, from the spear to the nuclear warhead, and from painting on cave walls to scratching chalk on slate blackboards. Somehow I think education was left out.

William Rosenbaum

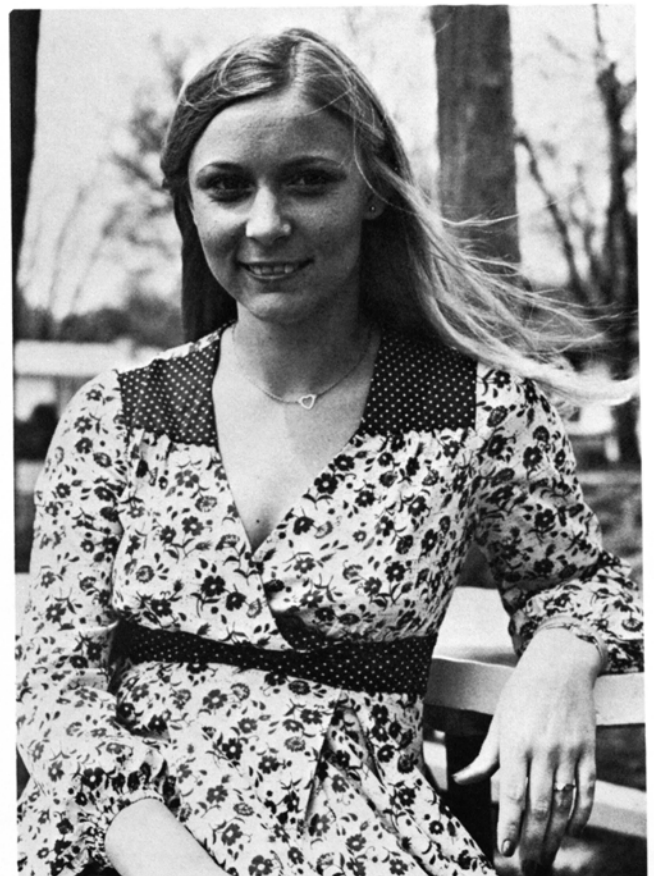

We get so much engineering and so little of other areas, that an engineer has some catching up to do during the summers and when he graduates.

Ray Winkleman

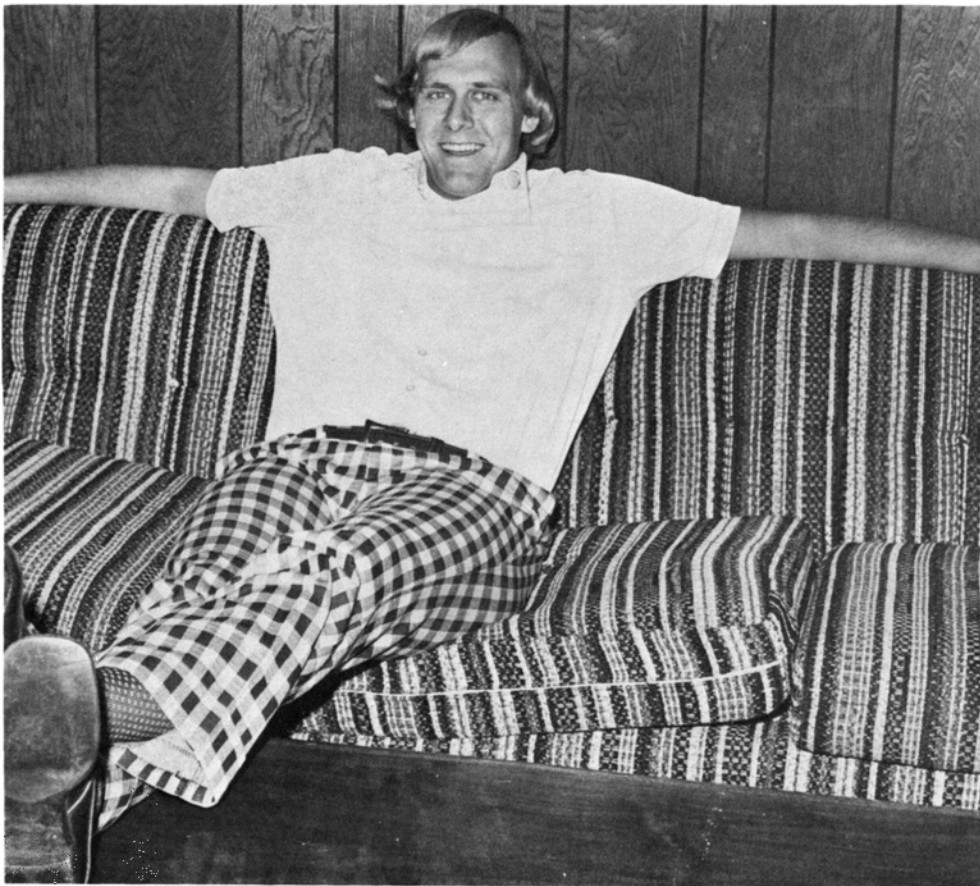

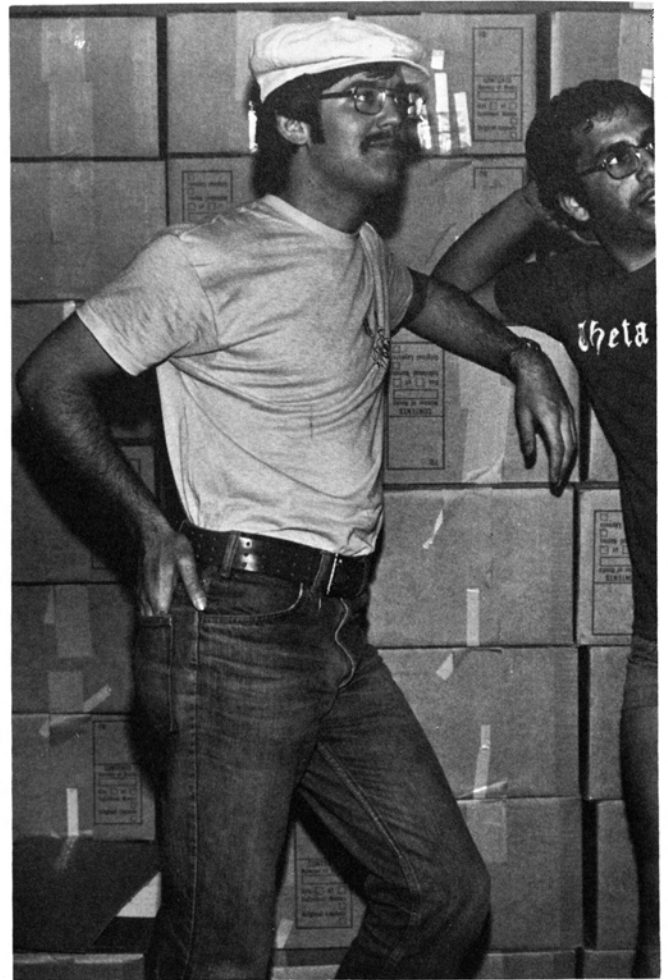

Now, four years later, I'm graduating and I have but one ambition. I want every day in every way to be as happy as I possibly can.

Delores James

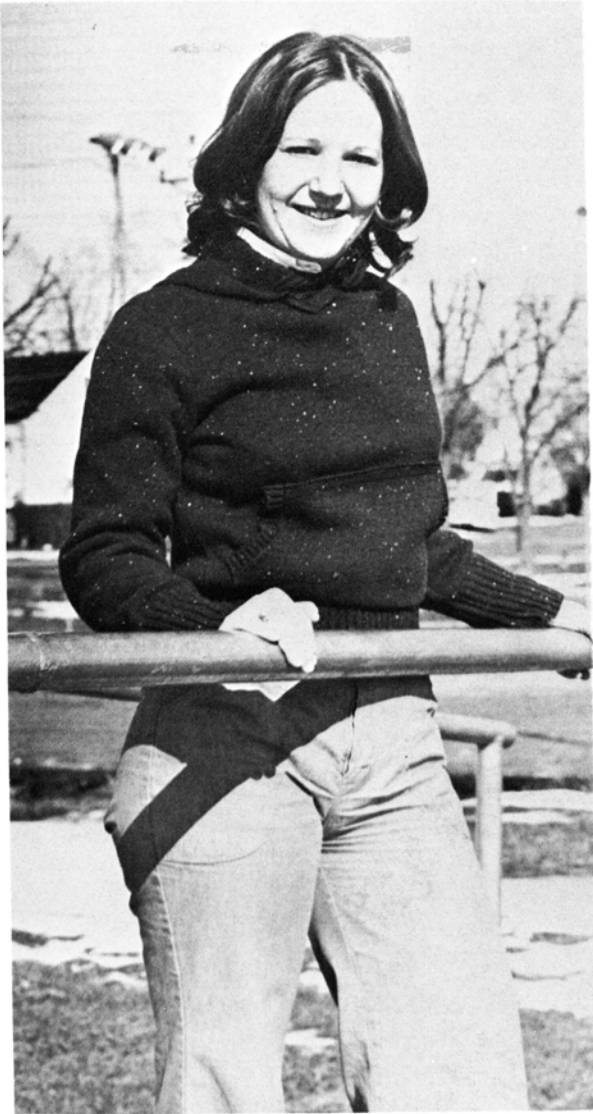

Students coming to this campus now are not as interested in being the campus leader as in years past. Most just want to get good grades and /or have a good time. The idea of being a true campus leader who everybody knows is not as appealing as it used to be. And this fact has really hurt top organizations like Blue Key and Theta Tau, who strive to get the top leaders for their membership.

Dave Schepers

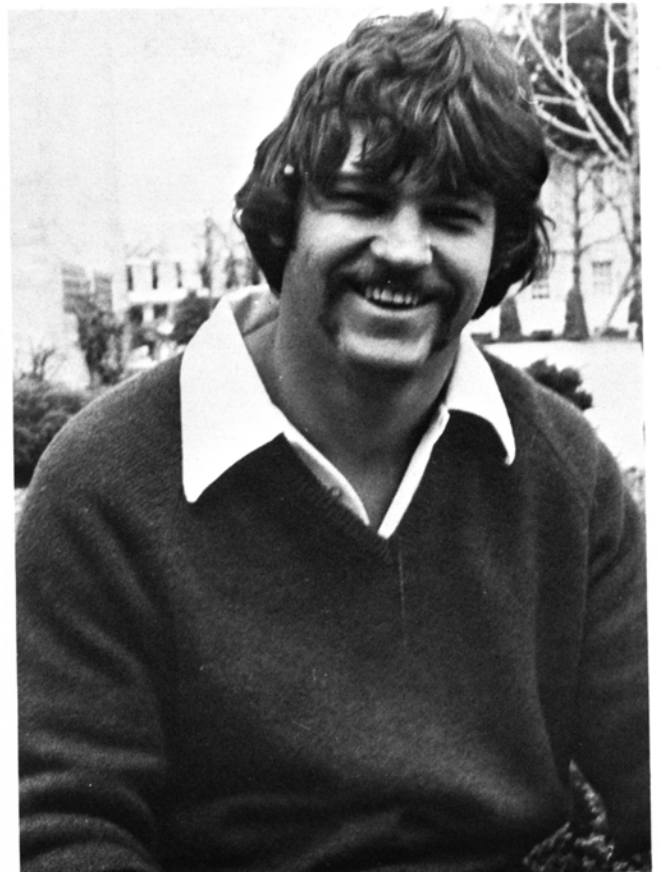

Bob Becherer

*UMR is a unique college. If you tell
someone that you go to UMR they want
to know where it is located and what
kind of a school it is, but if you tell them
you are from the Missouri School of
Mines they know exactly what you are
talking about and in their next sentence
comes "That's a good school, isn't it?".
Maybe we should change our name
back.*

Terry Micnheimer

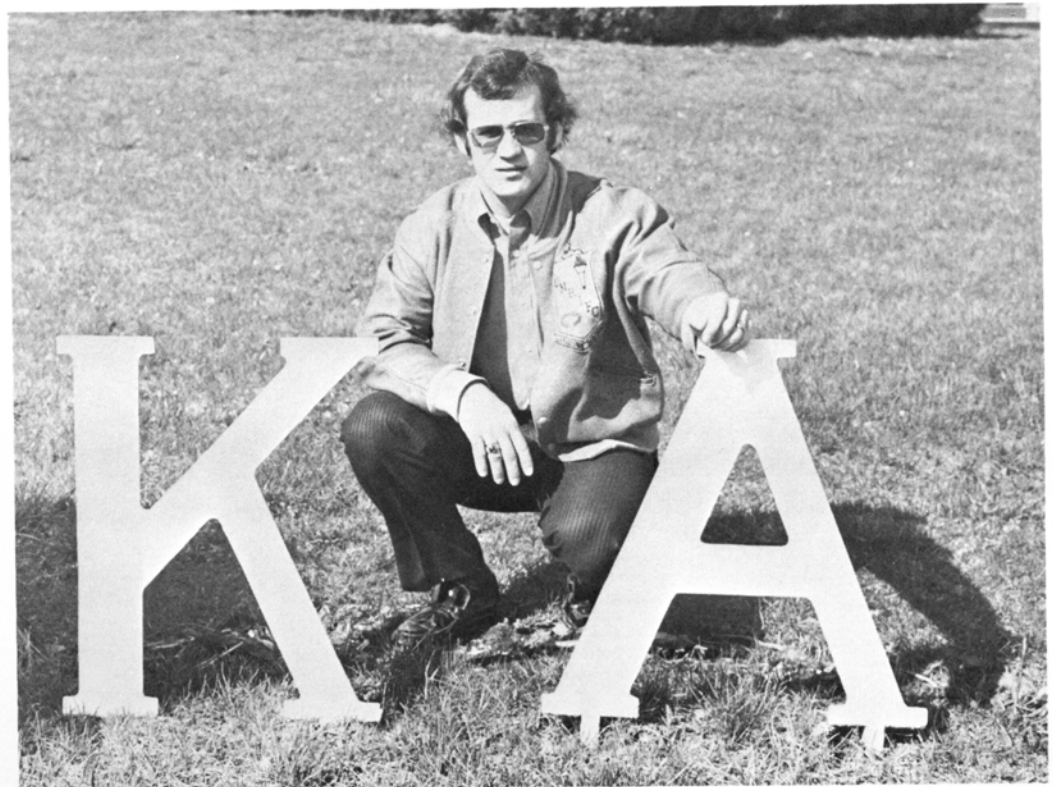

Grades are important, but if that's all you've got, you're missing something and you'll probably find out what you're missing sometime-but by then it'll probably be too late. Get out and meet people and see how great it is to have friends, they're the only ones that can do you some good and make your college days the best days of your life.

Editor's Note

The 1975 Rollamo is a pictorial essay of the year the students here at UMR created. We on the Rollamo staff sincerely hope that we have captured every activity that occurred and have given credit to every organization on campus that contributed to the 1974-75 school year. If we have not, we are sorry, but we tried.

I am extremely thankful to a few people without whom this yearbook would not be what it is. Dr. Lance Williams, who has been our advisor for several years, was very helpful in every aspect of the yearbook organization. I would especially like to thank him for his continued help when the work extended into the summer months. Thanks to Paul Coram for his help on the cover and for his new ideas, including the special effects. Thanks also to Ben Shipman who answered a lot of questions on the mechanics of laying out the book. And again we wish it to be known that without the help of Ernest Gutierrez, University Photographer, a lot of the pictures in this book would not be there.

I would like to thank all of those editors who stuck with their sections throughout the year and did them excellently. This includes Paula Marcellus, Mike DiNapoli, Mark Dolecki, and Kathy Veit. Unfortunately, four editors stepped down from their sections and others had to pick up their sections. Special thanks to Nic Neumann for taking the task of Living Units, and Craig Korkoian for taking Activities. They both did excellent jobs. The Sports section was left by the editor during finals week and I personally took it up. I am sorry that there is not more copy but it was just too late to attain it. Thanks to the coaches and Joanne in the Athletic Office for getting me what they could.

I owe a great deal to the photographic staff for a job well done. Special thanks goes to Nic Neumann for making sure that all the events were covered and to Mark Lorenz for doing most of the special effects.

I am extremely grateful for having had the chance to be the editor of the Rollamo. It has been a challenging but a rewarding experience and I learned a lot. Thank you.
